Bricks

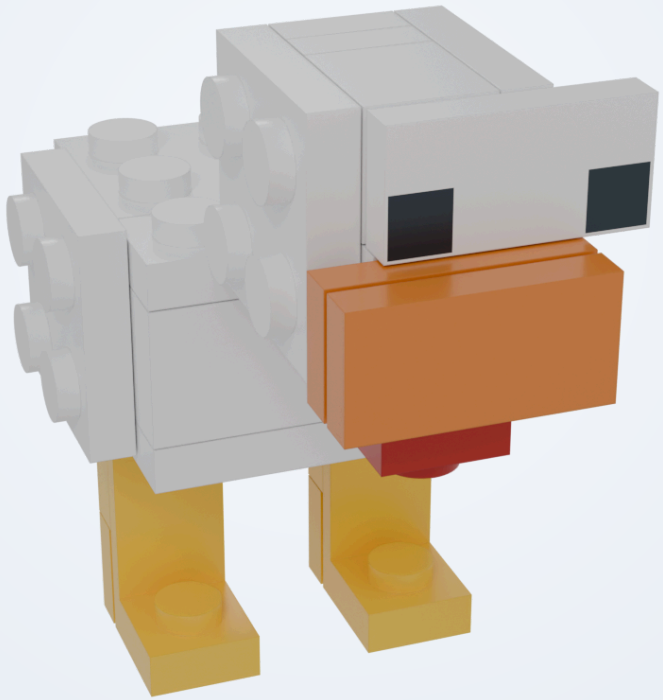

A LEGO® BRICK MODEL OF

Chicken

A blocky white chicken in 30 pieces. A design by zeldar.

Designed by zeldar

30 pieces · 22 steps · 2 sections

Not produced, sponsored or endorsed by the LEGO Group. LEGO® is a trademark of the LEGO Group. Chicken and related names belong to their owners. Made with brickkit · 2026-11-05

Before you start

An unofficial fan-made manual

This booklet is not a LEGO product. It was generated from the model file by a computer program and checked part by part.

The model was designed by zeldar (https://brickit.app/ideas/1ff0b486-ec13-474b-b23a-42492bd06964). These steps follow the designer's own instructions, redrawn here.

Not physically build-tested

The model and these steps were checked on a computer only: every part/colour is a real LEGO element, all 38 connections between parts were matched in 3D, no two parts overlap, every part can be pushed into place in its step, and the model's balance was estimated. Not tested: how firmly parts hold, part tolerances and how it copes with handling. Take your time and support the model while you work.

The finished model

About 3.4 × 4.8 cm and 4.8 cm tall, about 15 g (estimated).

Start with the 3 x 3 plate turned over and hang the legs under it on brackets, then build the body up on its top. The head grows forward from a headlight brick's stud: two bricks with studs on two sides, a 2 x 2 plate on each side, and the printed face, beak and red wattle on the front.

You will need

- The 30 pieces in 4 colours listed at the back, with their LEGO element IDs and BrickLink numbers.
- A brick separator for pieces that sit too deep for a finger.

Tips

- Sort the pieces by colour before you start.
- Build the sections in order: each sub-assembly is finished before it is used.
- New pieces in a step have a yellow outline; earlier pieces are drawn paler.
- The wings are 2 x 2 plates centred on single side studs: the stud goes up into the tube in the middle of the plate's underside.
- The two 1 x 1 plates behind the upper head brick go on its bottom first; then the three go on together, into the left side plate from the right.
- The face tile sits half a stud to the right, on one of its own stud places: a 1 x 2 tile cannot grip a solid stud in its middle.
- The head is out in front of small feet: stand the chicken on a flat table.

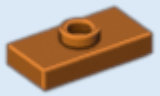

The 4 colours

- White: 20
- Yellow: 6
- Red: 2
- Orange: 2

How to read the steps

Parts and step number

7

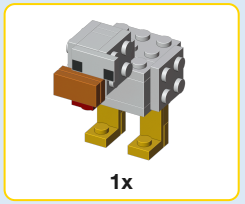

2x

The parts for the step and how many of each, then the step number. The parts of a step are drawn at one scale, so a longer one looks longer; a tile or a long plate also has its size in studs under it.

New parts

The parts added in a step have a yellow outline and are drawn in full colour; the parts from earlier steps are drawn paler.

Sub-assemblies

1x

A yellow-framed picture means: put in the sub-assembly you built in its own section. "Build 4x" means you need four of them.

Sections

Each section starts with its name at the top of the page. Sections are built in the order they appear.

Seen from below

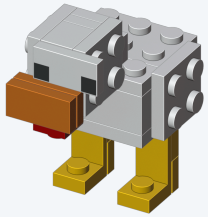

When a step adds parts underneath, the picture shows the model from below. A small label says so (and "seen from behind" likewise). A piece the picture cannot show gets a small picture beside it, ringed in yellow, from the side it can be seen from: where it clicks in.

Insert direction

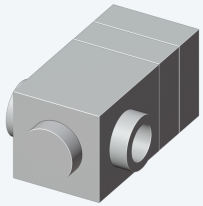

Some parts slide in sideways (axles through bearings, gears onto axles). The picture shows where they end up; push them in along their axle.

Build overview

The model is built in 2 sections. Each is finished before it is used.

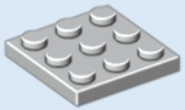

1. Chicken
steps 1–12, 14–22

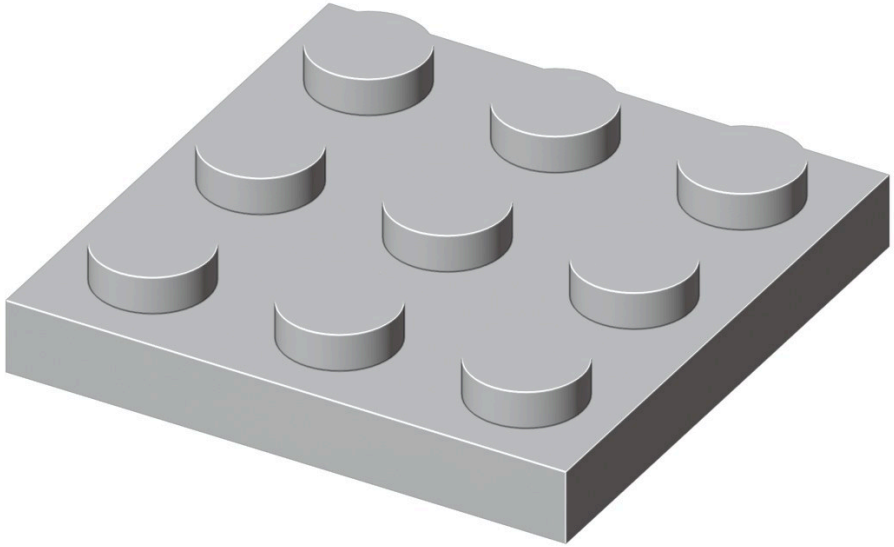

2. The upper head brick
step 13

1

1x
3 × 3

A white 3 x 3 plate

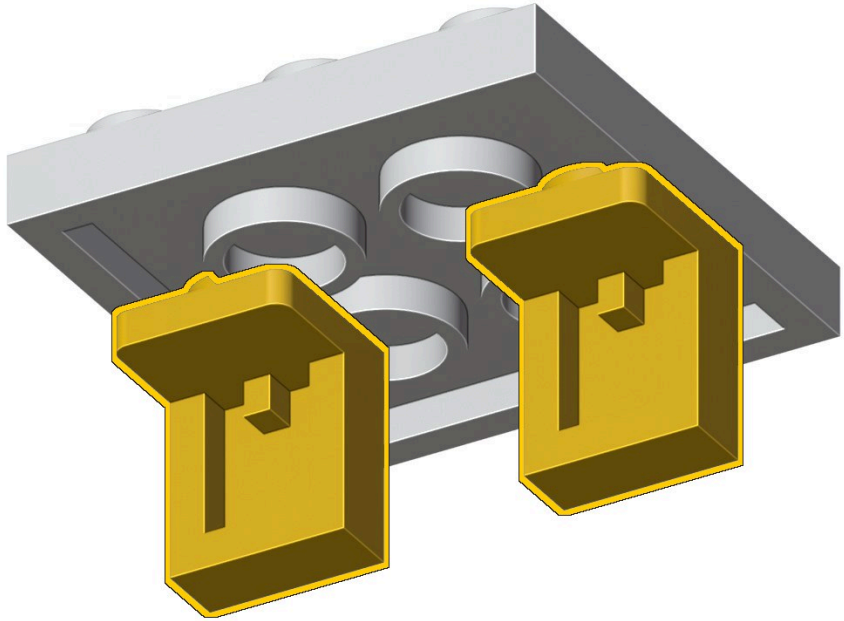

2

2x

Turn it over. Two yellow brackets on its underside, one under each side of the middle row, their flanges flat on the plate, studs in, their plates hanging down

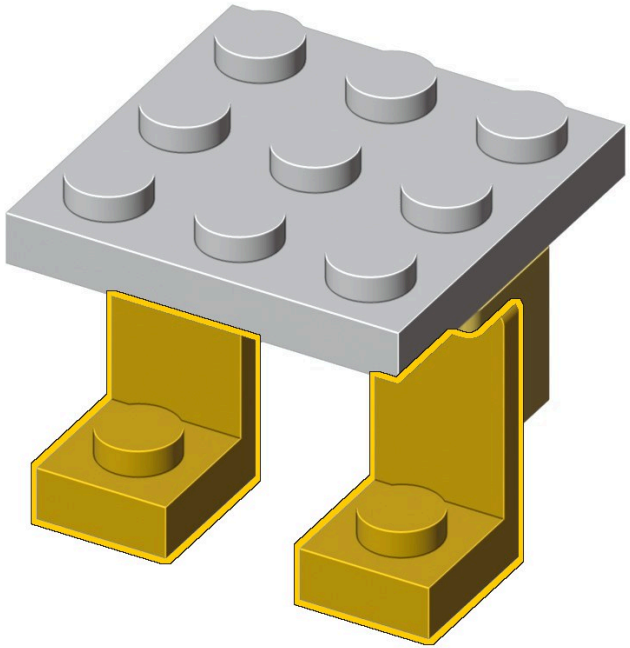

3

2x

A yellow bracket on each, by the upper of its two studs: the leg, its plate the foot

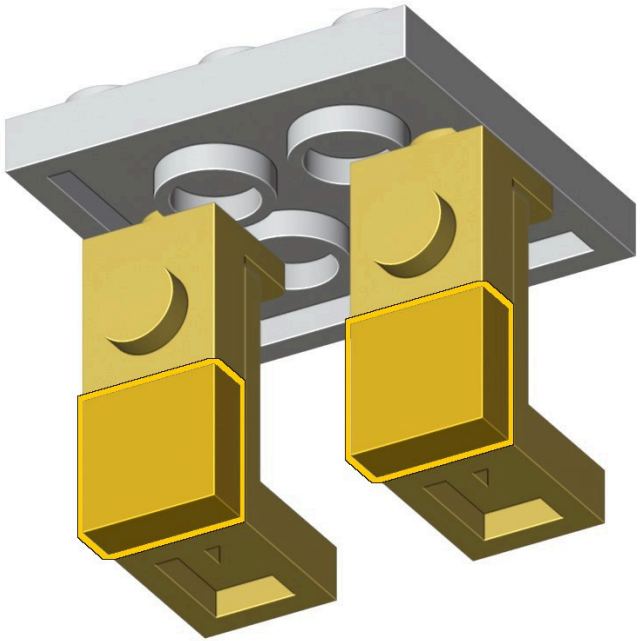

4

2x

A yellow 1 x 1 tile on each leg's lower stud, at the back

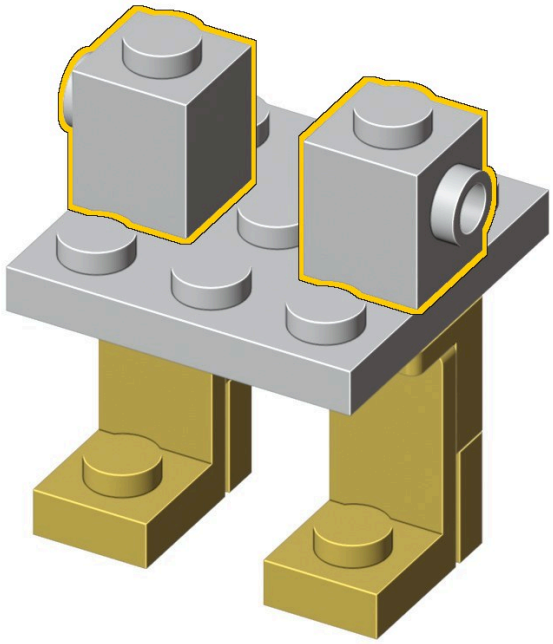

5

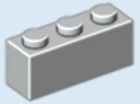

2x

Turn it back. Two bricks with a side stud on the middle row, the studs out to the sides: they hold the wings

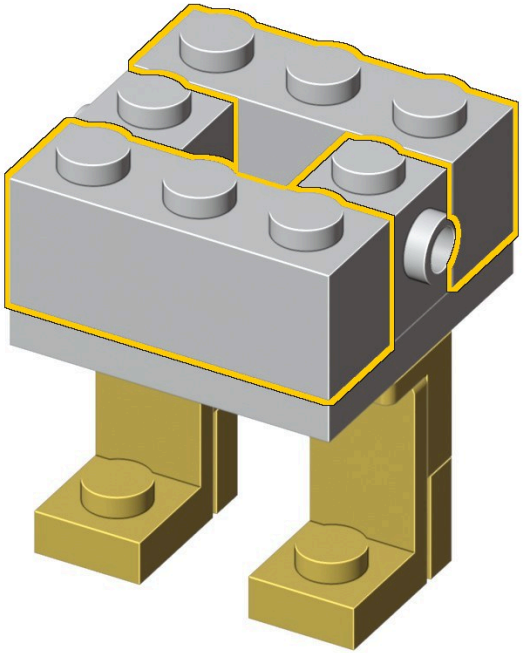

6

2x
1 × 3

A 1 x 3 brick along the front and one along the back

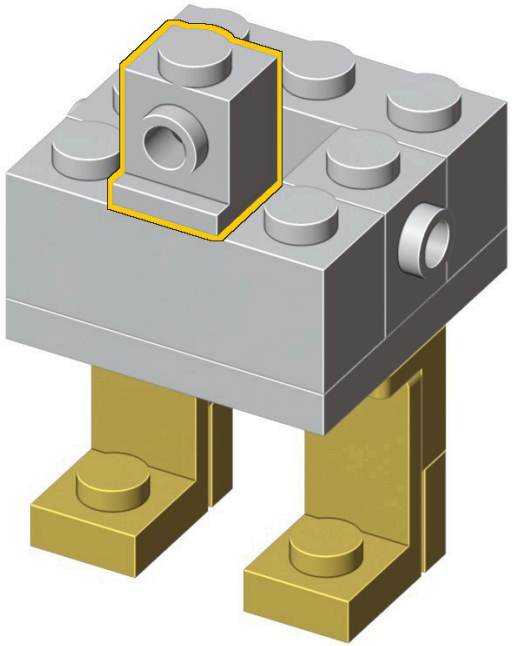

7

1x

A brick with a headlight in the middle of the front, the headlight forward

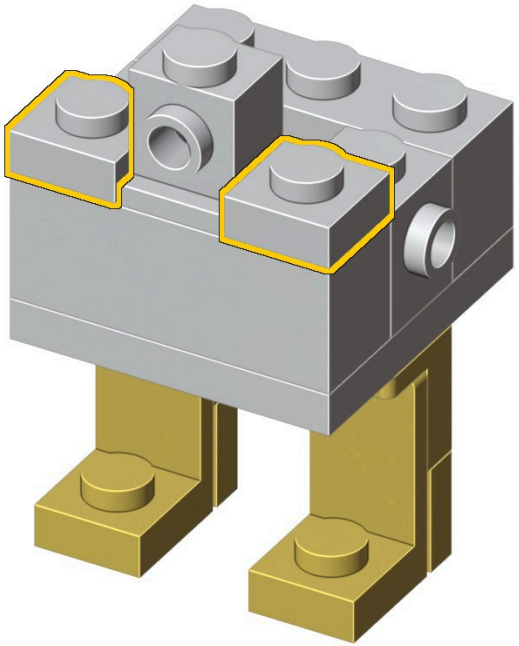

8

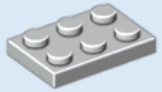

2x

A 1 x 1 plate on each side of it

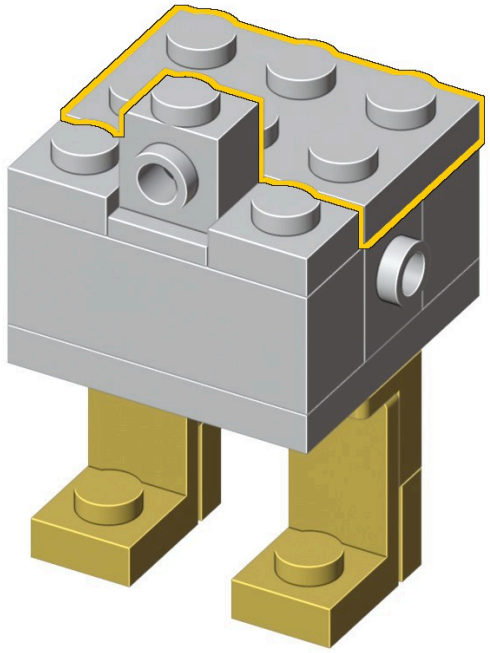

9

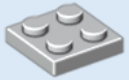

1x
2 × 3

A 2 x 3 plate behind them

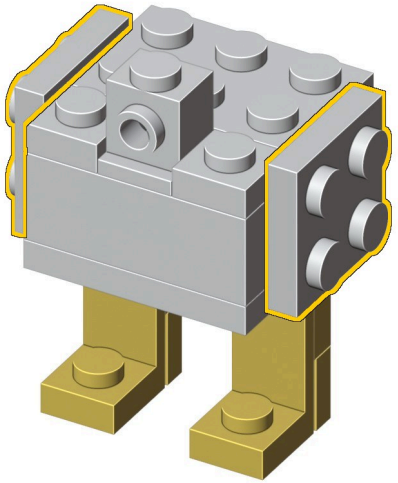

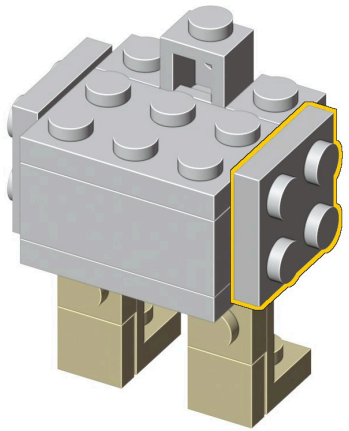

10

2x

The wings: a 2 x 2 plate on each side stud, studs out, centred on it: the stud goes up into the tube in the middle of the plate's underside

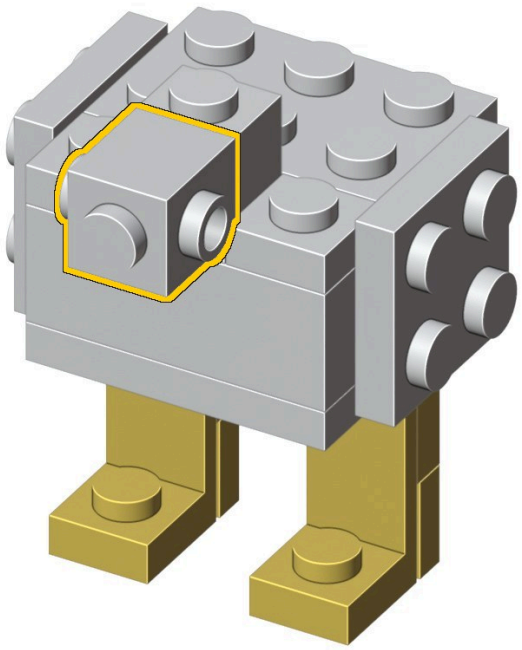

From behind: the outlined piece.

11

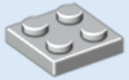

1x

The head: a brick with studs on two sides on the headlight's stud, its top forward

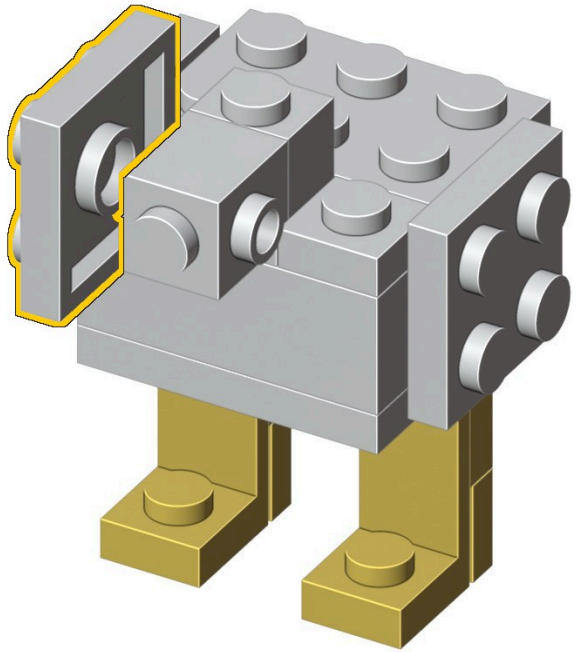

12

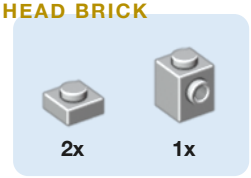

1x

A 2 x 2 plate on its left side stud, studs out: the side of the head

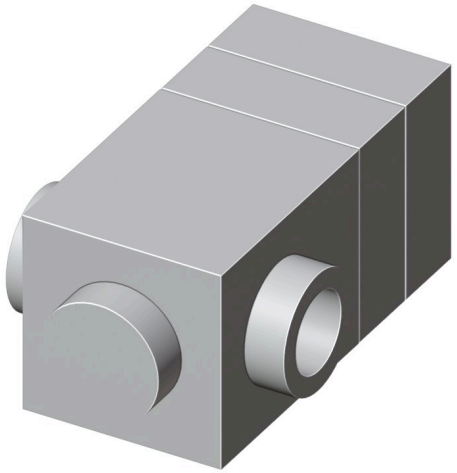

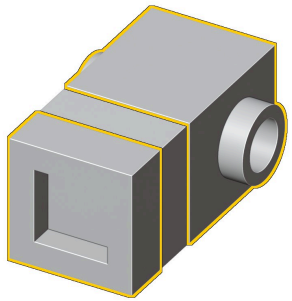

THE UPPER HEAD BRICK

13

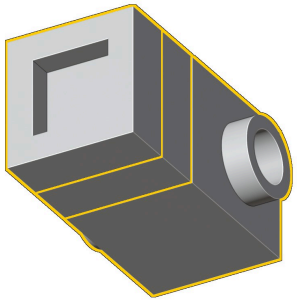

A brick with studs on two sides, and two 1 x 1 plates on its bottom

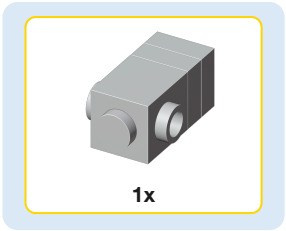

From behind: the outlined pieces.

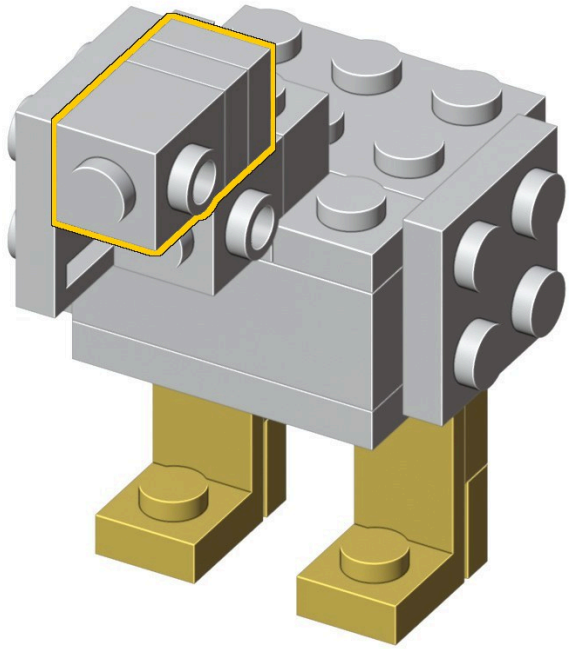

From behind and below: the outlined pieces.

CHICKEN

14

The upper brick, top forward, in the plate's upper front hole: a stud higher and a stud further forward than the first, its plates reaching back to the headlight

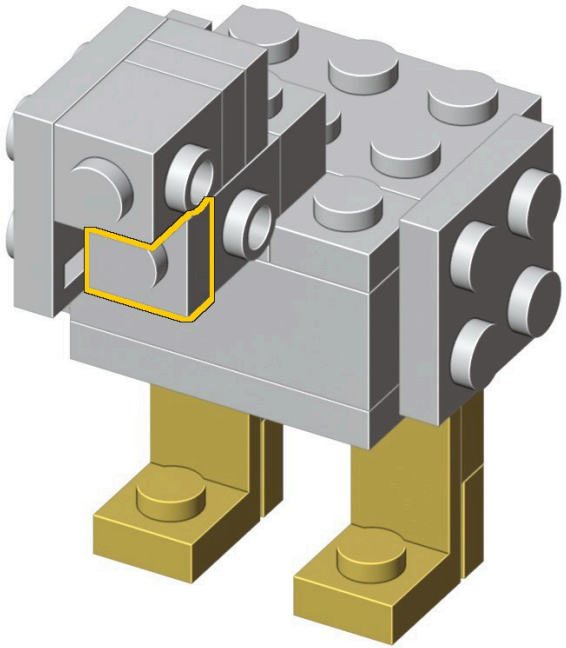

15

1x

A 1 x 1 plate on the lower brick's stud

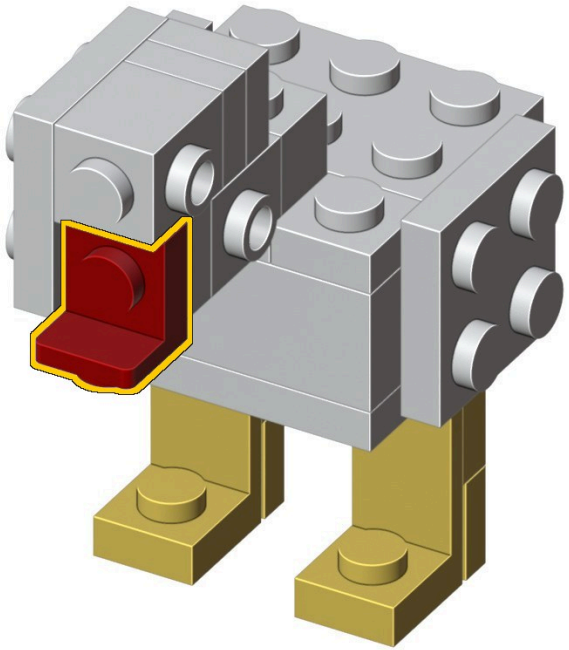

16

1x

The wattle: a red bracket, its plate on the 1 x 1 plate's stud and its other plate flat underneath, reaching forward

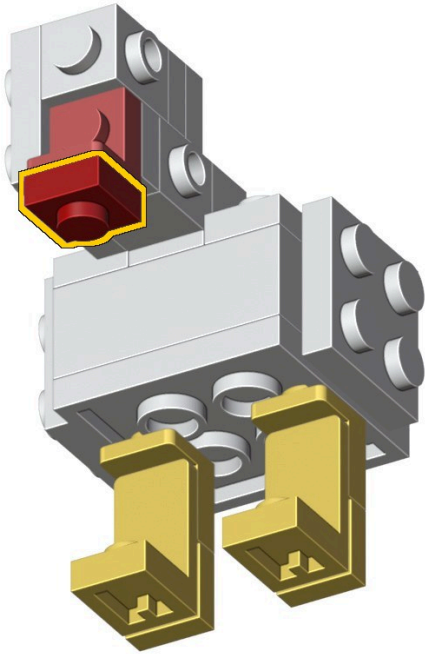

17

1x

seen from below

A red 1 x 1 plate upside down on the bracket's stud underneath

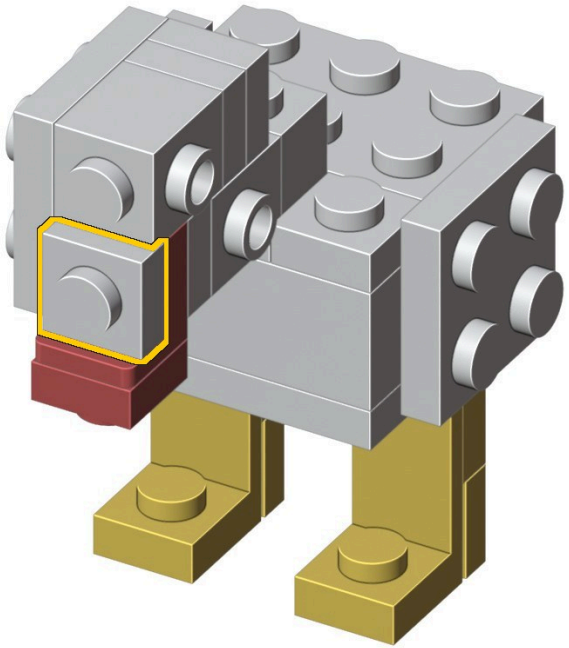

18

1x

A white 1 x 1 plate on the red bracket's stud

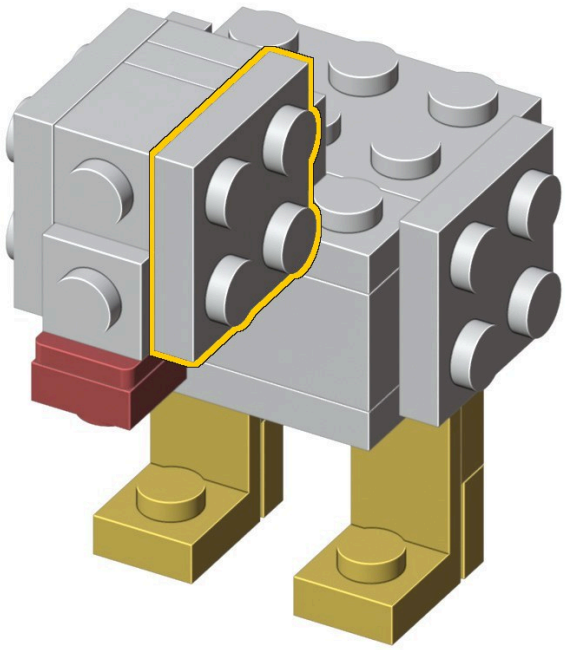

19

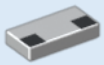

1x

A 2 x 2 plate on the right side studs of the two bricks: the other side of the head

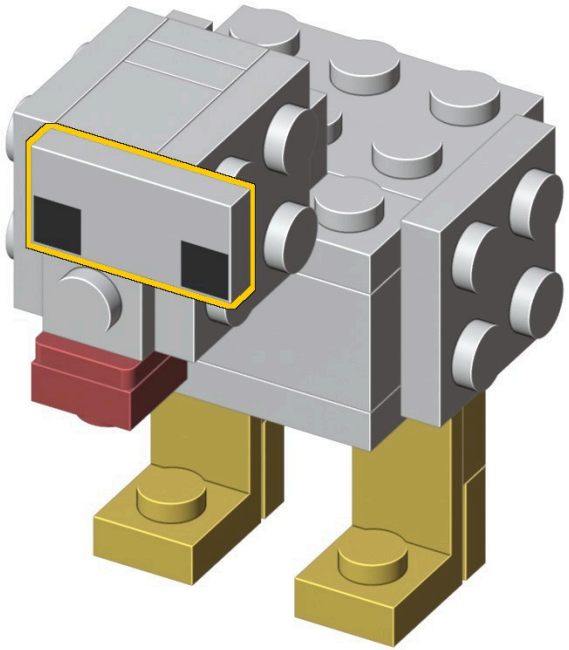

20

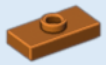

1x
1 × 2

The eyes: a 1 x 2 tile printed with two black squares on the upper brick's stud, by one end, reaching out to the right

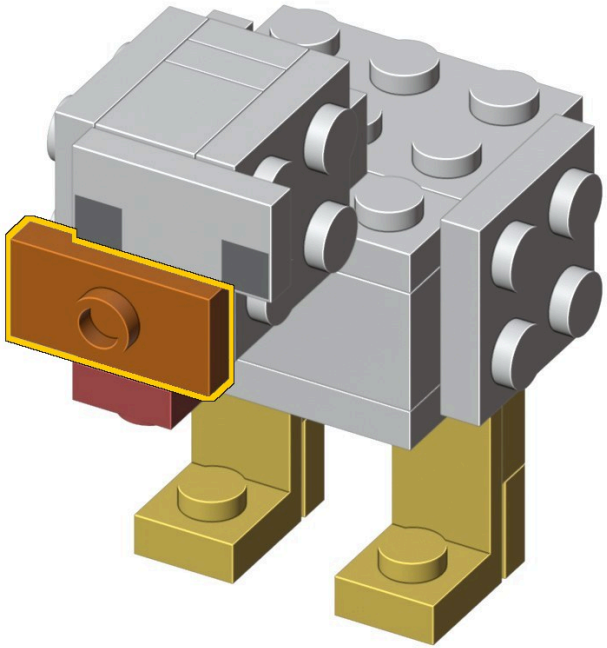

21

1x

The beak: an orange 1 x 2 jumper plate on the white 1 x 1 plate's stud

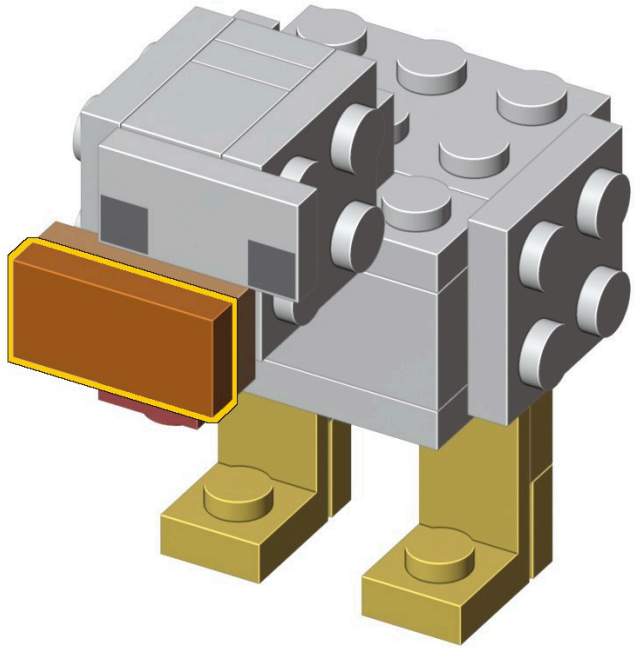

22

1x
1 × 2

An orange 1 x 2 tile on the jumper's stud

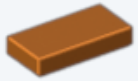

Parts inventory

30 pieces in 16 part/colour lines. Bold: the LEGO element ID (what LEGO Pick a Brick sells); below: the colour and the BrickLink part number.

About this model

Start with the 3 x 3 plate turned over and hang the legs under it on brackets, then build the body up on its top. The head grows forward from a headlight brick's stud: two bricks with studs on two sides, a 2 x 2 plate on each side, and the printed face, beak and red wattle on the front.

Checked on a computer

WARN	**real elements**	16 part/colour combinations: 0 not real, 1 rare
PASS	**connections**	38 connections (37 stud, 1 bar); 1 separate piece(s)
PASS	**collisions**	0 overlapping pair(s) among 30 parts
PASS	**buildability**	29 insertions tried across 2 submodel(s); 0 problem(s)
WARN	**stability**	about 15 g; centre of mass inside the base (22% margin); tips at 2.9 deg
PASS	**mechanism**	no moving parts defined
PASS	**electrics**	no electrics in this model
PASS	**technique**	0 note(s)

Not yet built with real bricks

These checks catch most mistakes a designer can make, but not all: clutch power, part tolerances, how stiff a long axle is and how the model survives handling can only be judged with real bricks. If you build it, we would love to hear how it went.

Files

3D model (LDraw, opens in BrickLink Studio, LeoCAD and LDCad), parts lists for BrickLink and LEGO Pick a Brick, and an interactive 3D viewer: **bricks.vhsgarage.com/m/chicken**
