Bricks

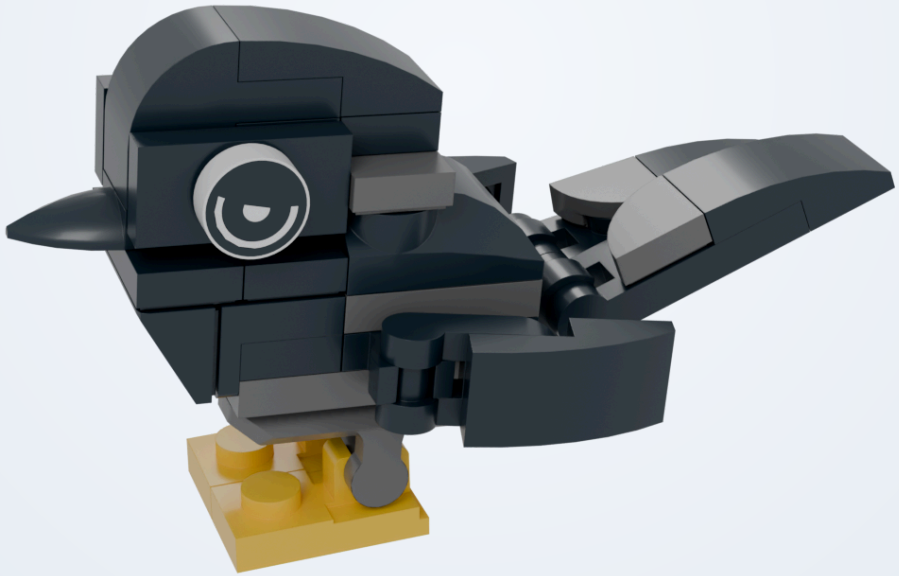

A LEGO® BRICK MODEL OF

Crow

A little crow with a pointed beak, sleepy eyes and yellow feet, in 34 pieces. Designed by Qrys.And.Reading.

Designed by Qrys.And.Reading

34 pieces · 15 steps · 2 sections

Not produced, sponsored or endorsed by the LEGO Group. LEGO® is a trademark of the LEGO Group. Crow and related names belong to their owners.
Made with brickkit · 2026-11-05

Before you start

An unofficial fan-made manual

This booklet is not a LEGO product. It was generated from the model file by a computer program and checked part by part.

The model was designed by Qrys.And.Reading (https://rebrickable.com/mocs/MOC-165060/). These steps were worked out from it here; they are not the designer's own instructions.

Not physically build-tested

The model and these steps were checked on a computer only: every part/colour is a real LEGO element, all 49 connections between parts were matched in 3D, no two parts overlap, every part can be pushed into place in its step, and the model's balance was estimated. Not tested: how firmly parts hold, part tolerances and how it copes with handling. Take your time and support the model while you work.

The finished model

About 7.1 × 4.4 cm and 4.3 cm tall.

A crow small enough to perch on two fingers. Build the body up from the belly plate to the back and the neck, then the head: stack the beak and the brow in your hand and press them on together. Add the eyes, clip on the tail and the wings, and last press the legs up under the belly and clip on the feet. It balances on its feet: if it tips back onto its tail, lean the body forward a little on the feet's clips.

You will need

- The 34 pieces in 4 colours listed at the back, with their LEGO element IDs and BrickLink numbers.
- A brick separator for pieces that sit too deep for a finger.

Tips

- Sort the pieces by colour before you start.
- Build the sections in order: each sub-assembly is finished before it is used.
- New pieces in a step have a yellow outline; earlier pieces are drawn paler.

The 4 colours

- Black: 24
- Dark Bluish Gray: 6
- White: 2
- Yellow: 2

How to read the steps

Parts and step number

7

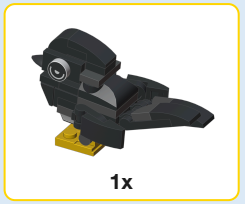

2x

The parts for the step and how many of each, then the step number. The parts of a step are drawn at one scale, so a longer one looks longer; a tile or a long plate also has its size in studs under it.

New parts

The parts added in a step have a yellow outline and are drawn in full colour; the parts from earlier steps are drawn paler.

Sub-assemblies

1x

A yellow-framed picture means: put in the sub-assembly you built in its own section. "Build 4x" means you need four of them.

Sections

Each section starts with its name at the top of the page. Sections are built in the order they appear.

Seen from below

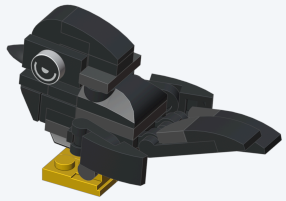

When a step adds parts underneath, the picture shows the model from below. A small label says so (and "seen from behind" likewise). A piece the picture cannot show gets a small picture beside it, ringed in yellow, from the side it can be seen from: where it clicks in.

Insert direction

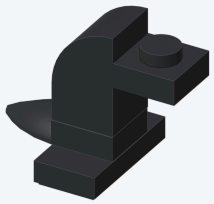

Some parts slide in sideways (axles through bearings, gears onto axles). The picture shows where they end up; push them in along their axle.

Build overview

The model is built in 2 sections. Each is finished before it is used.

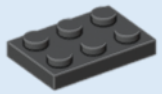

1. Crow
steps 1–7, 10–15

2. The beak and the brow
steps 8–9

CROW

1

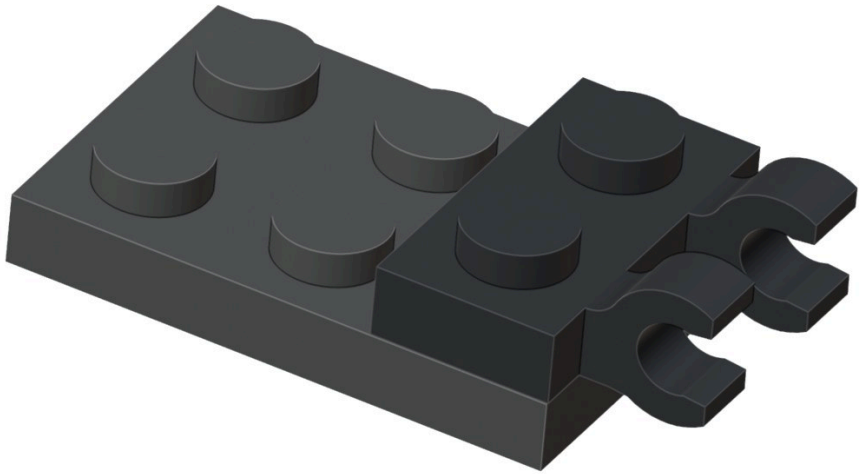

1x
2 × 3

1x

The belly: a grey 2 x 3 plate, and the plate with two clips on its back end, clips pointing back

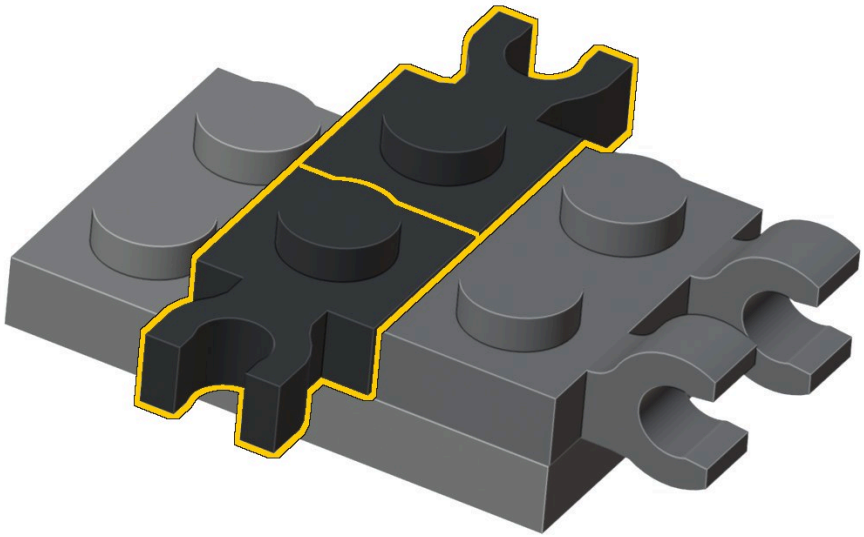

2

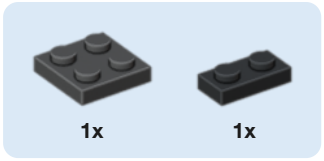

2x

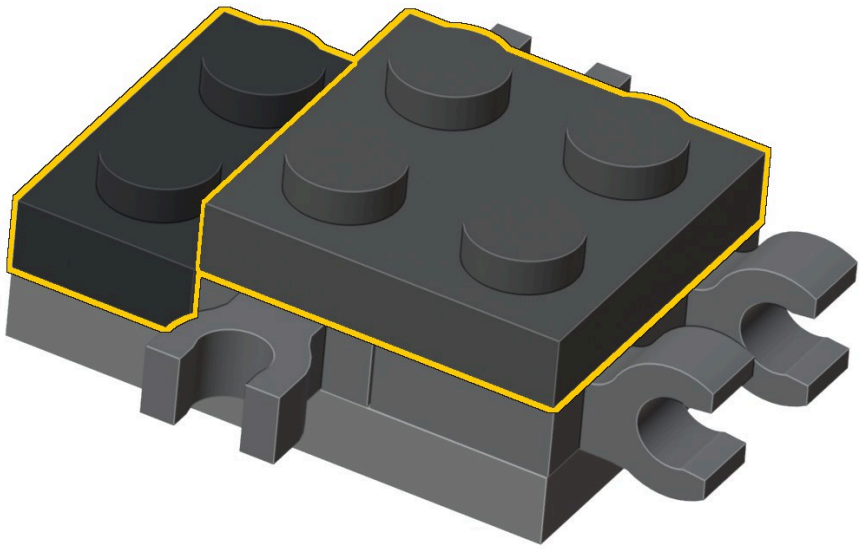

Two small clip plates on the middle studs, one clip out to each side

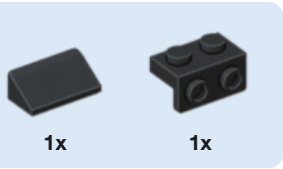

3

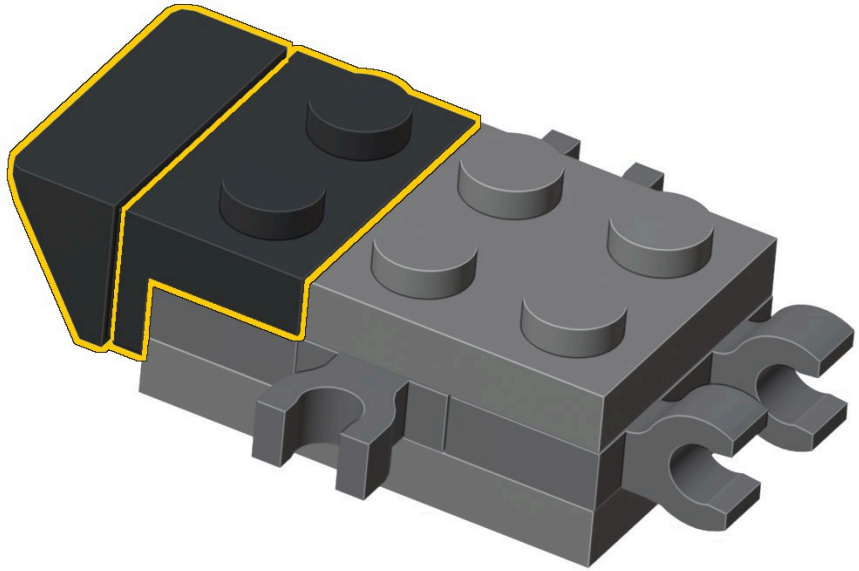

A black 1 x 2 plate across the front studs, and a grey 2 x 2 plate on top of the clip plates

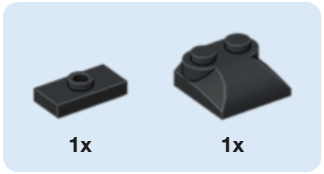

4

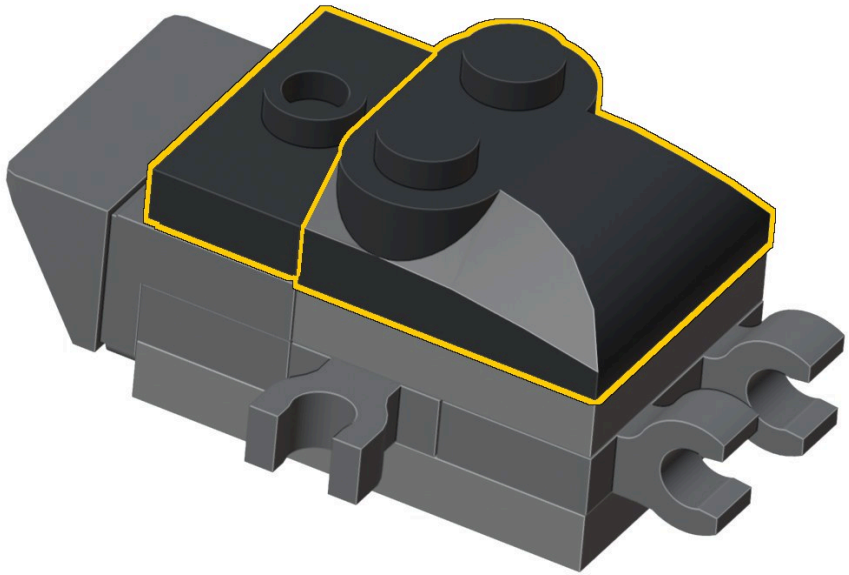

The chest: the bracket on the front plate, its side hanging down in front, and the 1 x 2 slope on its two side studs, thin edge down

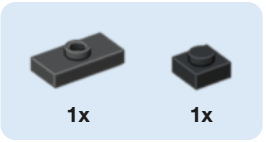

5

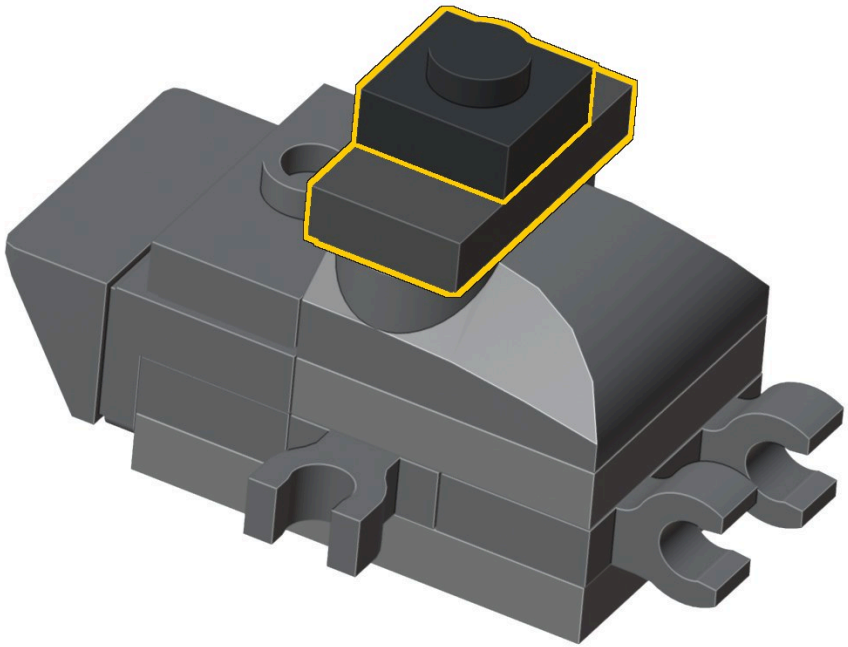

The back: the 2 x 2 curved brick on the grey plate, curving down to the tail, and a jumper plate on the bracket

6

The neck: the grey jumper plate on the curved brick's two studs, and a 1 x 1 plate on its stud

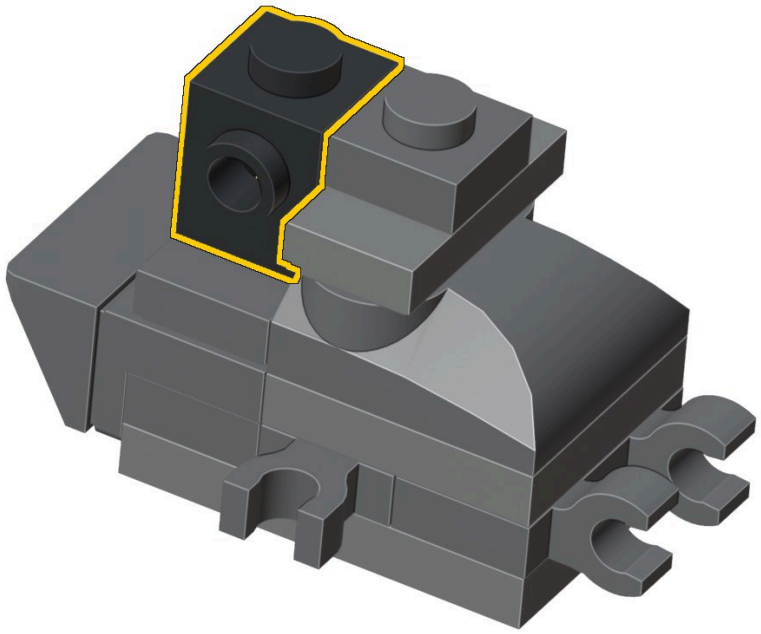

7

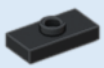

1x

The head: the brick with a stud on two sides, on the front jumper plate, its studs out to the sides

THE BEAK AND THE BROW

8

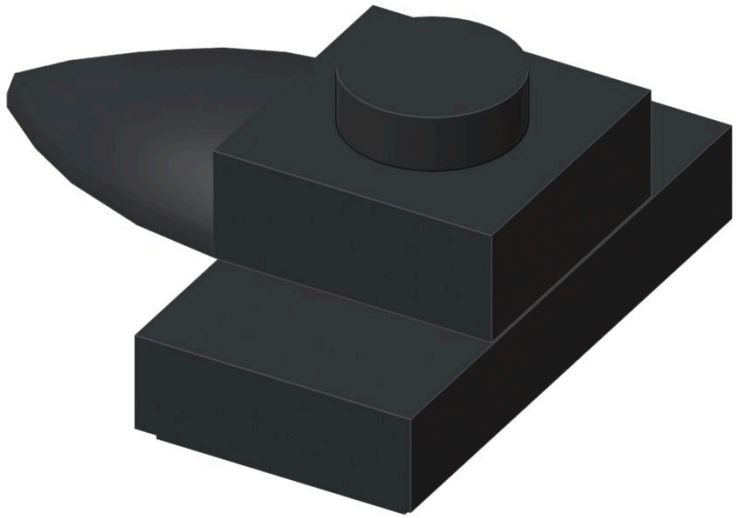

1x

1x

Press the pointed plate onto the jumper plate, its point to the front

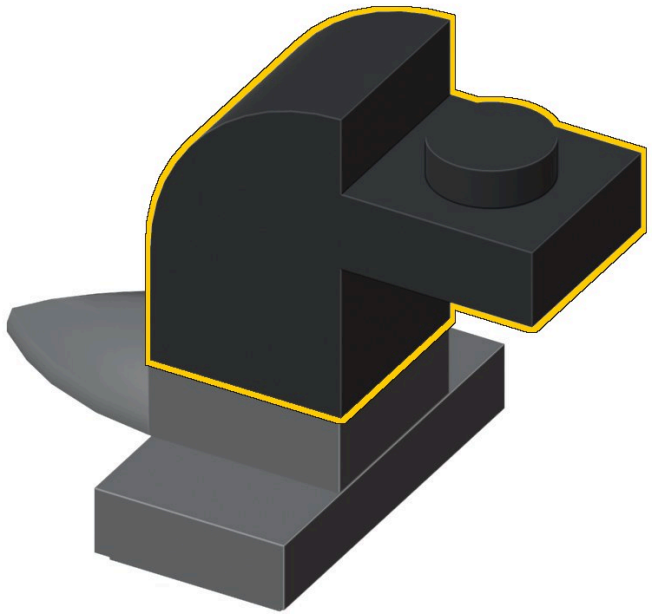

9

1x

Cap it with the tall curved brick: its curved end on the pointed plate, its stud end sticking out behind

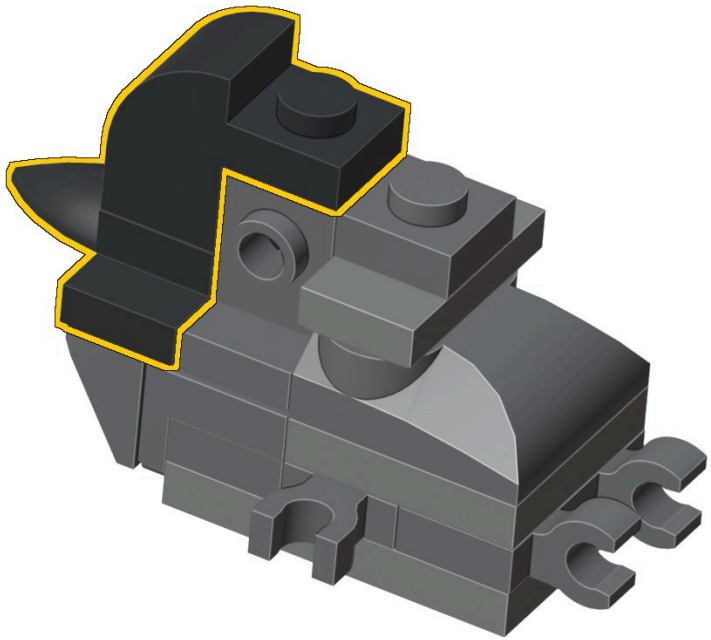

CROW

10

1x

Build the beak and the brow, and press them down onto the head: the stud end of the curved brick on the head brick's stud, the beak out in front, its jumper plate resting on the chest

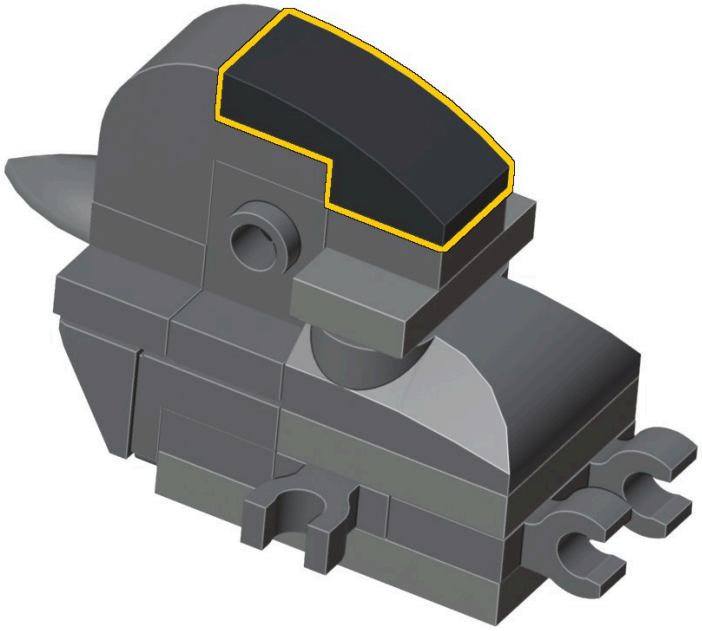

11

1x

The back of the head: a curved slope, its thick end on the brow's stud and its thin end on the neck

12

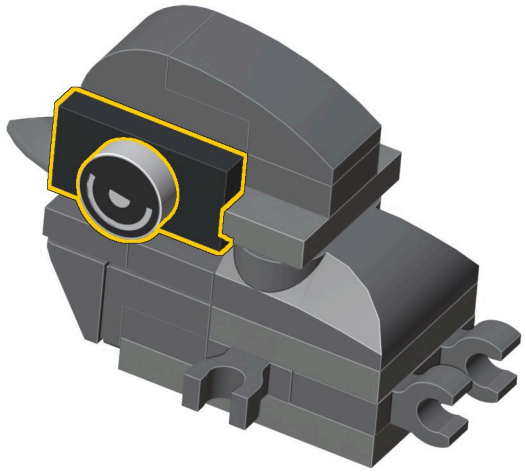

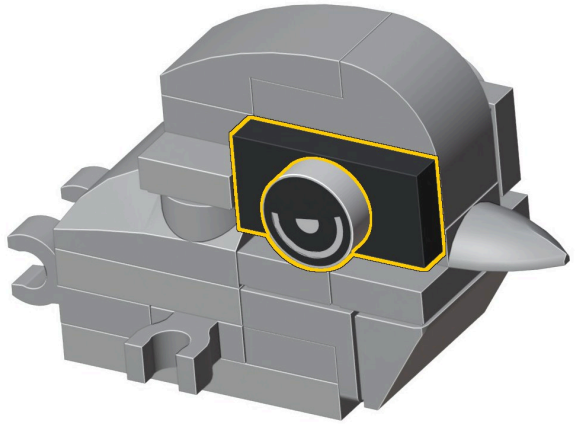

2x

2x

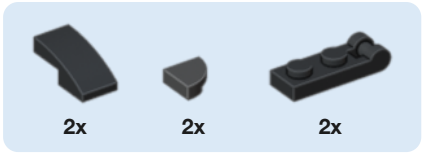

The eyes: a jumper plate flat against each side of the head, on the brick's side stud, and a printed eye on each

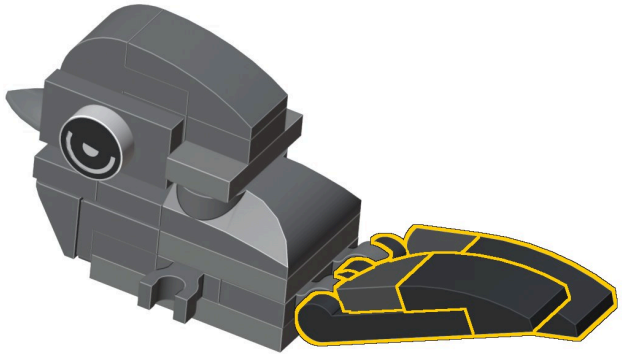

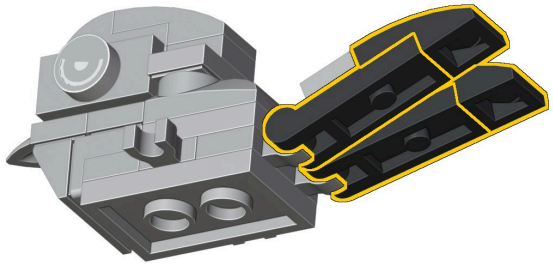

From behind: the outlined pieces.

13

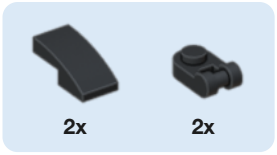

The tail: push the two handle plates into the clips at the back, the near one a little higher. On each, a grey quarter-round tile on the stud next to the body, and a curved slope with its thick end on the end stud, its thin end reaching past the end of the plate

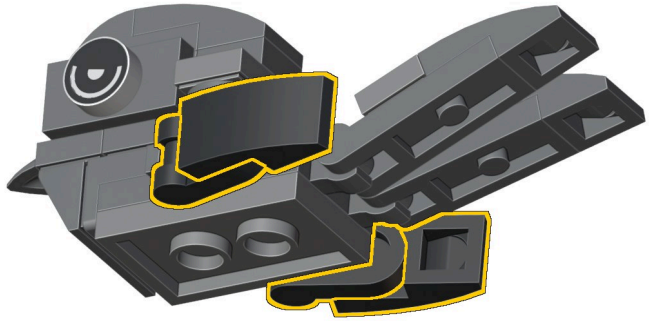

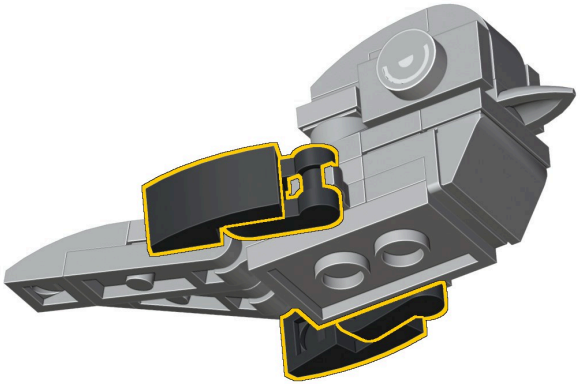

From below: the outlined pieces click in here.

14

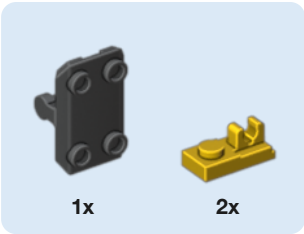

The wings: push a round handle plate into the clip on each side, its stud facing out, and press a curved slope on it by its thick end, the thin end pointing back

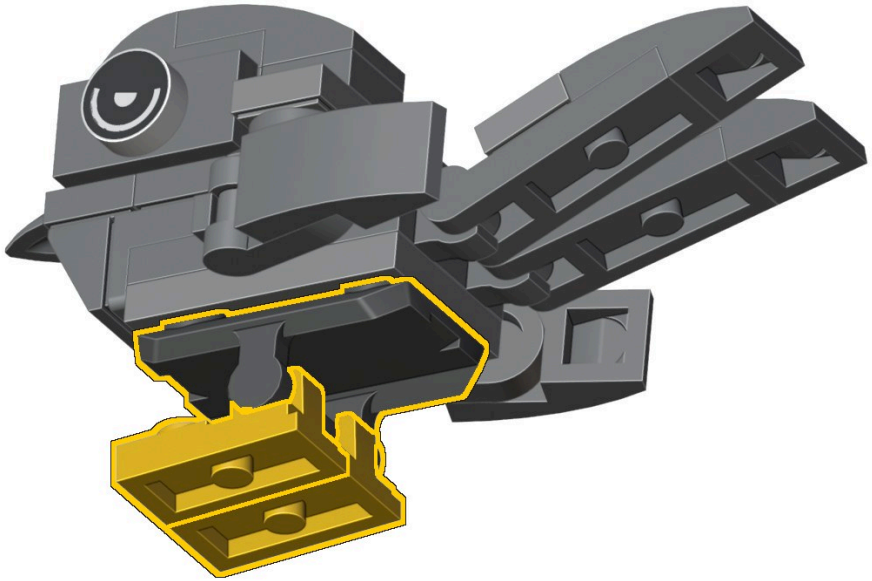

From behind: the outlined pieces.

15

seen from below

The legs and feet: press the grey plate with a handle up under the belly, handle down, and clip the two yellow feet onto the handle, side by side

Parts inventory

About this model

A crow small enough to perch on two fingers. Build the body up from the belly plate to the back and the neck, then the head: stack the beak and the brow in your hand and press them on together. Add the eyes, clip on the tail and the wings, and last press the legs up under the belly and clip on the feet. It balances on its feet: if it tips back onto its tail, lean the body forward a little on the feet's clips.

Checked on a computer

WARN	**real elements**	21 part/colour combinations: 0 not real, 1 rare
PASS	**connections**	49 connections (43 stud, 6 clip); 1 separate piece(s)
PASS	**collisions**	0 overlapping pair(s) among 34 parts
PASS	**buildability**	29 insertions tried across 2 submodel(s); 0 problem(s)
PASS	**mechanism**	no moving parts defined
PASS	**electrics**	no electrics in this model
PASS	**technique**	0 note(s)

Not yet built with real bricks

These checks catch most mistakes a designer can make, but not all: clutch power, part tolerances, how stiff a long axle is and how the model survives handling can only be judged with real bricks. If you build it, we would love to hear how it went.

Files

3D model (LDraw, opens in BrickLink Studio, LeoCAD and LDCad), parts lists for BrickLink and LEGO Pick a Brick, and an interactive 3D viewer: **bricks.vhsgarage.com/m/crow**
