Bricks

A LEGO® BRICK MODEL OF

Avocado

A smiling avocado in 23 pieces.

23 pieces · 17 steps · 3 sections

Not produced, sponsored or endorsed by the LEGO Group. LEGO® is a trademark of the LEGO Group. Avocado and related names belong to their owners. Made with brickkit · 2026-11-05

Before you start

An unofficial fan-made manual

This booklet is not a LEGO product. It was generated from the model file by a computer program and checked part by part.

Not physically build-tested

The model and these steps were checked on a computer only: every part/colour is a real LEGO element, all 55 connections between parts were matched in 3D, no two parts overlap, every part can be pushed into place in its step, and the model's balance was estimated. Not tested: how firmly parts hold, part tolerances and how it copes with handling. Take your time and support the model while you work.

The finished model

About 4.8 × 1.9 cm and 5.6 cm tall, about 22 g (estimated).

Build the standalone avocado from LEGO Classic 11039, following all 15 numbered steps on pages 22-31 of the official LEGO instructions. The two cheeks are built separately before they join the body.

You will need

- The 23 pieces in 4 colours listed at the back, with their LEGO element IDs and BrickLink numbers.
- A brick separator for pieces that sit too deep for a finger.

Tips

- Sort the pieces by colour before you start.
- Build the sections in order: each sub-assembly is finished before it is used.
- New pieces in a step have a yellow outline; earlier pieces are drawn paler.
- The cheek subassemblies correspond to the callouts in official steps 6 and 7.
- Use the exact smile brick and squeezed-shut eye prints shown in the parts list.

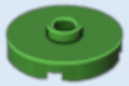

The 4 colours

- Lime: 19
- White: 2
- Reddish Brown: 1
- Bright Green: 1

How to read the steps

Parts and step number

7

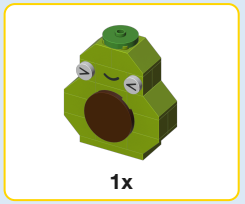

2x

The parts for the step and how many of each, then the step number. The parts of a step are drawn at one scale, so a longer one looks longer; a tile or a long plate also has its size in studs under it.

New parts

The parts added in a step have a yellow outline and are drawn in full colour; the parts from earlier steps are drawn paler.

Sub-assemblies

1x

A yellow-framed picture means: put in the sub-assembly you built in its own section. "Build 4x" means you need four of them.

Sections

Each section starts with its name at the top of the page. Sections are built in the order they appear.

Seen from below

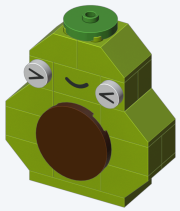

When a step adds parts underneath, the picture shows the model from below. A small label says so (and "seen from behind" likewise). A piece the picture cannot show gets a small picture beside it, ringed in yellow, from the side it can be seen from: where it clicks in.

Insert direction

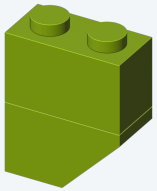

Some parts slide in sideways (axles through bearings, gears onto axles). The picture shows where they end up; push them in along their axle.

Build overview

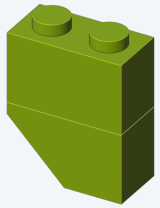

The model is built in 3 sections. Each is finished before it is used.

1. Avocado
steps 1–5, 7, 9–17

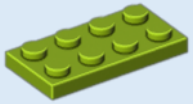

2. Step 6: build the right cheek
step 6

3. Step 7: build the left cheek
step 8

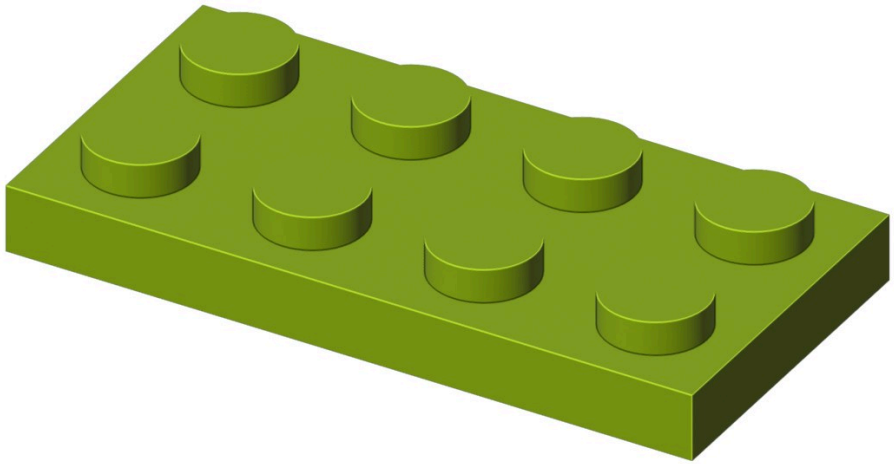

AVOCADO

1

1x
2 × 4

1 · The lime base

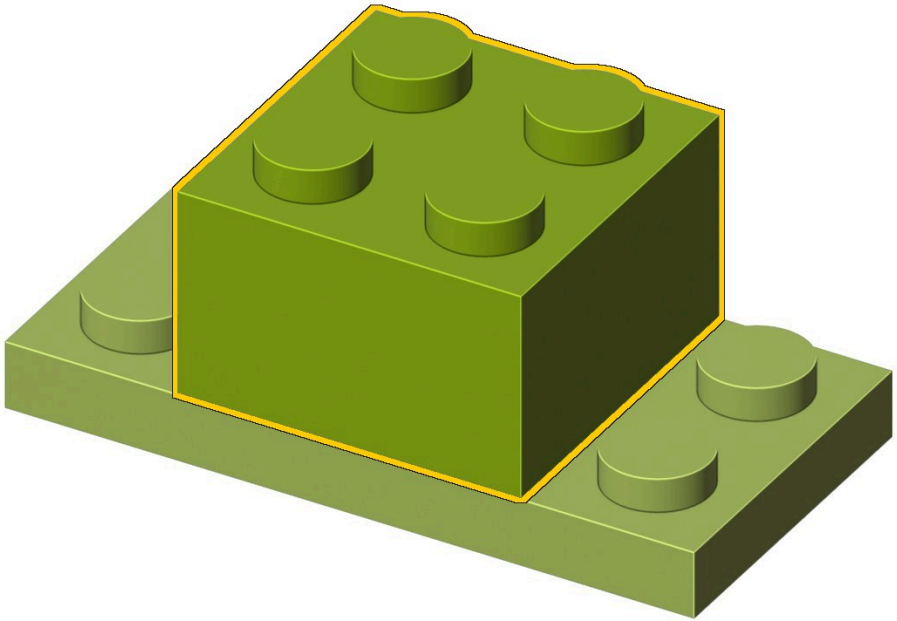

2

1x

2 · The centre of the avocado

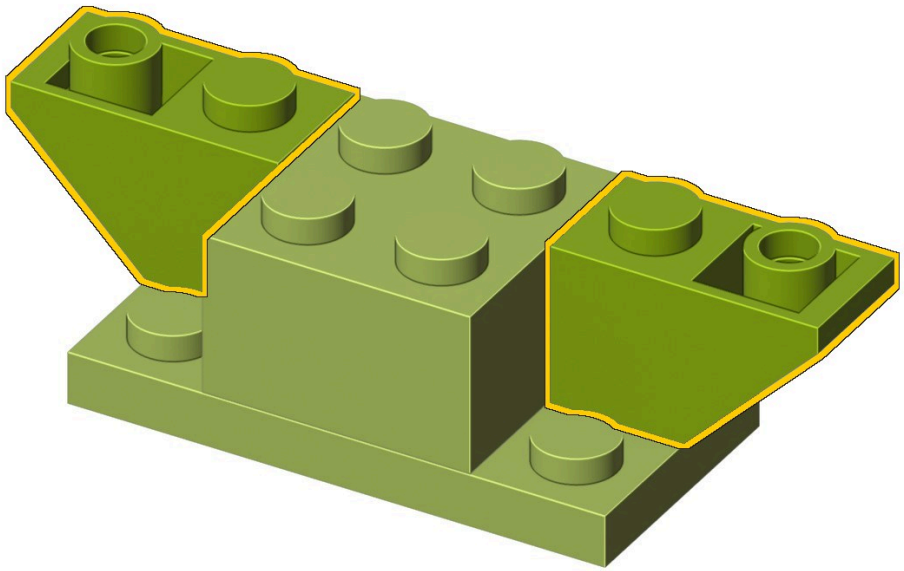

3

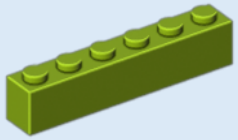

2x

3 · The two back corners slope inward

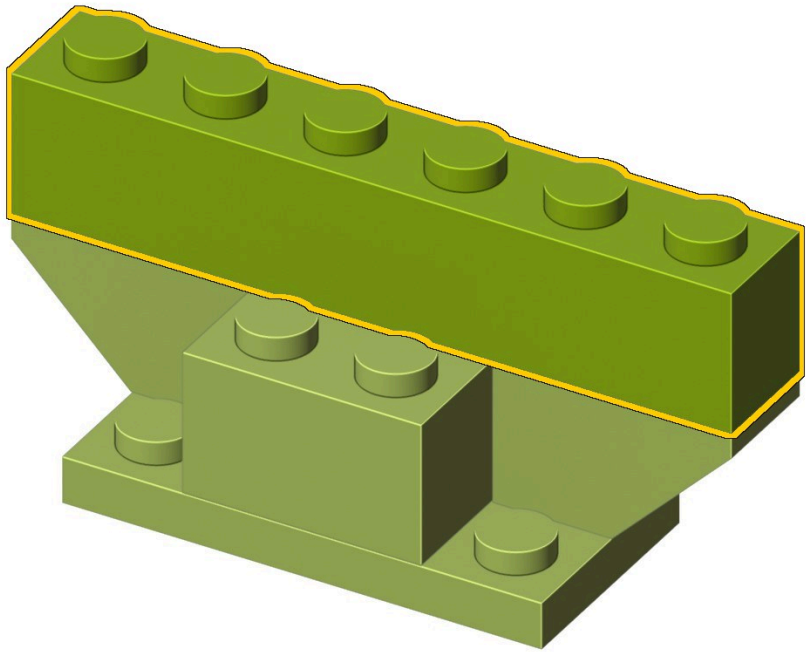

4

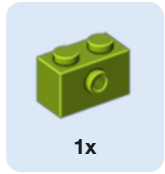

1x
1 × 6

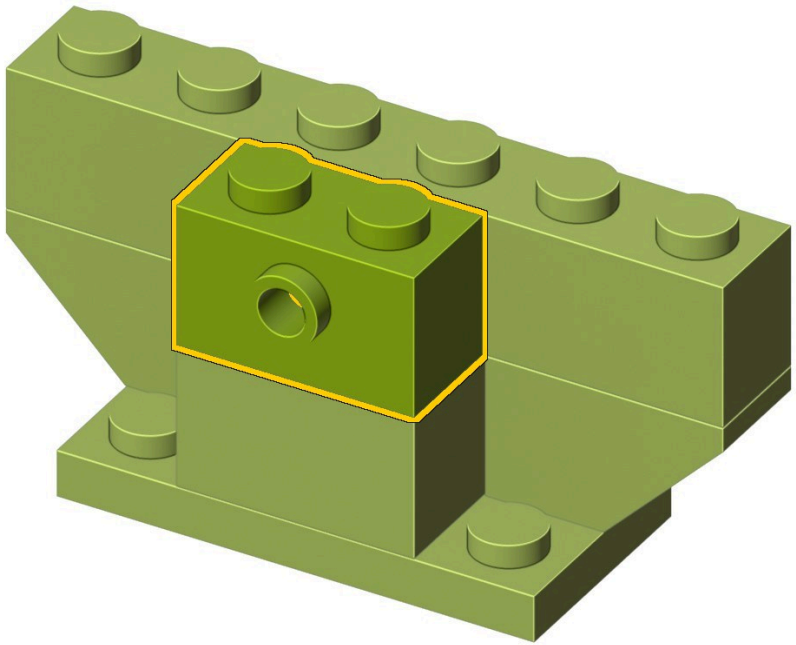

4 · Join the back with a six-stud brick

5

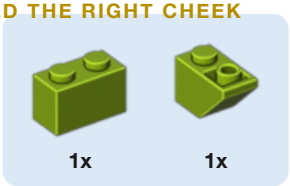

5 · The stud for the stone

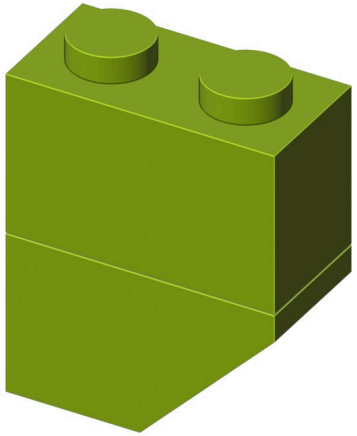

STEP 6: BUILD THE RIGHT CHEEK

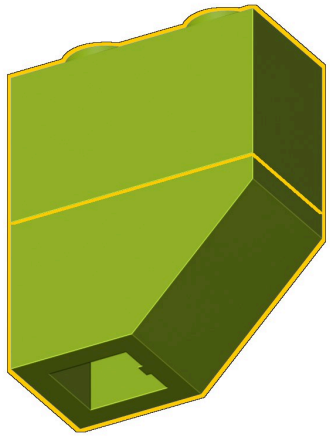

6

Step 6: build the right cheek

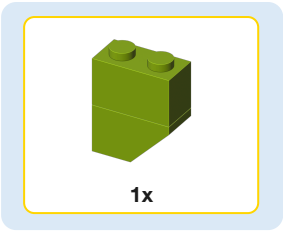

Stack the brick on the inverted slope

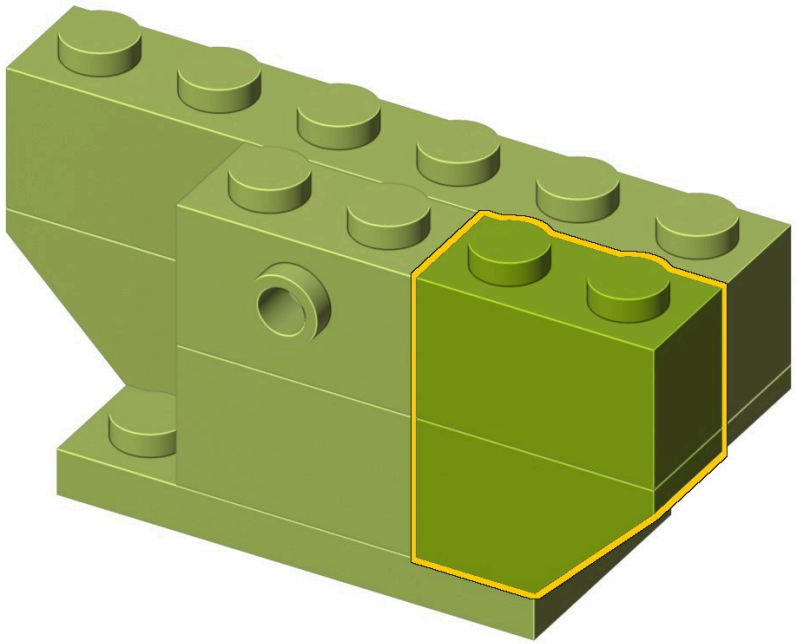

From below: the outlined pieces click in here.

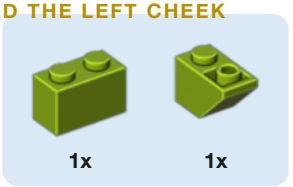

7

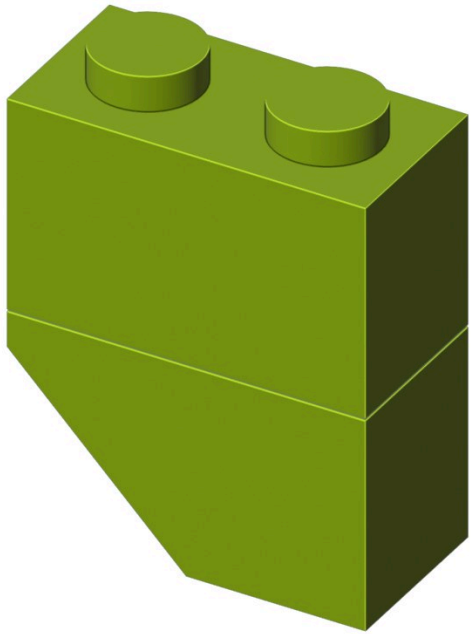

6 · Attach the right cheek

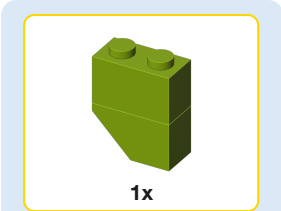

8

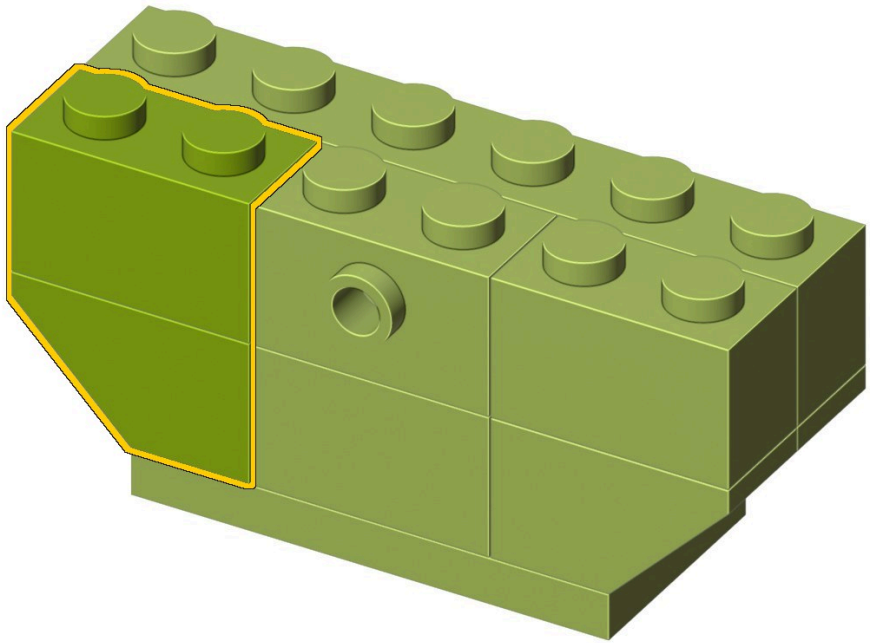

Stack the brick on the inverted slope

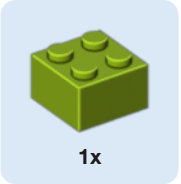

9

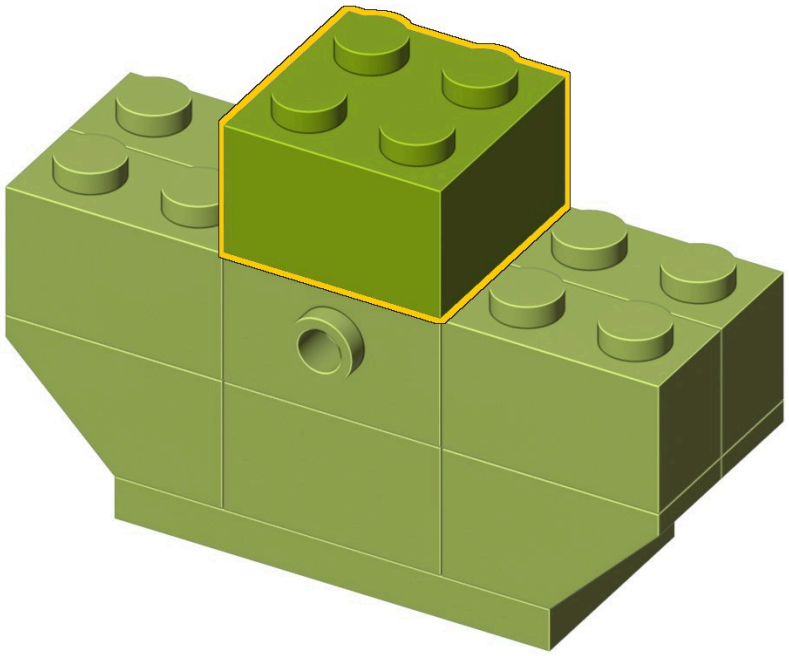

7 · Attach the left cheek

10

8 · A square brick above the stone

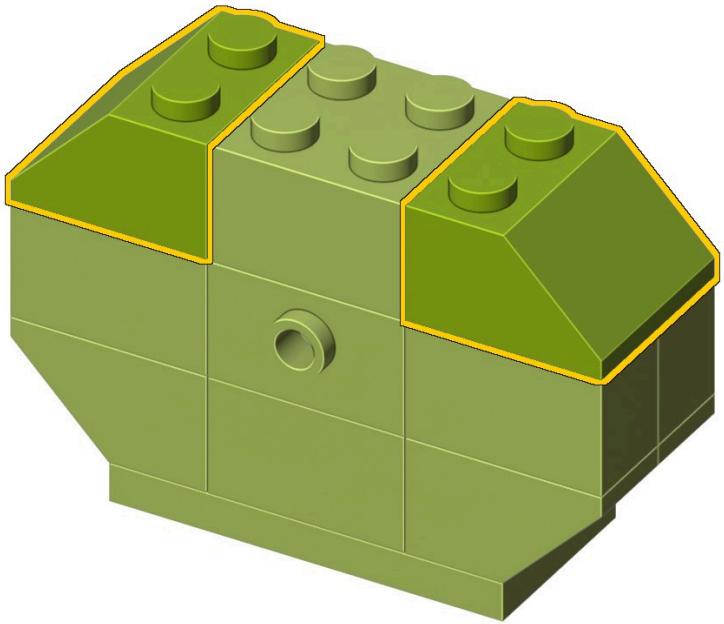

11

2x

9 · Round off both shoulders

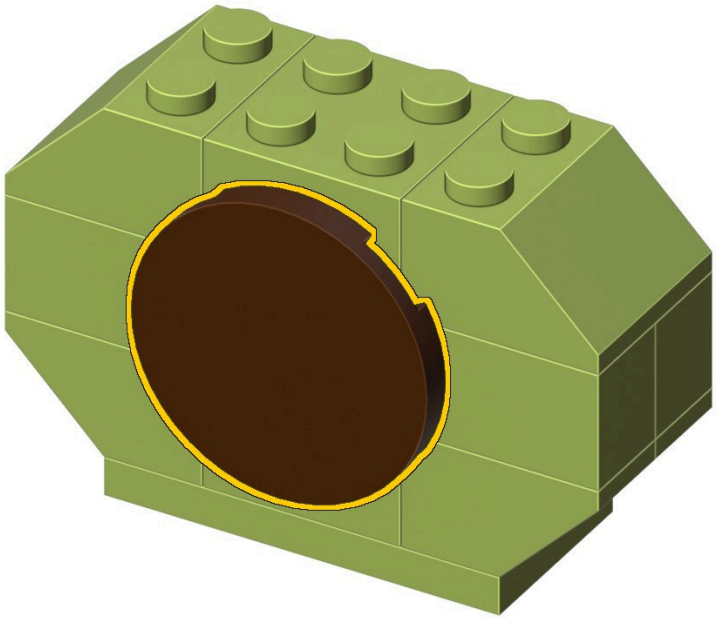

12

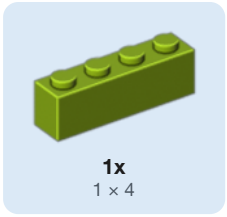

1x
3 × 3

10 · The round brown stone

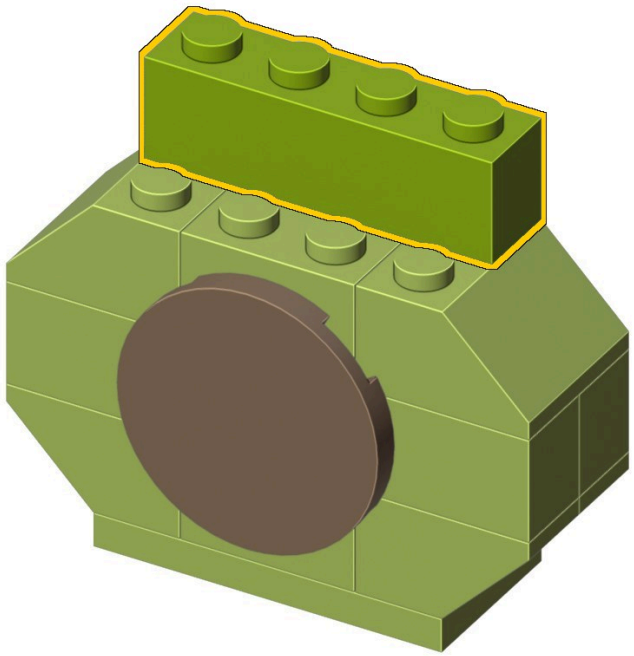

13

1x
1 × 4

11 · Build the back of the head

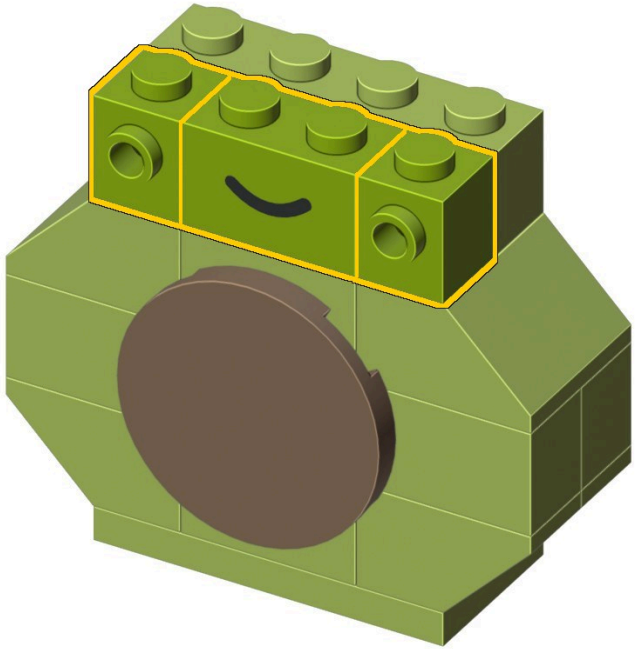

14

1x **2x**

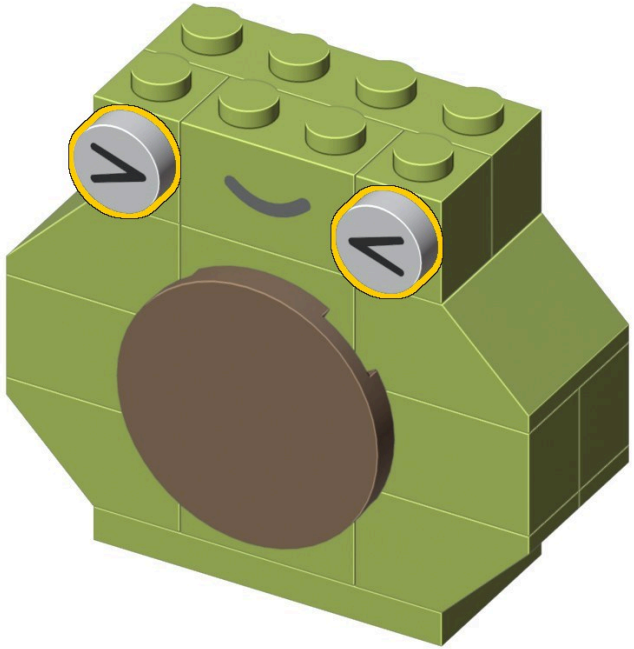

12 · A smile between the eye studs

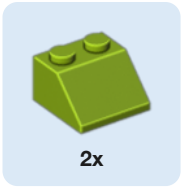

15

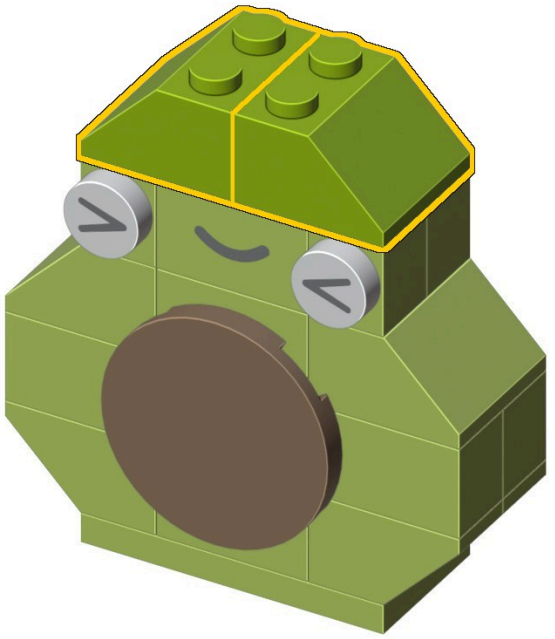

13 · Two squeezed-shut eyes

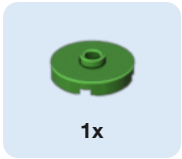

16

14 · The tapered top

17

1x

15 · Finish with the green stem cap

Parts inventory

23 pieces in 13 part/colour lines. Bold: the LEGO element ID (what LEGO Pick a Brick sells); below: the colour and the BrickLink part number.

About this model

Build the standalone avocado from LEGO Classic 11039, following all 15 numbered steps on pages 22-31 of the official LEGO instructions. The two cheeks are built separately before they join the body.

Checked on a computer

PASS	**real elements**	13 part/colour combinations: 0 not real, 0 rare
PASS	**connections**	55 connections (55 stud); 1 separate piece(s)
PASS	**collisions**	0 overlapping pair(s) among 23 parts
PASS	**buildability**	22 insertions tried across 3 submodel(s); 0 problem(s)
PASS	**stability**	about 22 g; centre of mass inside the base (92% margin); tips at 17.0 deg
PASS	**mechanism**	no moving parts defined
PASS	**electrics**	no electrics in this model
PASS	**technique**	0 note(s)

Not yet built with real bricks

These checks catch most mistakes a designer can make, but not all: clutch power, part tolerances, how stiff a long axle is and how the model survives handling can only be judged with real bricks. If you build it, we would love to hear how it went.

Files

3D model (LDraw, opens in BrickLink Studio, LeoCAD and LDCad), parts lists for BrickLink and LEGO Pick a Brick, and an interactive 3D viewer: **bricks.vhsgarage.com/m/avocado**
