Bricks

A LEGO® BRICK MODEL OF

# Freddy Fazbear

A brown bear robot with a top hat, a bow tie and a microphone, in 42 pieces.

**42** pieces · 32 steps · 1 sections

Not produced, sponsored or endorsed by the LEGO Group. LEGO® is a trademark of the LEGO Group. Freddy Fazbear and related names belong to their owners. Made with brickkit · 2026-11-05

# Before you start

### An unofficial fan-made manual

This booklet is not a LEGO product. It was generated from the model file by a computer program and checked part by part.

The model is another builder's design. (https://rebrickable.com/mocs/MOC-265184/) These steps were worked out from it here.

### Not physically build-tested

The model and these steps were checked on a computer only: every part/colour is a real LEGO element, all 64 connections between parts were matched in 3D, no two parts overlap, every part can be pushed into place in its step, and the model's balance was estimated. Not tested: how firmly parts hold, part tolerances and how it copes with handling. Take your time and support the model while you work.

### The finished model

About 3.4 × 4.1 cm and 9.0 cm tall, about 15 g (estimated).

Freddy stands on two 1 x 2 plates. Build up his legs and hip, give him a round belly and a pair of shoulder bars to hang his arms from, put the microphone in his hand, then add his bow tie, his head with its snout, nose and big round eyes, his ears and his top hat.

### You will need

- The 42 pieces in 5 colours listed at the back, with their LEGO element IDs and BrickLink numbers.
- A brick separator for pieces that sit too deep for a finger.

### Tips

- Sort the pieces by colour before you start.
- Build the sections in order: each sub-assembly is finished before it is used.
- New pieces in a step have a yellow outline; earlier pieces are drawn paler.

### The 5 colours

- Reddish Brown: 30
- Black: 8
- White: 2
- Tan: 1
- Light Nougat: 1

# How to read the steps

### Parts and step number

7

2x

The parts for the step and how many of each, then the step number. The parts of a step are drawn at one scale, so a longer one looks longer; a tile or a long plate also has its size in studs under it.

### New parts

The parts added in a step have a yellow outline and are drawn in full colour; the parts from earlier steps are drawn paler.

### Sub-assemblies

1x

A yellow-framed picture means: put in the sub-assembly you built in its own section. "Build 4x" means you need four of them.

### Sections

Each section starts with its name at the top of the page. Sections are built in the order they appear.

### Seen from below

When a step adds parts underneath, the picture shows the model from below. A small label says so (and "seen from behind" likewise). A piece the picture cannot show gets a small picture beside it, ringed in yellow, from the side it can be seen from: where it clicks in.

### Insert direction

Some parts slide in sideways (axles through bearings, gears onto axles). The picture shows where they end up; push them in along their axle.

# Build overview

The model is built in 1 sections. Each is finished before it is used.

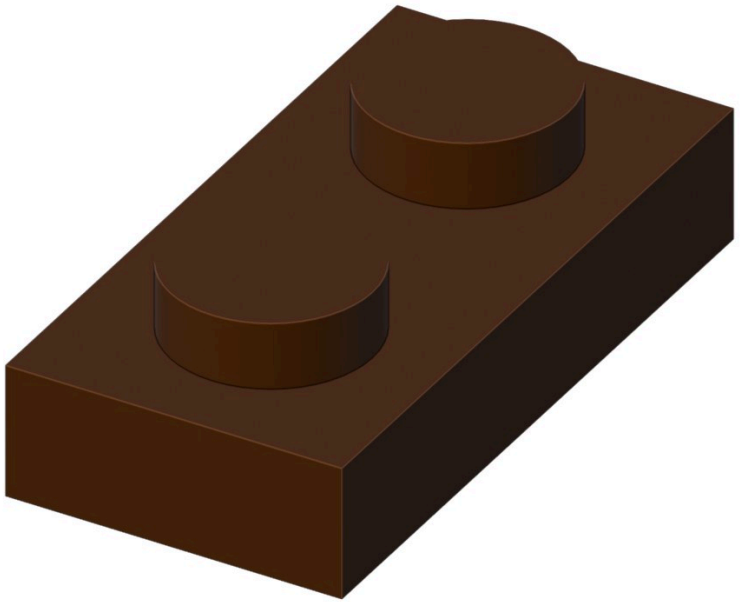

**1. Freddy Fazbear**
steps 1–32

# 1

1x

The first foot: a 1 x 2 plate

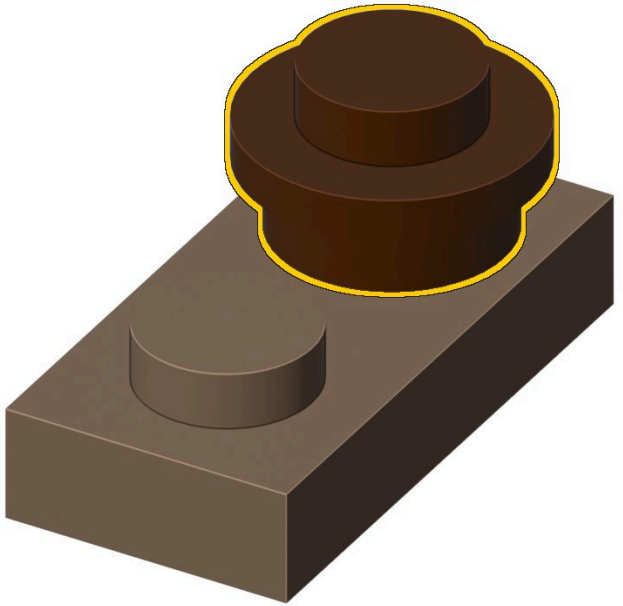

# 2

1x

A round plate on its back stud

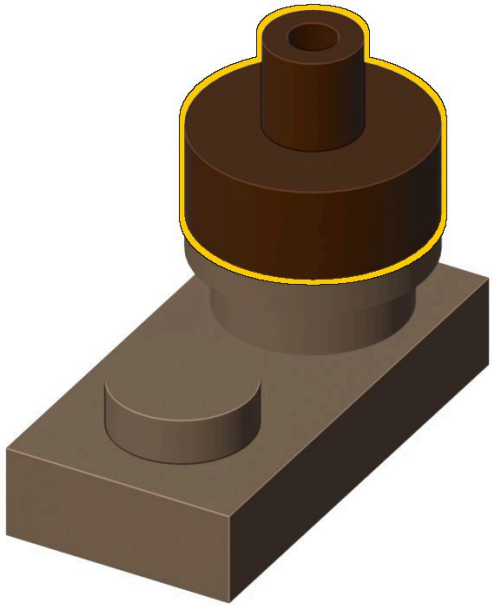

# 3

1x

A round tile with a pin on top

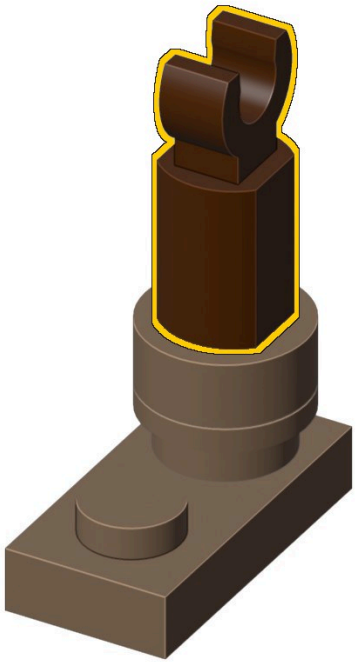

# 4

1x

The leg: a holder with a clip over the pin

# 5

1x

A plate with a side handle, studs facing front, its handle in the leg's clip

# 6

1x
2 × 3

The hip: a 2 x 3 plate standing up, studs facing front, behind the handle plate

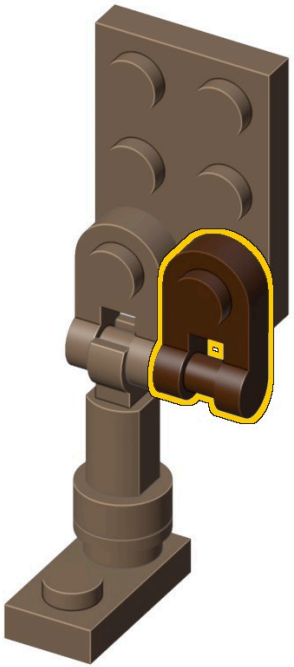

## 7

1x

The second handle plate

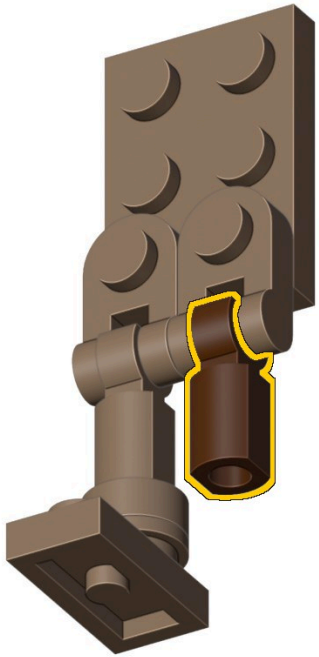

## 8

1x

The second leg's holder, pushed up onto the handle

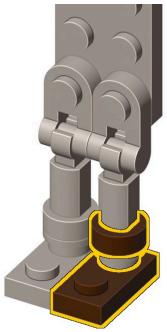

# 9

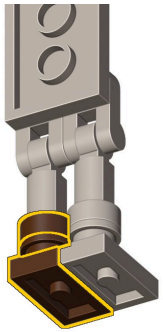

seen from below

The second foot goes on from underneath: a tile with a pin, a round plate, a 1 x 2 plate

From above: the outlined pieces.

From behind: the outlined pieces.

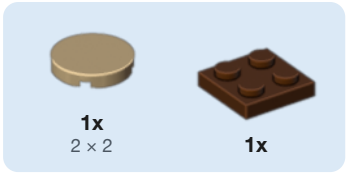

# 10

A rounded 1 x 2 plate on the 2 x 3 plate's middle studs

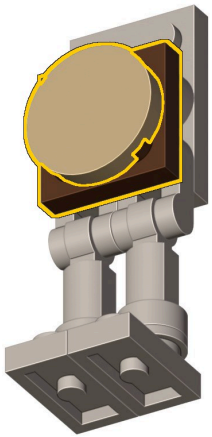

# 11

The belly: a 2 x 2 plate over the handle plates and the rounded plate, and a round tile on it

From below: the outlined pieces click in here.

# 12

The shoulders: two round plates with a bar, bars pointing out

# 13

1x

The left arm: a mechanical arm clipped on the bar

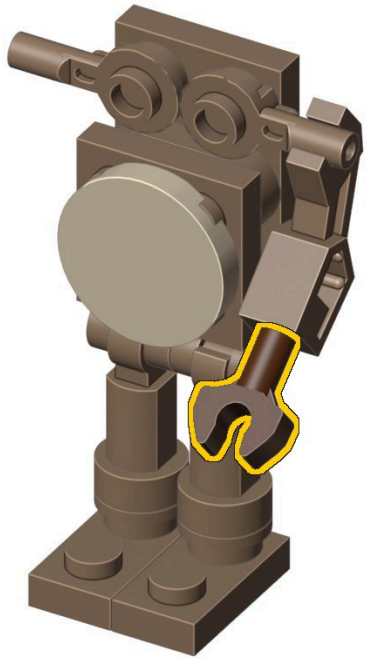

# 14

1x

Its hand, pushed into the end of the forearm

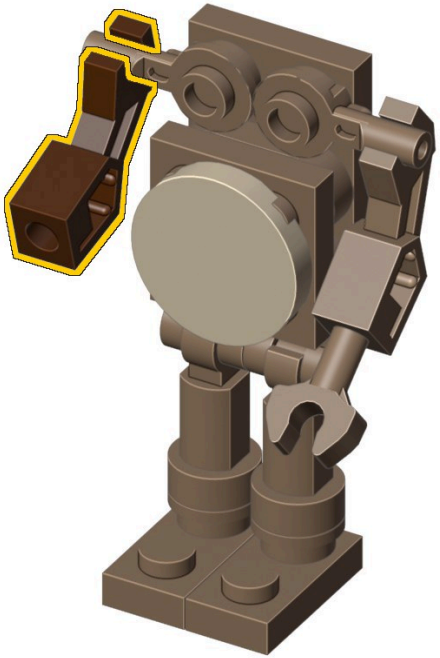

# 15

1x

The right arm

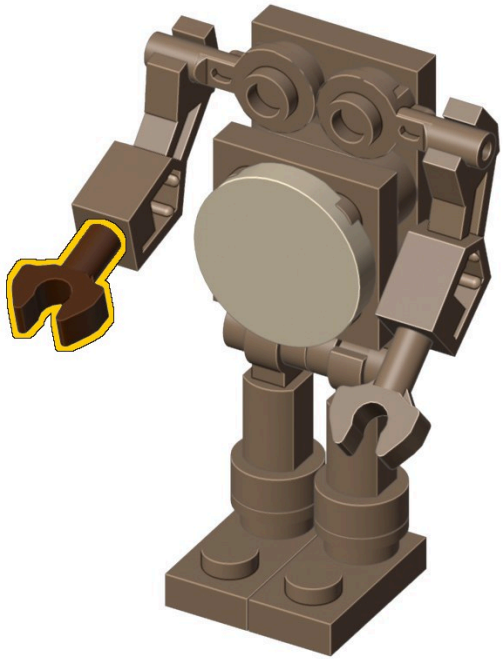

# 16

1x

Its hand

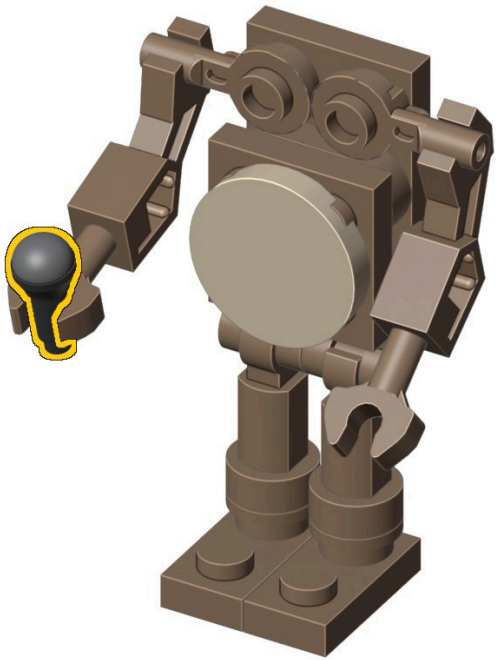

# 17

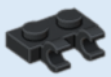

1x

The microphone in the right hand

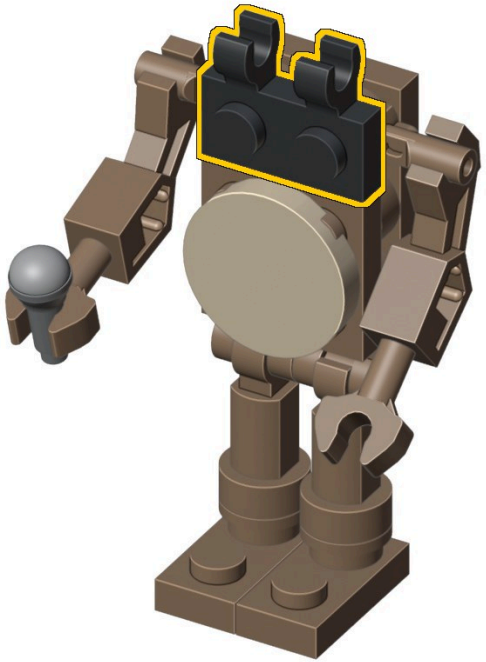

# 18

1x

The neck: a plate with two clips pointing up, on the shoulders' studs

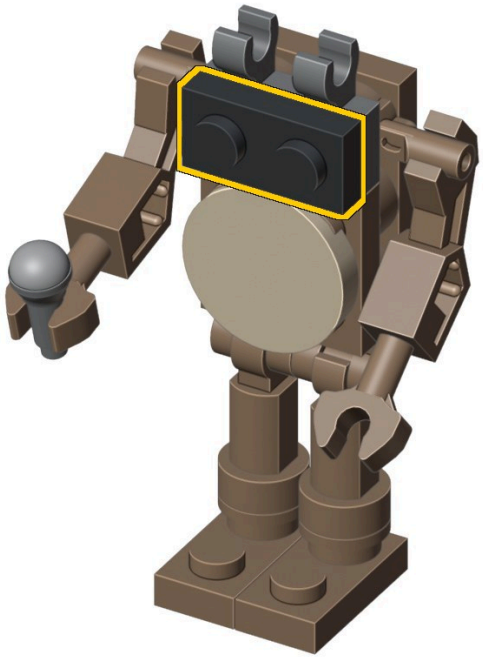

# 19

1x

A black 1 x 2 plate for the bow tie

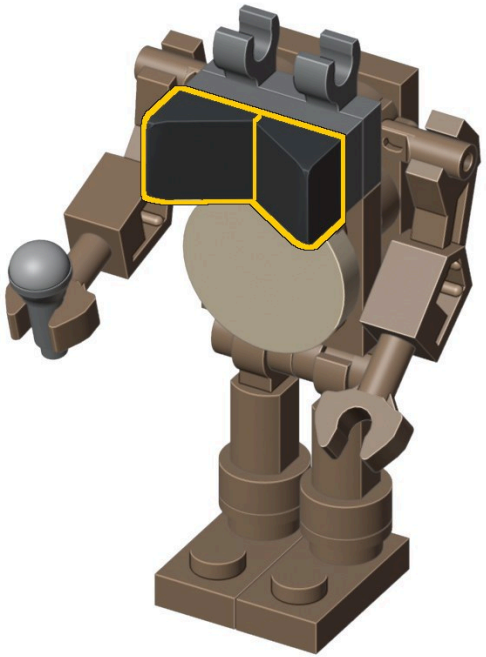

# 20

2x

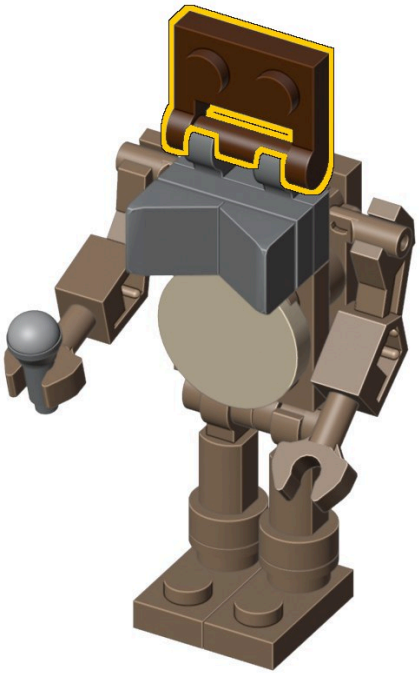

The bow tie: two slopes

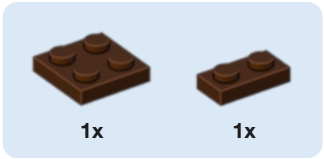

# 21

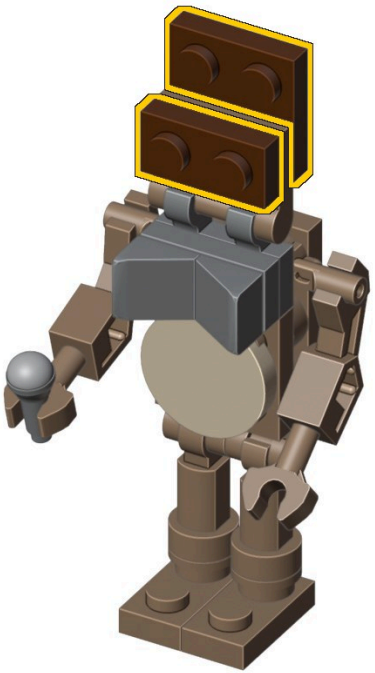

The head: a plate with a handle, its handle in the neck's clips

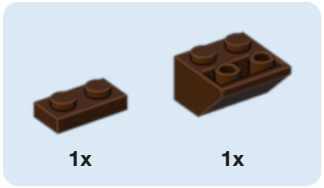

# 22

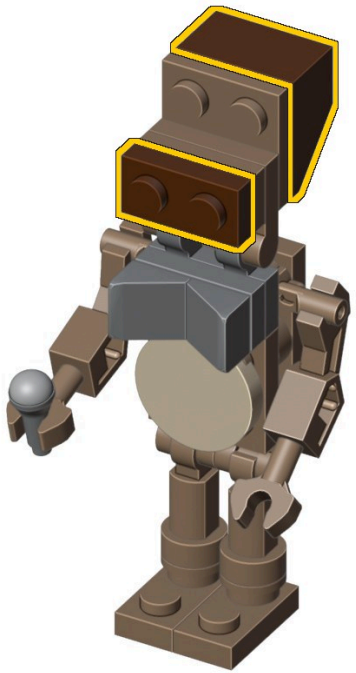

A 2 x 2 plate behind it and a 1 x 2 plate in front

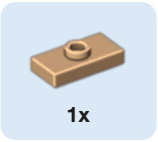

# 23

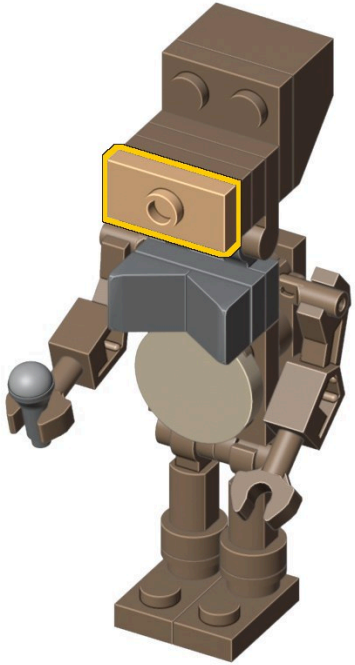

Another 1 x 2 plate in front, and a slope behind the head

# 24

The muzzle: a 1 x 2 plate with a stud in the middle

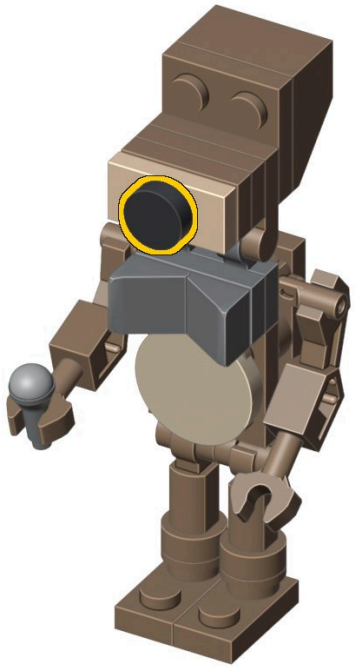

# 25

1x

The nose: a round tile

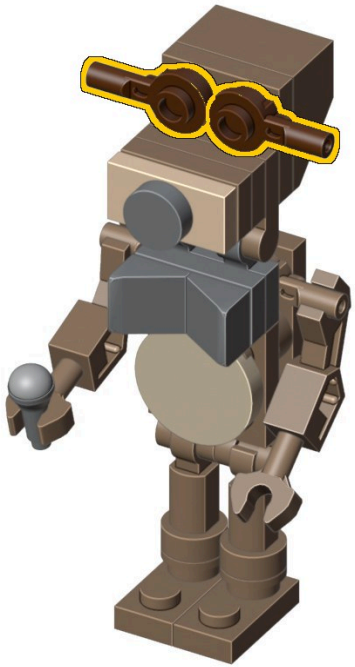

# 26

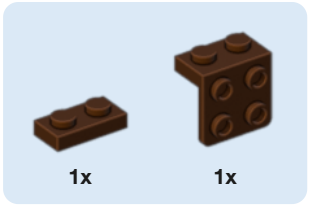

2x

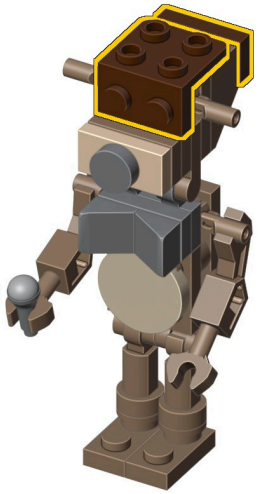

The ears' bars: two round plates with a bar on the head's top studs

# 27

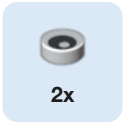

The head's top: a bracket, and a plate at the back

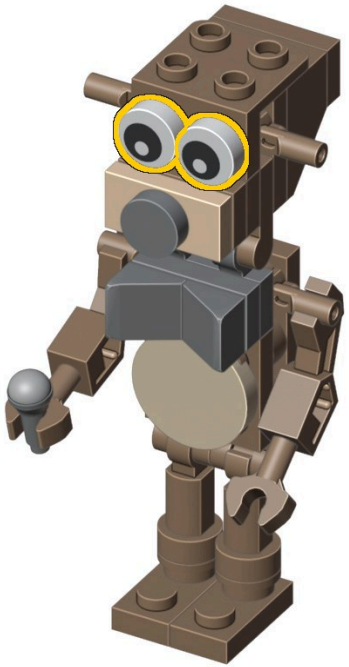

From behind: the outlined pieces.

# 28

The eyes: two round tiles on the front studs

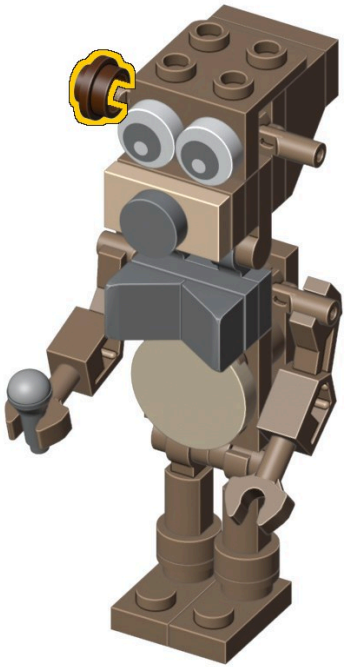

# 29

1x

The right ear: a round plate on the bar's end

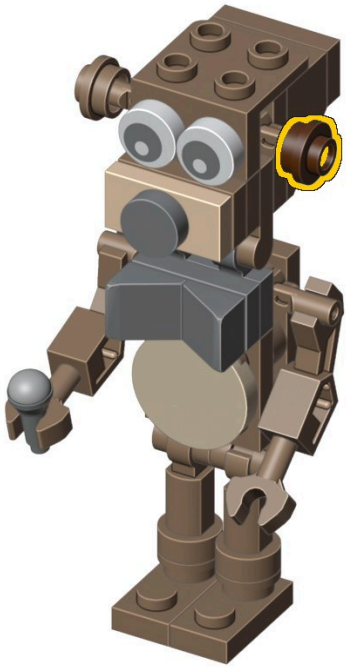

# 30

1x

The left ear

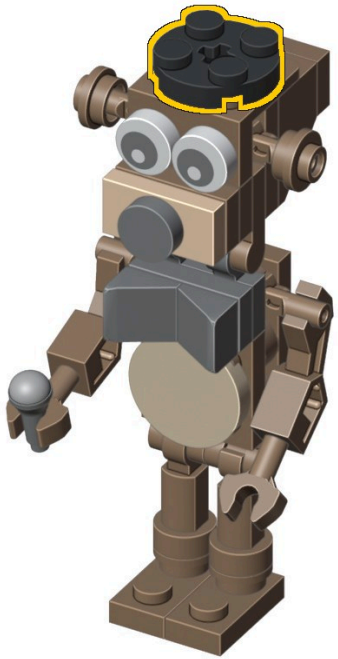

# 31

1x

The hat's brim: a black round plate on the top studs

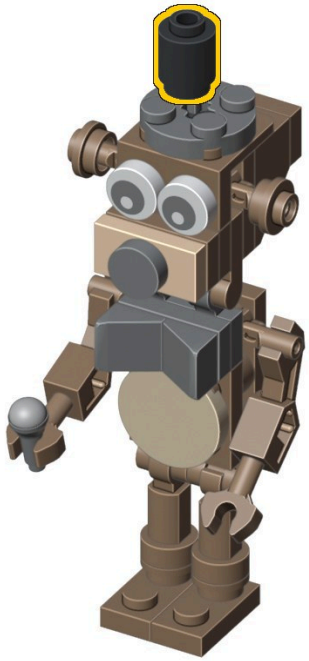

# 32

1x

The top of the hat: a black round brick

# About this model

Freddy stands on two 1 x 2 plates. Build up his legs and hip, give him a round belly and a pair of shoulder bars to hang his arms from, put the microphone in his hand, then add his bow tie, his head with its snout, nose and big round eyes, his ears and his top hat.

## Checked on a computer

| | | |
|---|---|---|
| PASS | **real elements** | 25 part/colour combinations: 0 not real, 0 rare |
| PASS | **connections** | 64 connections (49 stud, 7 clip, 4 pin, 4 bar); 1 separate piece(s) |
| PASS | **collisions** | 0 overlapping pair(s) among 42 parts |
| PASS | **buildability** | 41 insertions tried across 1 submodel(s); 0 problem(s) |
| PASS | **stability** | about 15 g; centre of mass inside the base (74% margin); tips at 7.0 deg |
| PASS | **mechanism** | no moving parts defined |
| PASS | **electrics** | no electrics in this model |
| PASS | **technique** | 0 note(s) |

### Not yet built with real bricks

These checks catch most mistakes a designer can make, but not all: clutch power, part tolerances, how stiff a long axle is and how the model survives handling can only be judged with real bricks. If you build it, we would love to hear how it went.

### Files

3D model (LDraw, opens in BrickLink Studio, LeoCAD and LDCad), parts lists for BrickLink and LEGO Pick a Brick, and an interactive 3D viewer: **bricks.vhsgarage.com/m/freddy_fazbear**
