Bricks

A LEGO® BRICK MODEL OF

Birthday Cake

A little birthday cake in 20 pieces.

20 pieces · 12 steps · 2 sections

Not produced, sponsored or endorsed by the LEGO Group. LEGO® is a trademark of the LEGO Group. Birthday Cake and related names belong to their owners. Made with brickkit · 2026-11-05

Before you start

An unofficial fan-made manual

This booklet is not a LEGO product. It was generated from the model file by a computer program and checked part by part.

Not physically build-tested

The model and these steps were checked on a computer only: every part/colour is a real LEGO element, all 40 connections between parts were matched in 3D, no two parts overlap, every part can be pushed into place in its step, and the model's balance was estimated. Not tested: how firmly parts hold, part tolerances and how it copes with handling. Take your time and support the model while you work.

The finished model

About 4.8 × 1.9 cm and 6.7 cm tall, about 14 g (estimated).

Build the birthday cake from LEGO Classic 11039 Creative Food Friends, following its 11 numbered steps. This standalone reconstruction uses the exact printed face and LEGO element inventory from the official booklet.

You will need

- The 20 pieces in 4 colours listed at the back, with their LEGO element IDs and BrickLink numbers.
- A brick separator for pieces that sit too deep for a finger.

Tips

- Sort the pieces by colour before you start.
- Build the sections in order: each sub-assembly is finished before it is used.
- New pieces in a step have a yellow outline; earlier pieces are drawn paler.
- Source: LEGO 11039, instruction PDF 6555451, pages 6-11.
- Build the flame into the candle separately, then attach the candle to the cherry.

The 4 colours

- White: 14
- Reddish Brown: 4
- Red: 1
- Trans-Orange: 1

How to read the steps

Parts and step number

7

2x

The parts for the step and how many of each, then the step number. The parts of a step are drawn at one scale, so a longer one looks longer; a tile or a long plate also has its size in studs under it.

New parts

The parts added in a step have a yellow outline and are drawn in full colour; the parts from earlier steps are drawn paler.

Sub-assemblies

1x

A yellow-framed picture means: put in the sub-assembly you built in its own section. "Build 4x" means you need four of them.

Sections

Each section starts with its name at the top of the page. Sections are built in the order they appear.

Seen from below

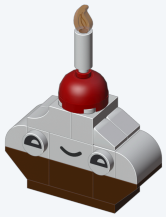

When a step adds parts underneath, the picture shows the model from below. A small label says so (and "seen from behind" likewise). A piece the picture cannot show gets a small picture beside it, ringed in yellow, from the side it can be seen from: where it clicks in.

Insert direction

Some parts slide in sideways (axles through bearings, gears onto axles). The picture shows where they end up; push them in along their axle.

Build overview

The model is built in 2 sections. Each is finished before it is used.

1. Birthday Cake
steps 1–10, 12

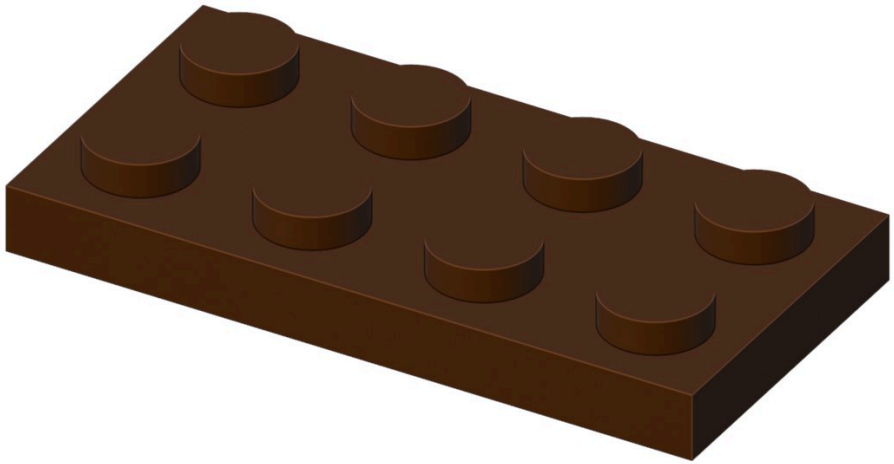

2. Candle and flame - page 11 callout
step 11

1

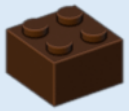

1x
2 × 4

1. Brown 2 x 4 base (LEGO page 6)

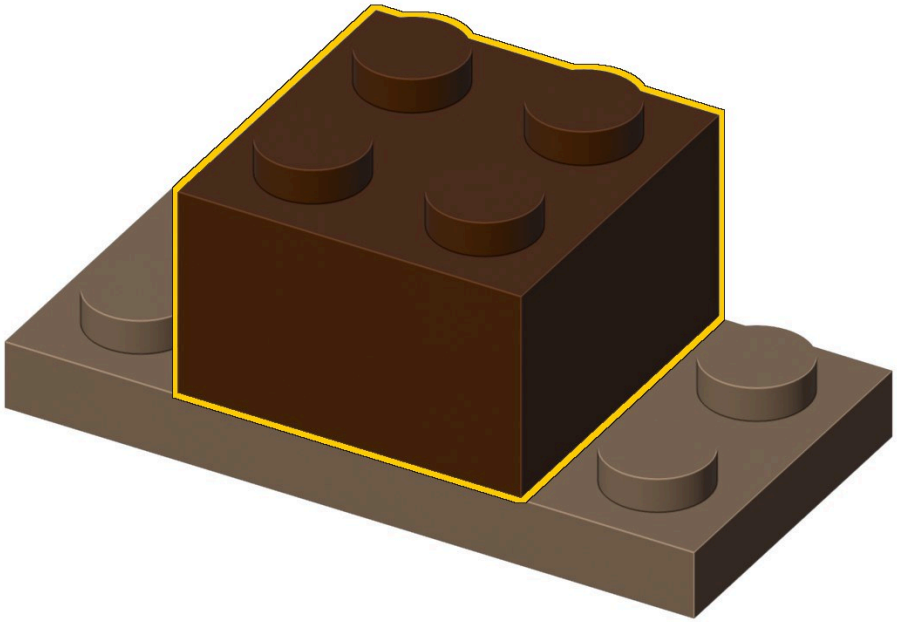

2

1x

2. Brown 2 x 2 centre (page 7)

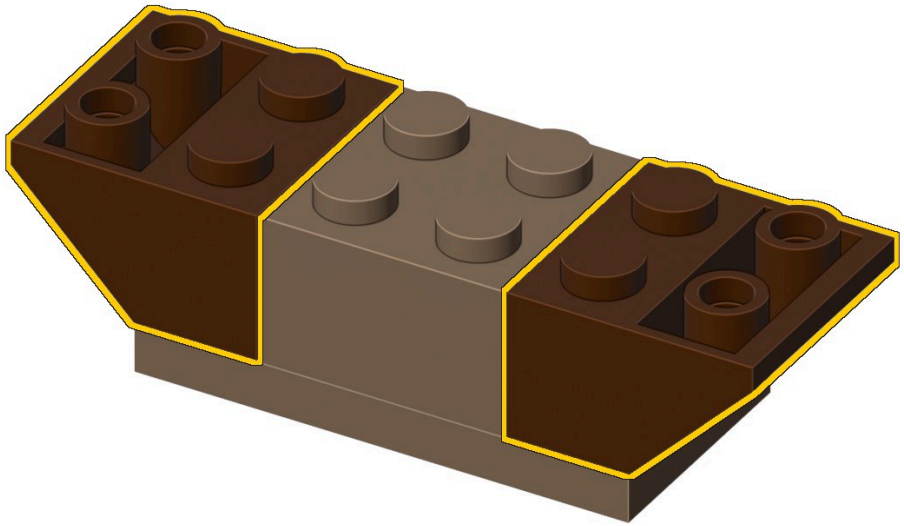

3

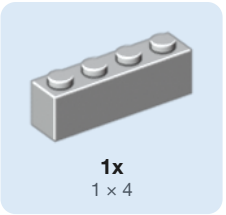

2x

3. Two inverted slopes widen the cake (page 7)

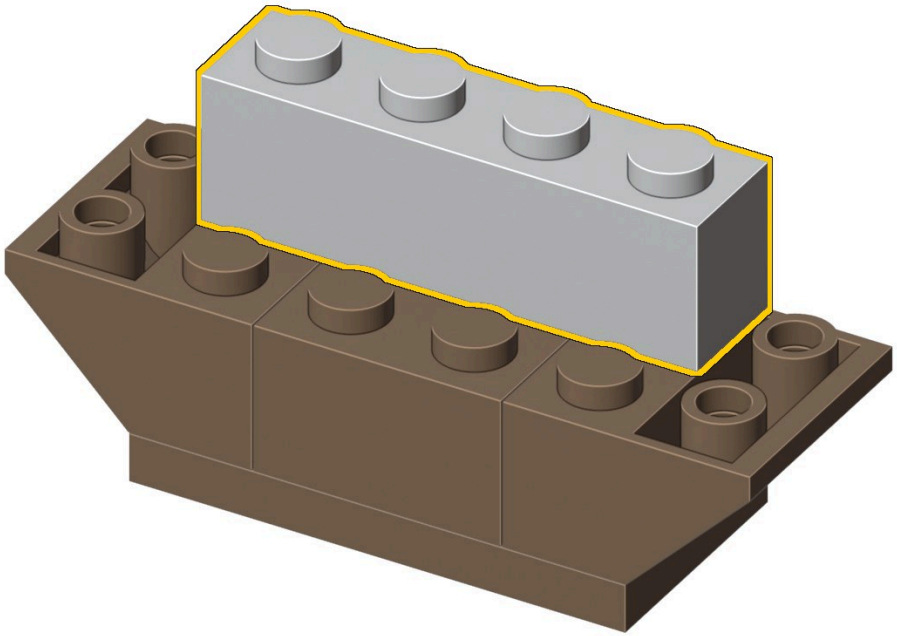

4

1x
1 × 4

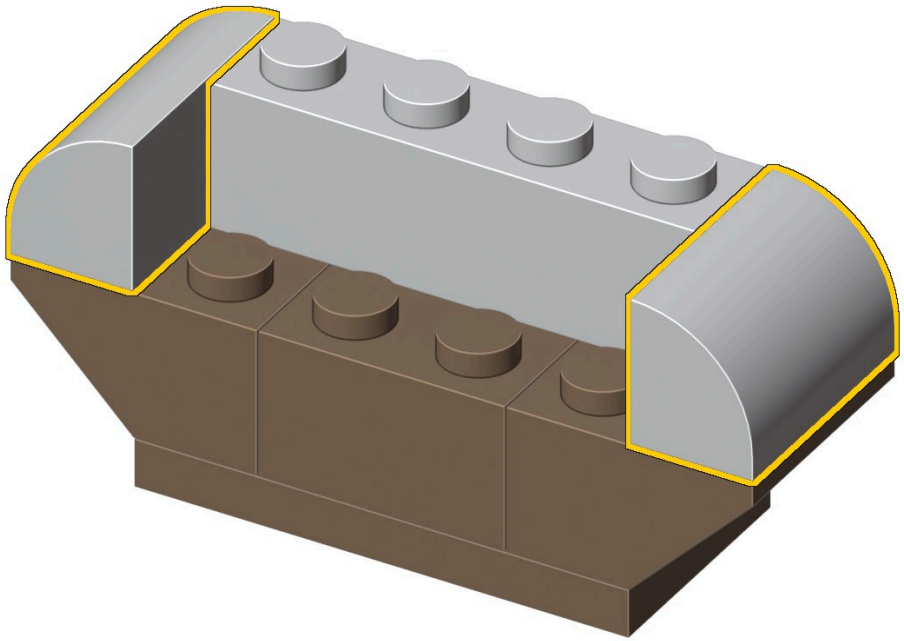

4. White 1 x 4 at the back (page 8)

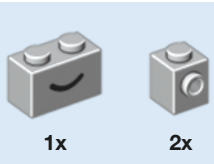

5

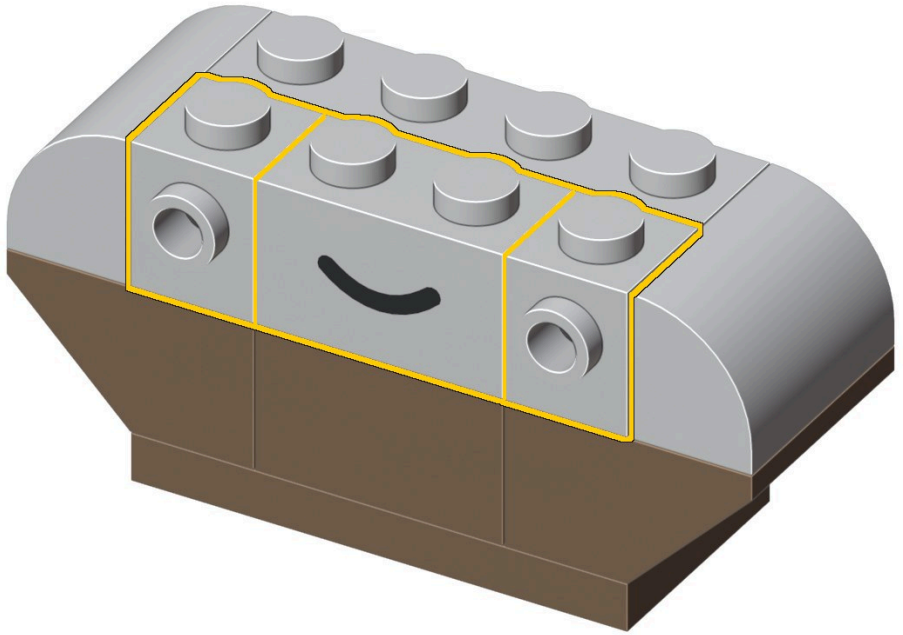

5. Curved frosting at both ends (page 8)

6

6. Two eye bricks and the printed smile (page 9)

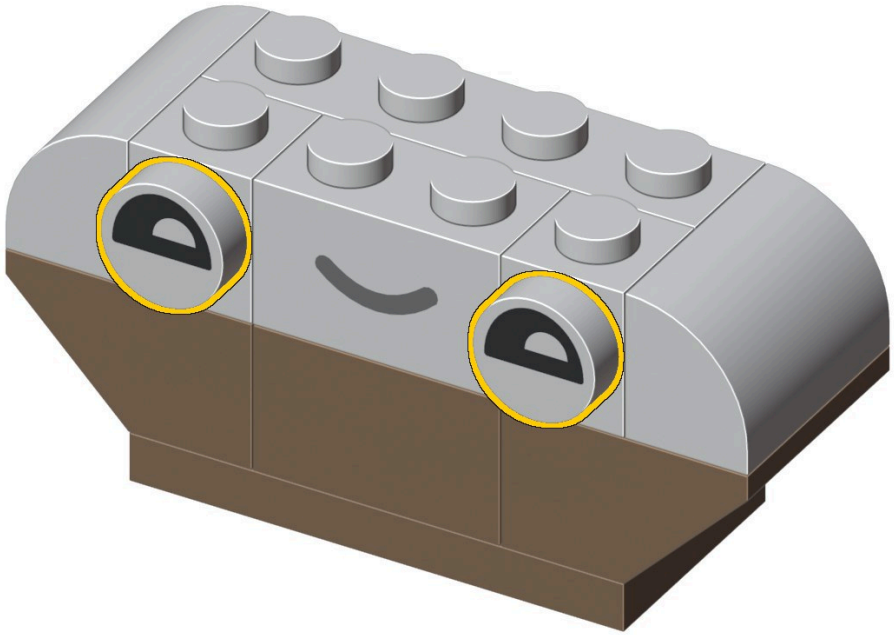

7

2x

7. Two sleepy printed eyes (page 9)

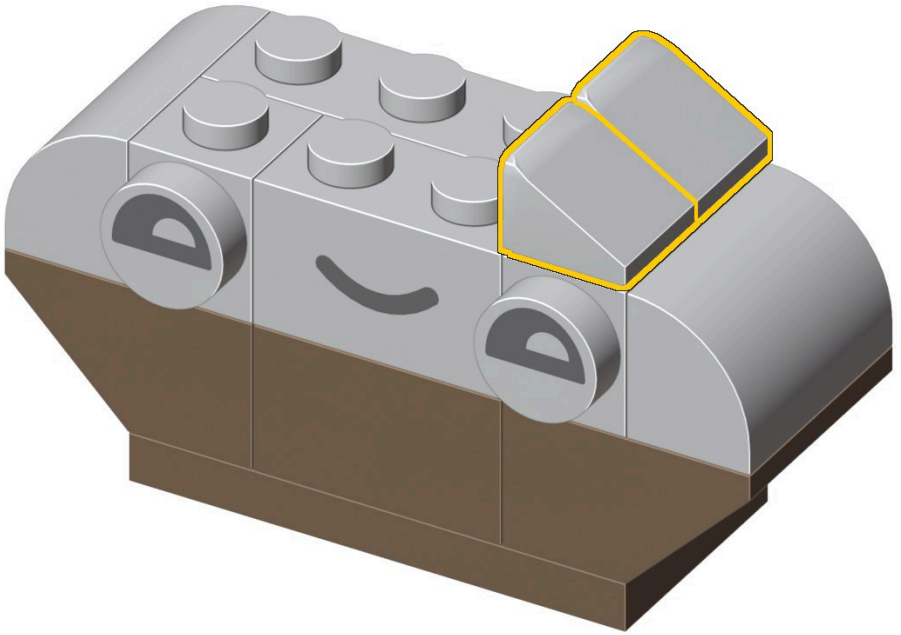

8

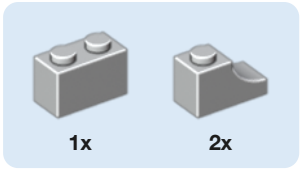

2x

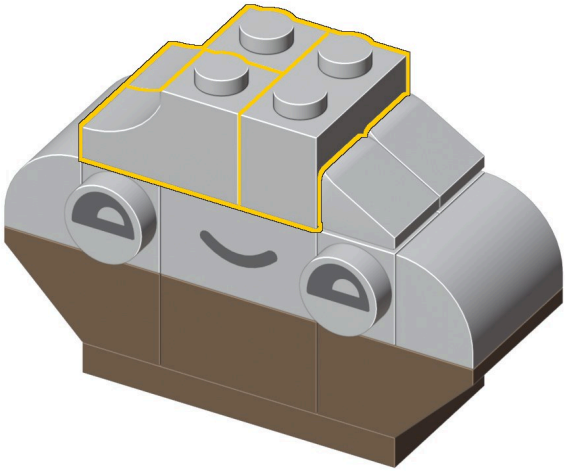

8. Two small slopes on the right (page 10)

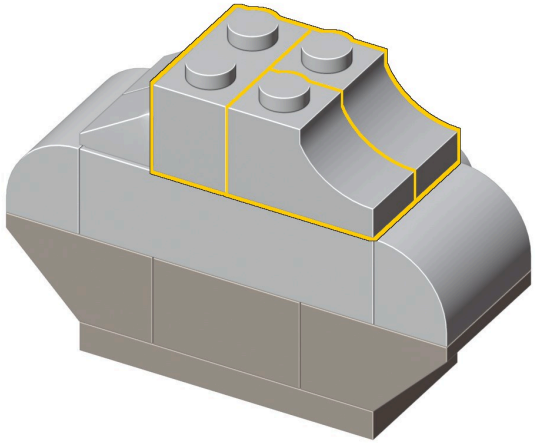

9

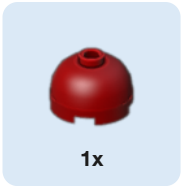

9. The top frosting and curved cutouts (page 10)

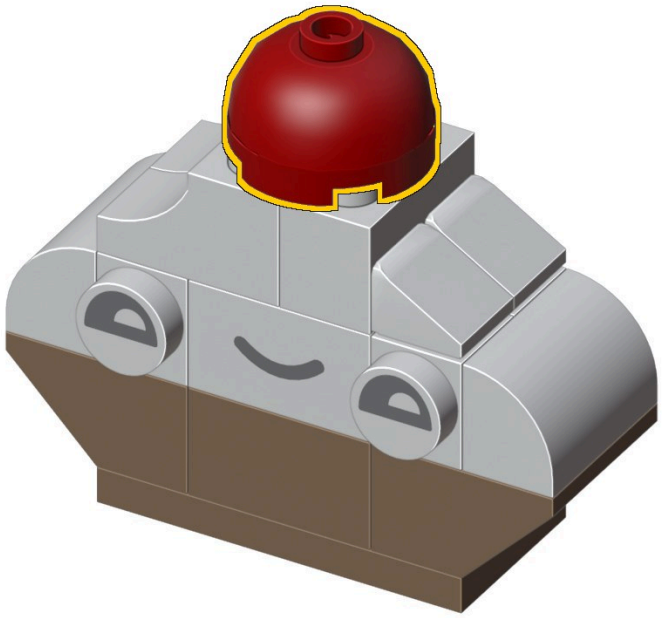

From behind: the outlined pieces.

10

10. Red cherry (page 11)

CANDLE AND FLAME - PAGE 11 CALLOUT

11

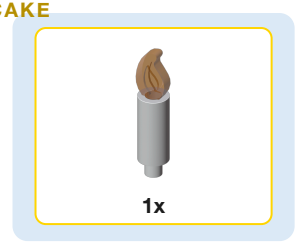

Push the small flame into the top of the white candle

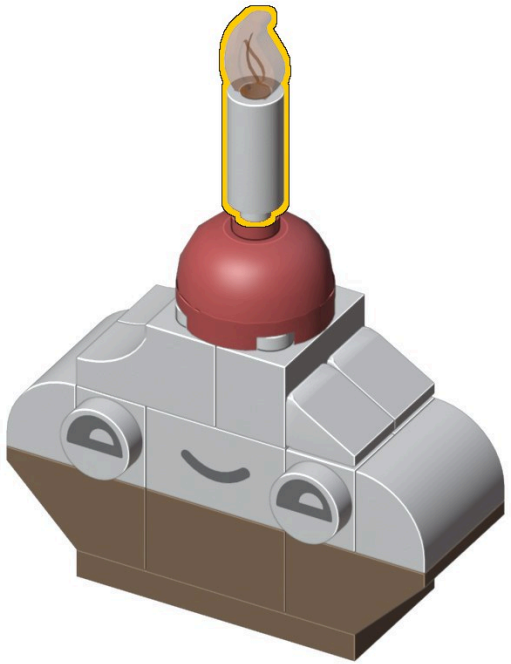

BIRTHDAY CAKE

12

11. Put the completed candle in the cherry (page 11)

Parts inventory

20 pieces in 14 part/colour lines. Bold: the LEGO element ID (what LEGO Pick a Brick sells); below: the colour and the BrickLink part number.

About this model

Build the birthday cake from LEGO Classic 11039 Creative Food Friends, following its 11 numbered steps. This standalone reconstruction uses the exact printed face and LEGO element inventory from the official booklet.

Checked on a computer

WARN	**real elements**	14 part/colour combinations: 0 not real, 1 rare
PASS	**connections**	40 connections (38 stud, 1 pin, 1 bar); 1 separate piece(s)
PASS	**collisions**	0 overlapping pair(s) among 20 parts
PASS	**buildability**	19 insertions tried across 2 submodel(s); 0 problem(s)
PASS	**stability**	about 14 g; centre of mass inside the base (97% margin); tips at 23.4 deg
PASS	**mechanism**	no moving parts defined
PASS	**electrics**	no electrics in this model
PASS	**technique**	0 note(s)

Not yet built with real bricks

These checks catch most mistakes a designer can make, but not all: clutch power, part tolerances, how stiff a long axle is and how the model survives handling can only be judged with real bricks. If you build it, we would love to hear how it went.

Files

3D model (LDraw, opens in BrickLink Studio, LeoCAD and LDCad), parts lists for BrickLink and LEGO Pick a Brick, and an interactive 3D viewer: **bricks.vhsgarage.com/m/birthday_cake**
