Bricks

A LEGO® BRICK MODEL OF

Pumpkin

A jack-o'-lantern with square eyes and a toothy grin, built sideways in 51 pieces.

Designed by BrixBuild

51 pieces · 24 steps · 6 sections

Not produced, sponsored or endorsed by the LEGO Group. LEGO® is a trademark of the LEGO Group. Pumpkin and related names belong to their owners. Made with brickkit · 2026-11-05

Before you start

An unofficial fan-made manual

This booklet is not a LEGO product. It was generated from the model file by a computer program and checked part by part.

The model was designed by BrixBuild (https://rebrickable.com/mocs/MOC-163756/). These steps were worked out from it here; they are not the designer's own instructions.

Not physically build-tested

The model and these steps were checked on a computer only: every part/colour is a real LEGO element, all 132 connections between parts were matched in 3D, no two parts overlap, every part can be pushed into place in its step, and the model's balance was estimated. Not tested: how firmly parts hold, part tolerances and how it copes with handling. Take your time and support the model while you work.

The finished model

About 5.4 × 5.3 cm and 6.8 cm tall, about 44 g (estimated).

A grey core of two halves, built upside down and the right way up, gets its orange rind from the side: the mouth and eyes panels on the front and a side panel on the back, left and right. The side panels tie the halves together. Finish with the green stem and its leaf.

You will need

- The 51 pieces in 5 colours listed at the back, with their LEGO element IDs and BrickLink numbers.
- A brick separator for pieces that sit too deep for a finger.

Tips

- Sort the pieces by colour before you start.
- Build the sections in order: each sub-assembly is finished before it is used.
- New pieces in a step have a yellow outline; earlier pieces are drawn paler.

The 5 colours

- Orange: 28
- Light Bluish Gray: 16
- Black: 3
- Green: 3
- Bright Green: 1

How to read the steps

Parts and step number

7

2x

The parts for the step and how many of each, then the step number. The parts of a step are drawn at one scale, so a longer one looks longer; a tile or a long plate also has its size in studs under it.

New parts

The parts added in a step have a yellow outline and are drawn in full colour; the parts from earlier steps are drawn paler.

Sub-assemblies

1x

A yellow-framed picture means: put in the sub-assembly you built in its own section. "Build 4x" means you need four of them.

Sections

Each section starts with its name at the top of the page. Sections are built in the order they appear.

Seen from below

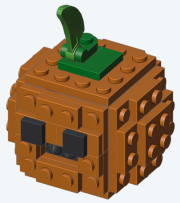

When a step adds parts underneath, the picture shows the model from below. A small label says so (and "seen from behind" likewise). A piece the picture cannot show gets a small picture beside it, ringed in yellow, from the side it can be seen from: where it clicks in.

Insert direction

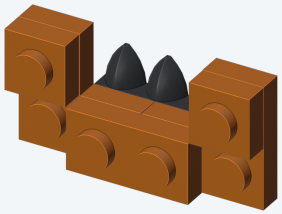

Some parts slide in sideways (axles through bearings, gears onto axles). The picture shows where they end up; push them in along their axle.

Build overview

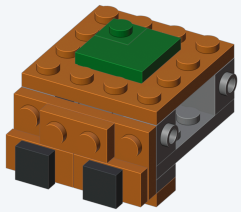

The model is built in 6 sections. Each is finished before it is used.

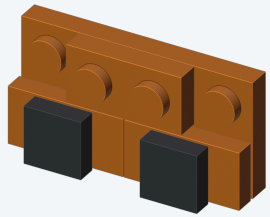

1. Pumpkin
steps 1–4, 8, 21–22, 24

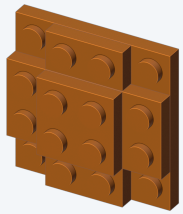

2. Mouth panel
steps 5–7

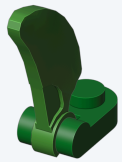

3. Head half
steps 9–13, 17

4. Eyes panel
steps 14–16

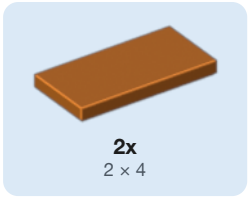

5. Side panel ×3
steps 18–20

6. Stem
step 23

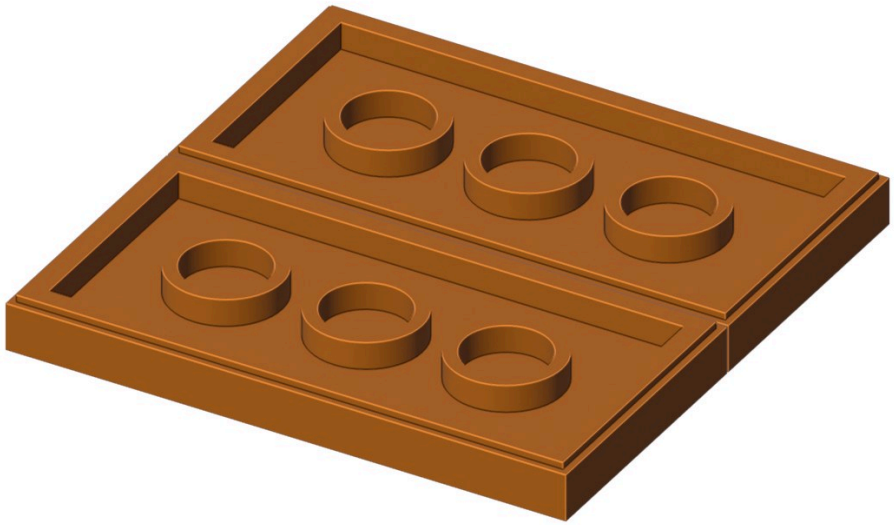

PUMPKIN

1

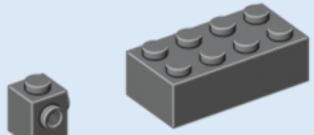

2x
2 × 4

Two 2 x 4 tiles side by side, smooth side down

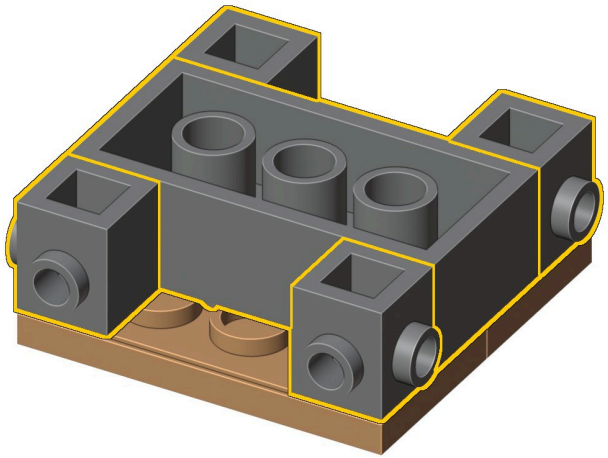

2

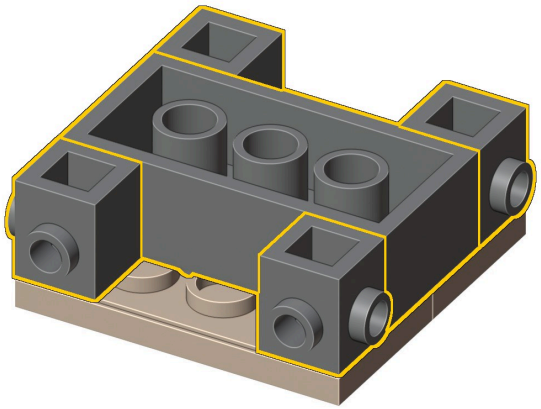

4x

1x
2 × 4

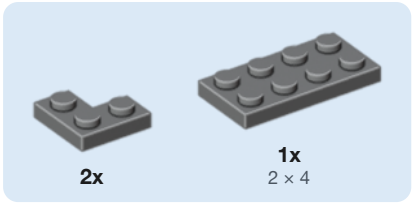

Four bricks with studs on two sides in the corners, studs out, and a 2 x 4 brick

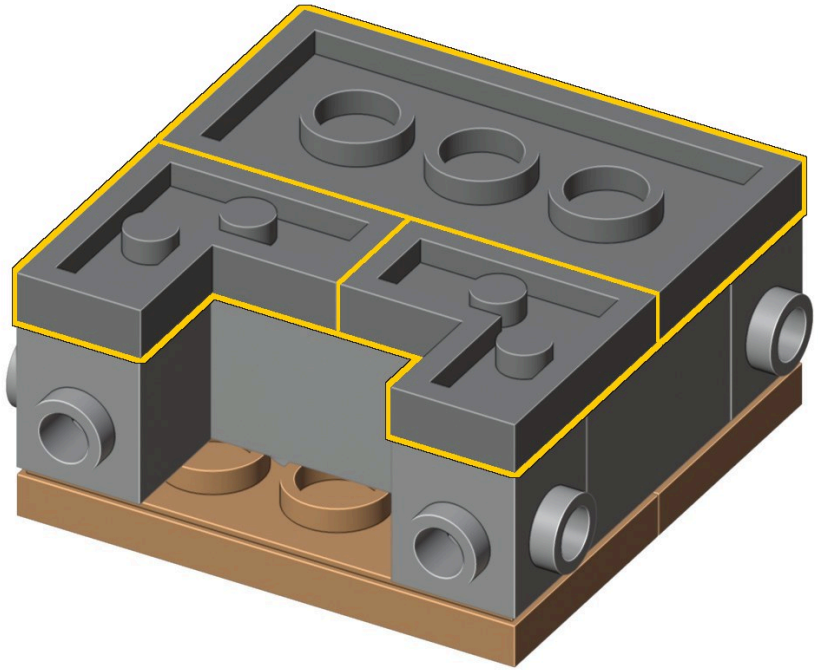

From behind: the outlined pieces.

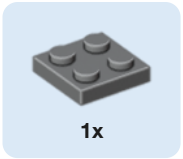

3

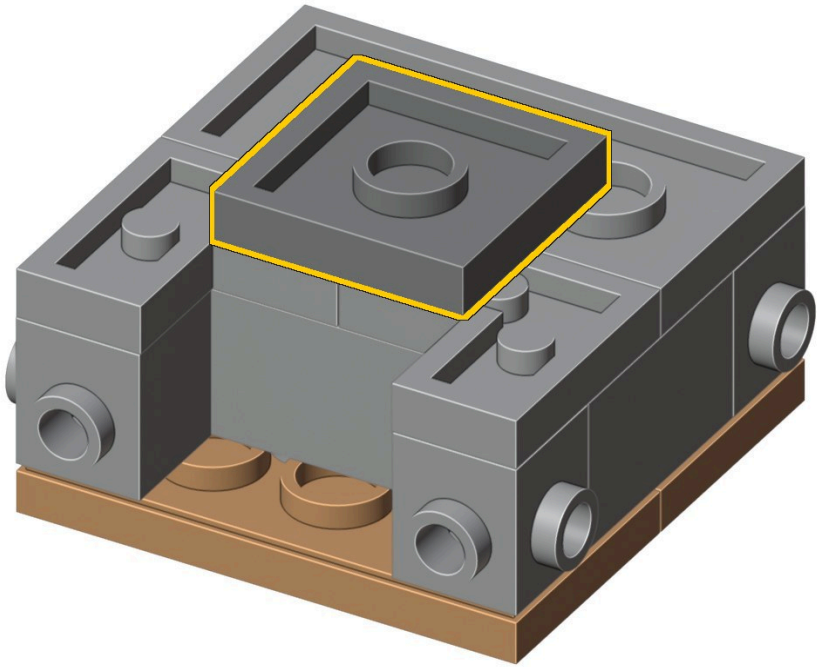

A 2 x 4 plate along the back, and two corner plates leaving the front open

4

A 2 x 2 plate in the middle

MOUTH PANEL

5

1x

The three teeth: a 1 x 2 plate, its studs out, the teeth up

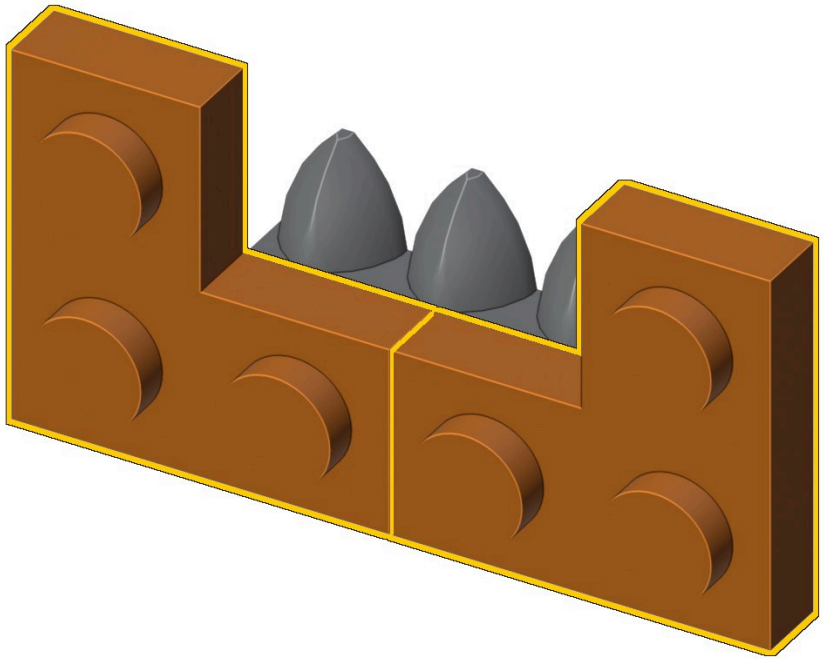

6

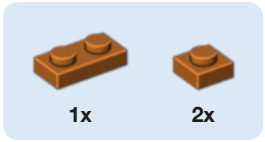

2x

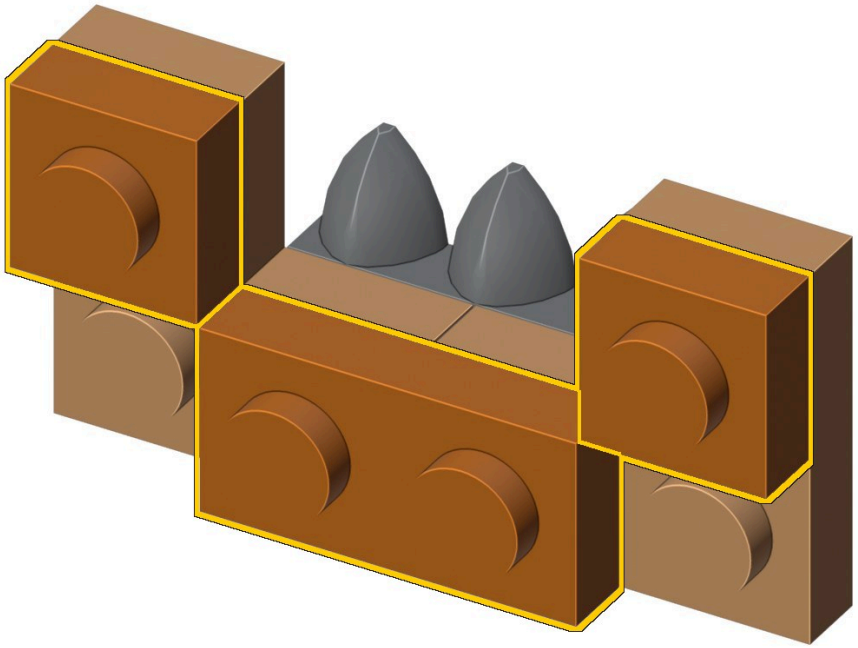

Two corner plates on the teeth plate's studs, round the open mouth

7

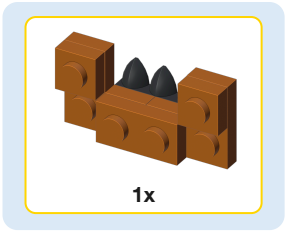

A plate on each upper corner and a 1 x 2 plate along the bottom

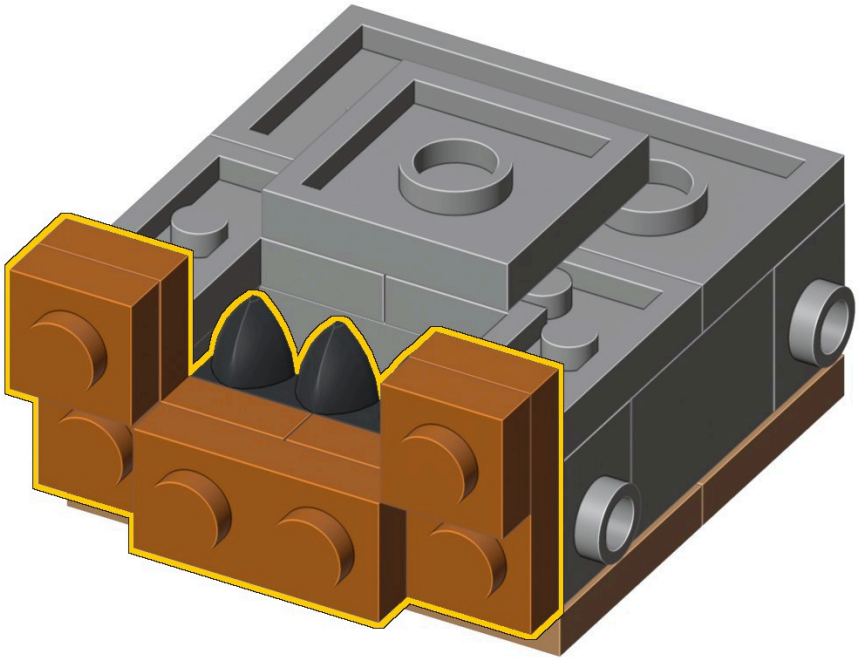

PUMPKIN

8

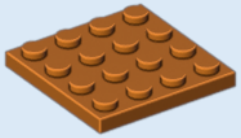

The mouth panel goes on the front of the base

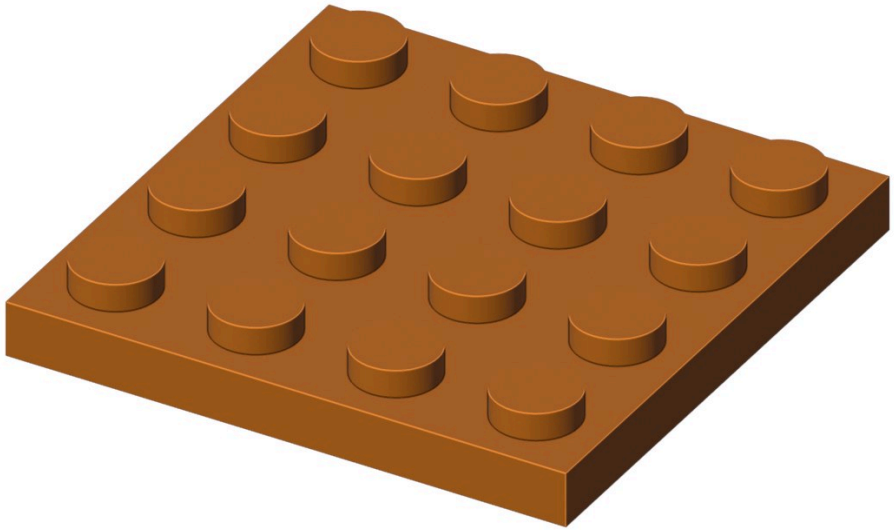

HEAD HALF

9

1x
4 × 4

The top: a 4 x 4 plate (it is built upside down, studs down)

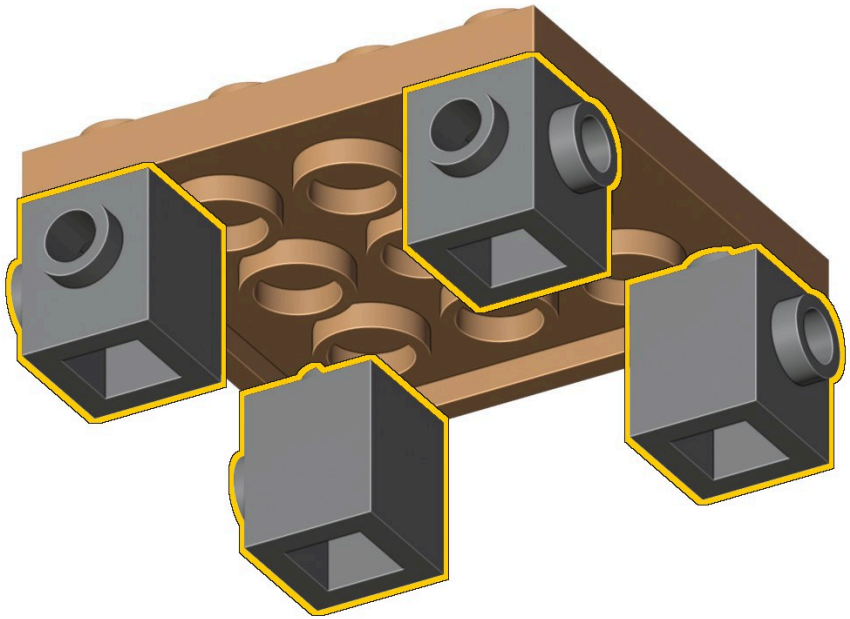

10

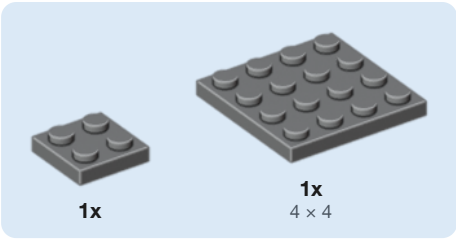

4x

Four bricks with studs on two sides, one in each corner, studs out

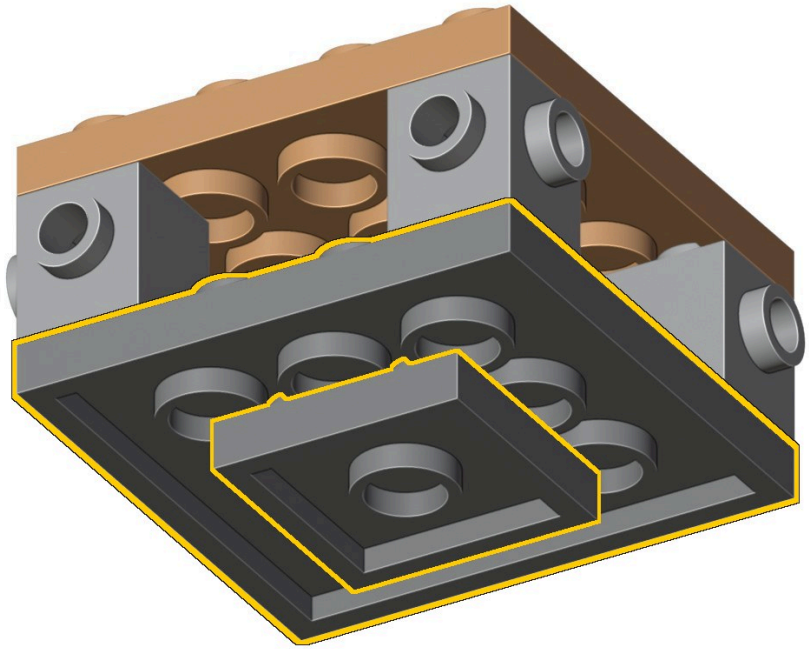

11

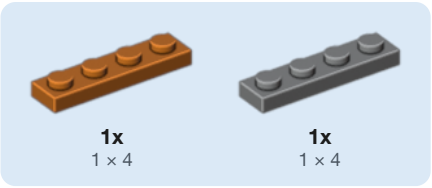

seen from below

A grey 4 x 4 plate across them and a 2 x 2 plate under its middle

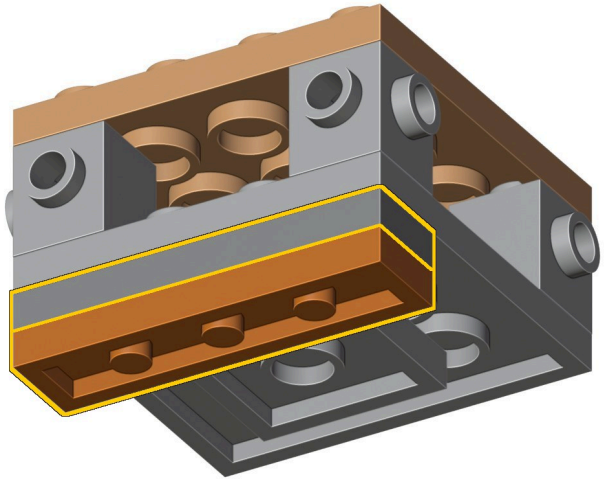

12

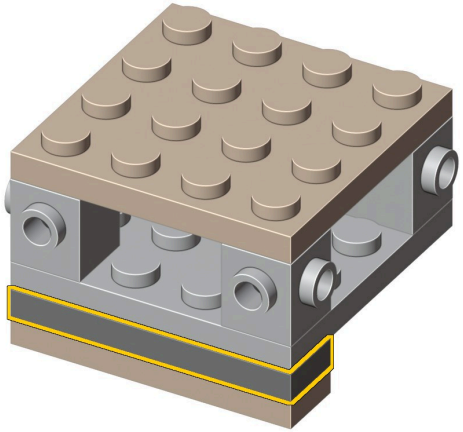

Head half

seen from below

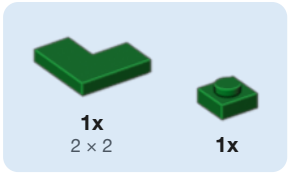

Two 1 x 4 plates, grey then orange, under the front edge

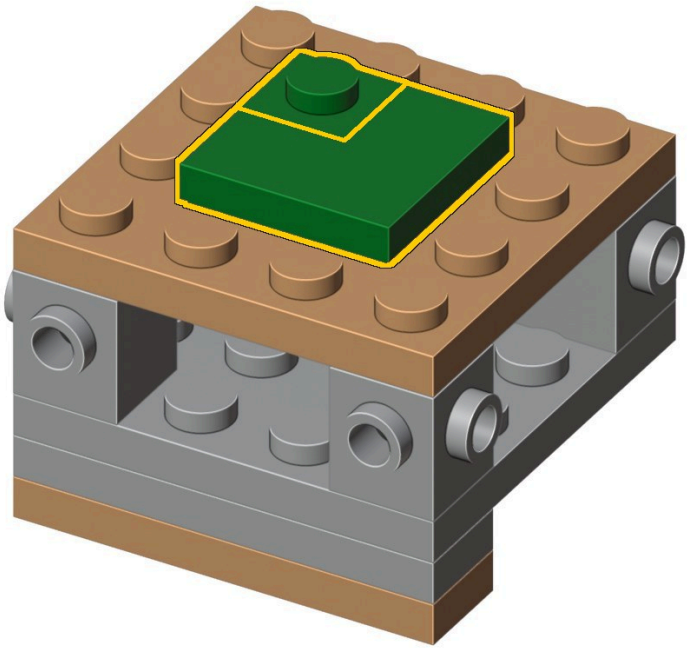

From above: the outlined piece.

13

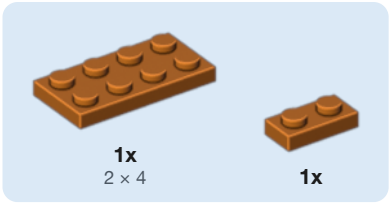

The green stem base: a corner tile and a 1 x 1 plate

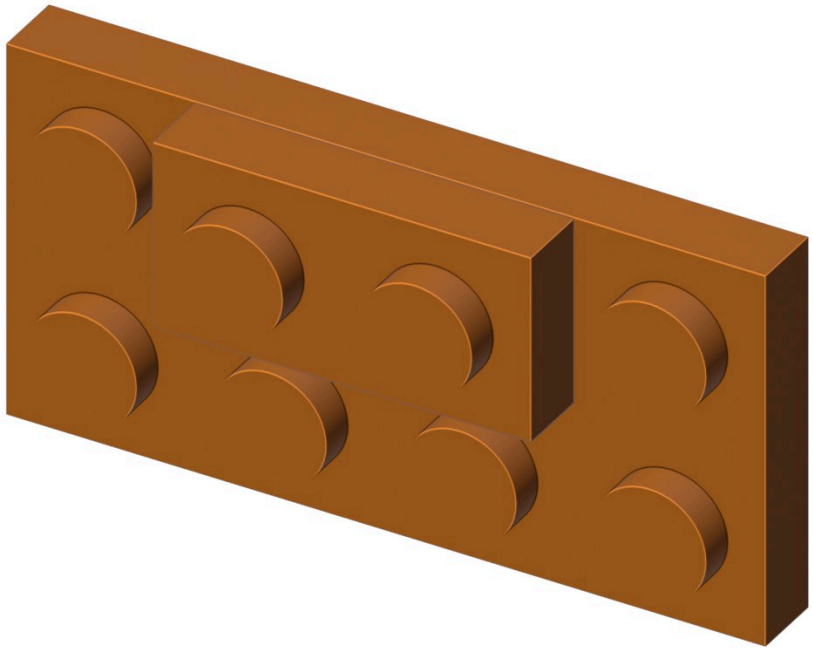

EYES PANEL

14

A 2 x 4 plate with a 1 x 2 plate on its top middle

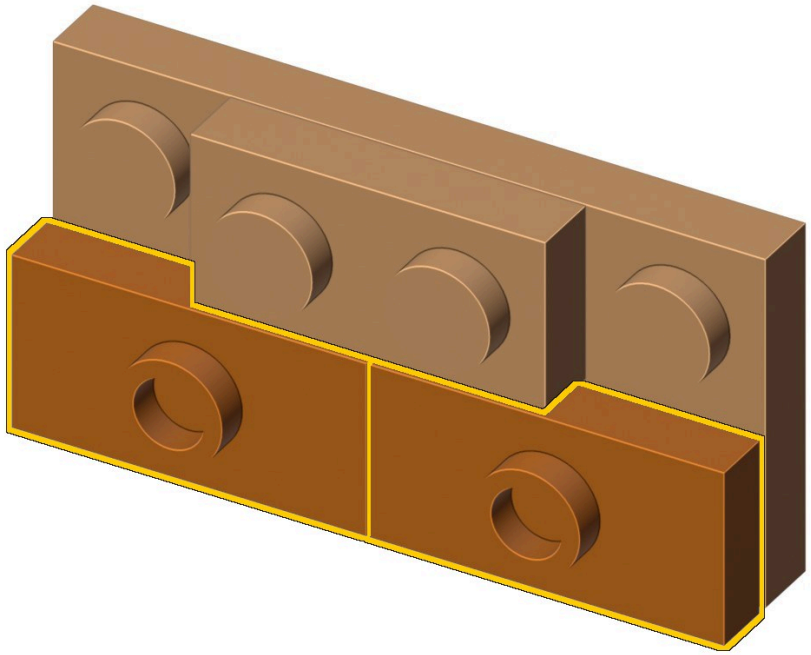

15

2x

Two 1 x 2 plates with a stud in the middle, along the bottom row

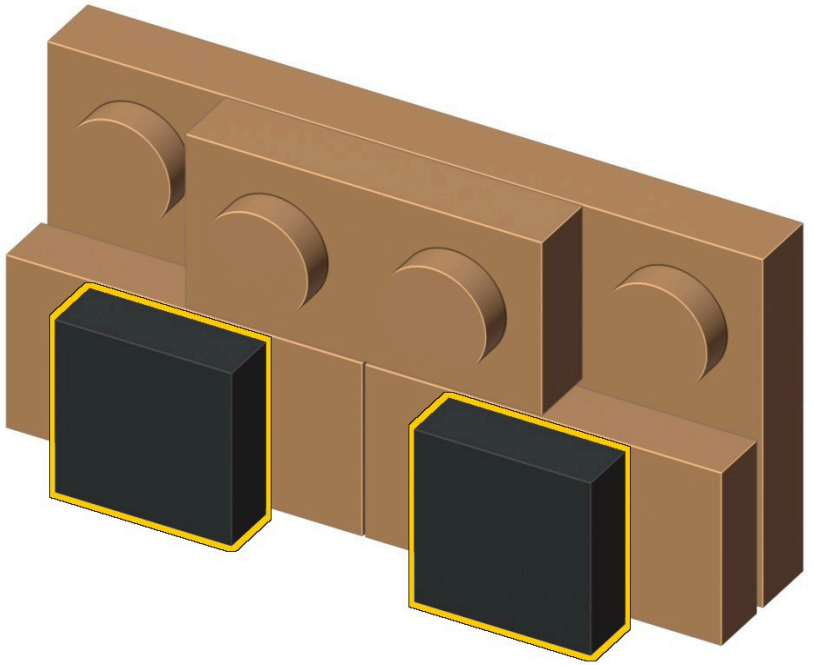

16

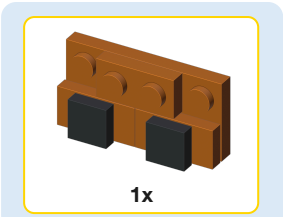

2x

A black tile on each stud: the eyes

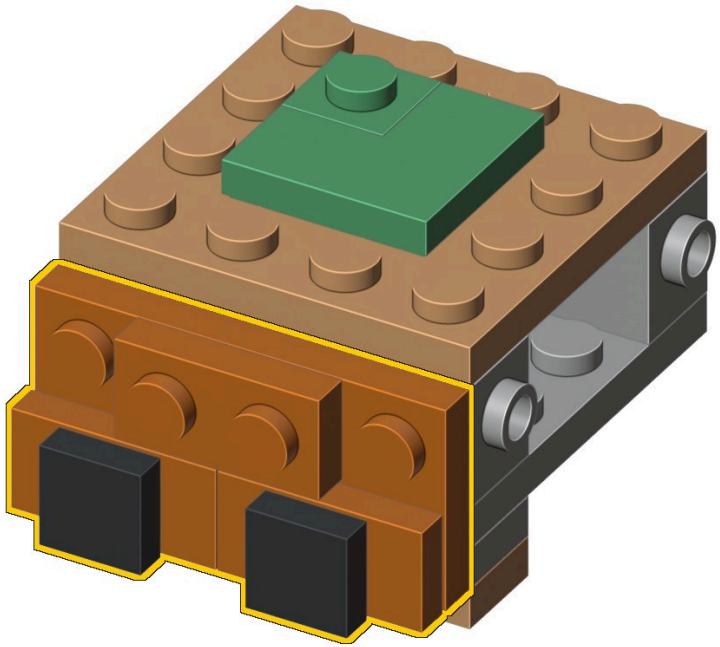

HEAD HALF

17

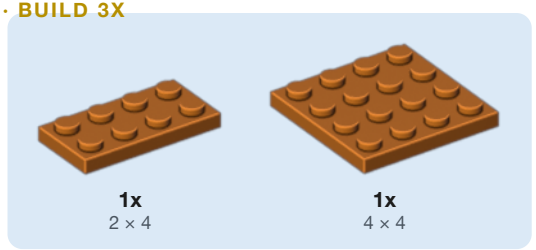

The eyes panel goes on the front of the head

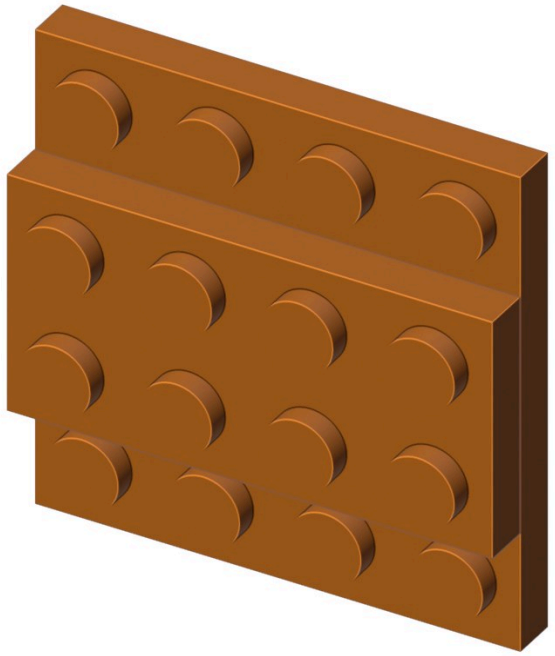

SIDE PANEL · BUILD 3X

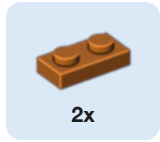

18

A 4 x 4 plate with a 2 x 4 plate across its middle rows

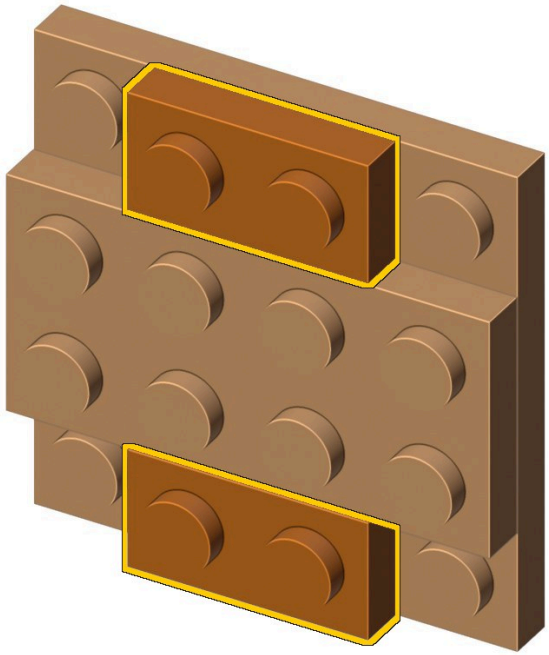

19

2x

A 1 x 2 plate on the top row and another on the bottom row

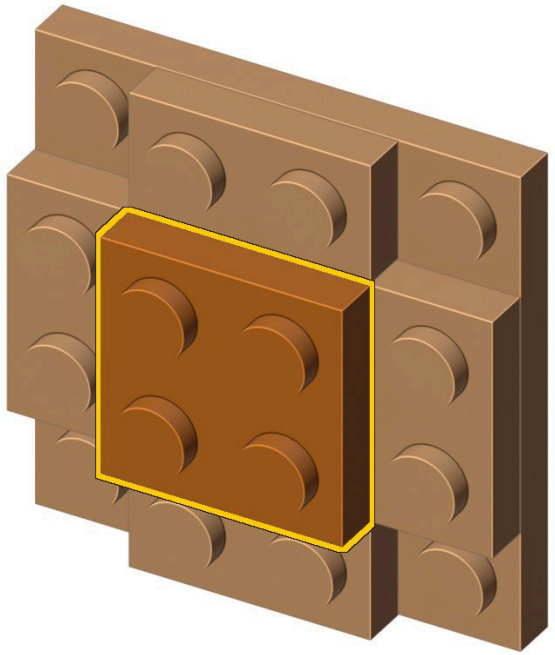

20

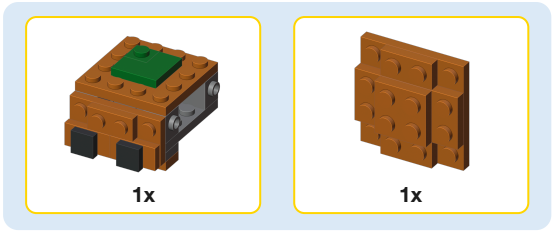

1x

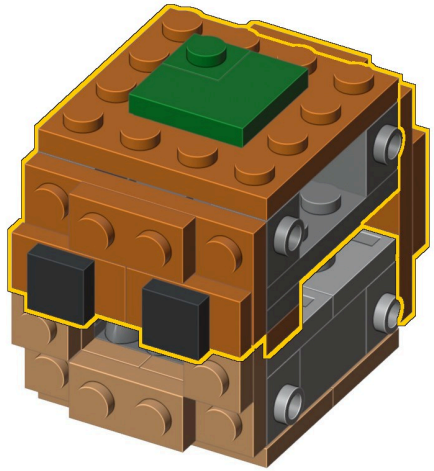

A 2 x 2 plate in the middle

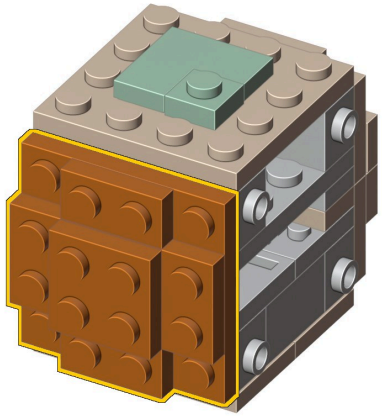

PUMPKIN
21

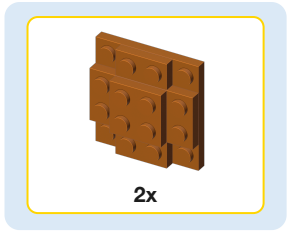

The head half sits on the base, and a side panel across the back ties them

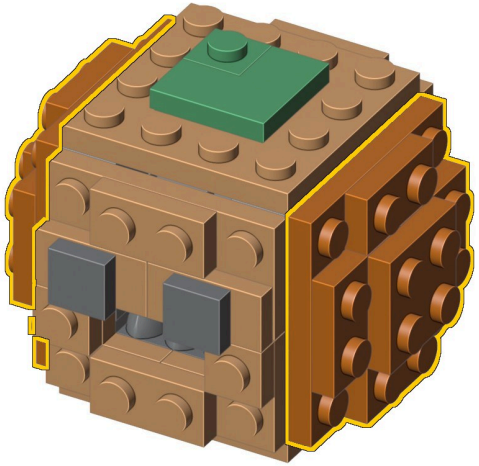

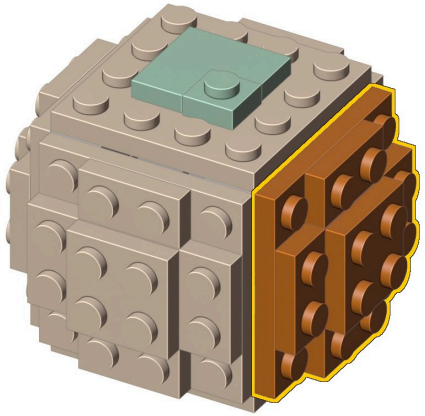

From behind: the outlined piece.

22

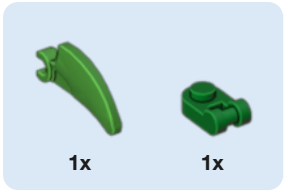

A side panel on each side

From behind: the outlined piece.

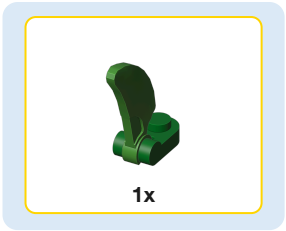

STEM
23

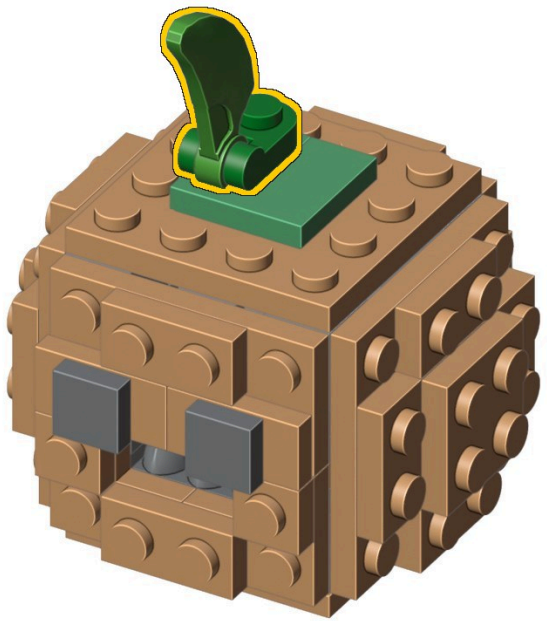

A leaf clipped on the handle of a round plate

PUMPKIN
24

The stem on the green plate

About this model

A grey core of two halves, built upside down and the right way up, gets its orange rind from the side: the mouth and eyes panels on the front and a side panel on the back, left and right. The side panels tie the halves together. Finish with the green stem and its leaf.

Checked on a computer

PASS	**real elements**	22 part/colour combinations: 0 not real, 0 rare
PASS	**connections**	132 connections (131 stud, 1 clip); 1 separate piece(s)
PASS	**collisions**	0 overlapping pair(s) among 51 parts
PASS	**buildability**	41 insertions tried across 6 submodel(s); 0 problem(s)
PASS	**stability**	about 44 g; centre of mass inside the base (99% margin); tips at 39.1 deg
PASS	**mechanism**	no moving parts defined
PASS	**electrics**	no electrics in this model
PASS	**technique**	0 note(s)

Not yet built with real bricks

These checks catch most mistakes a designer can make, but not all: clutch power, part tolerances, how stiff a long axle is and how the model survives handling can only be judged with real bricks. If you build it, we would love to hear how it went.

Files

3D model (LDraw, opens in BrickLink Studio, LeoCAD and LDCad), parts lists for BrickLink and LEGO Pick a Brick, and an interactive 3D viewer: **bricks.vhsgarage.com/m/pumpkin**
