Bricks

A LEGO® BRICK MODEL OF

Squirtle

A little water-type with a big curl

42 pieces · 20 steps · 3 sections

Not produced, sponsored or endorsed by the LEGO Group. LEGO® is a trademark of the LEGO Group. Squirtle and related names belong to their owners.
Made with brickkit · 2026-11-05

Before you start

An unofficial fan-made manual

This booklet is not a LEGO product. It was generated from the model file by a computer program and checked part by part.

Not physically build-tested

The model and these steps were checked on a computer only: every part/colour is a real LEGO element, all 115 connections between parts were matched in 3D, no two parts overlap, every part can be pushed into place in its step, and the model's balance was estimated. Not tested: how firmly parts hold, part tolerances and how it copes with handling. Take your time and support the model while you work.

The finished model

About 6.6 × 5.8 cm and 5.8 cm tall, about 36 g (estimated).

Build the flipper feet and small body, then add the rounded shell and head. Three blue elbow pieces curl into the tail.

You will need

- The 42 pieces in 6 colours listed at the back, with their LEGO element IDs and BrickLink numbers.
- A brick separator for pieces that sit too deep for a finger.

Tips

- Sort the pieces by colour before you start.
- Build the sections in order: each sub-assembly is finished before it is used.
- New pieces in a step have a yellow outline; earlier pieces are drawn paler.

The 6 colours

- Medium Azure: 31
- Tan: 4
- Reddish Brown: 2
- White: 2
- Red: 2
- Black: 1

How to read the steps

Parts and step number

7

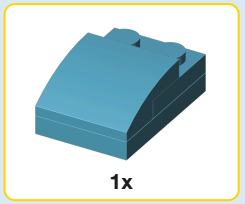

2x

The parts for the step and how many of each, then the step number. The parts of a step are drawn at one scale, so a longer one looks longer; a tile or a long plate also has its size in studs under it.

New parts

The parts added in a step have a yellow outline and are drawn in full colour; the parts from earlier steps are drawn paler.

Sub-assemblies

1x

A yellow-framed picture means: put in the sub-assembly you built in its own section. "Build 4x" means you need four of them.

Sections

Each section starts with its name at the top of the page. Sections are built in the order they appear.

Seen from below

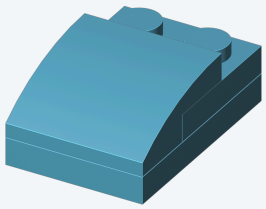

When a step adds parts underneath, the picture shows the model from below. A small label says so (and "seen from behind" likewise). A piece the picture cannot show gets a small picture beside it, ringed in yellow, from the side it can be seen from: where it clicks in.

Insert direction

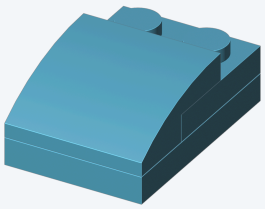

Some parts slide in sideways (axles through bearings, gears onto axles). The picture shows where they end up; push them in along their axle.

Build overview

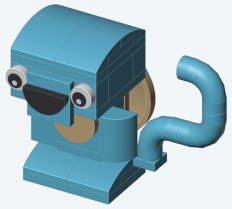

The model is built in 3 sections. Each is finished before it is used.

1. Right foot
steps 1–2

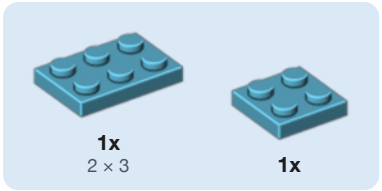

2. Left foot
steps 3–4

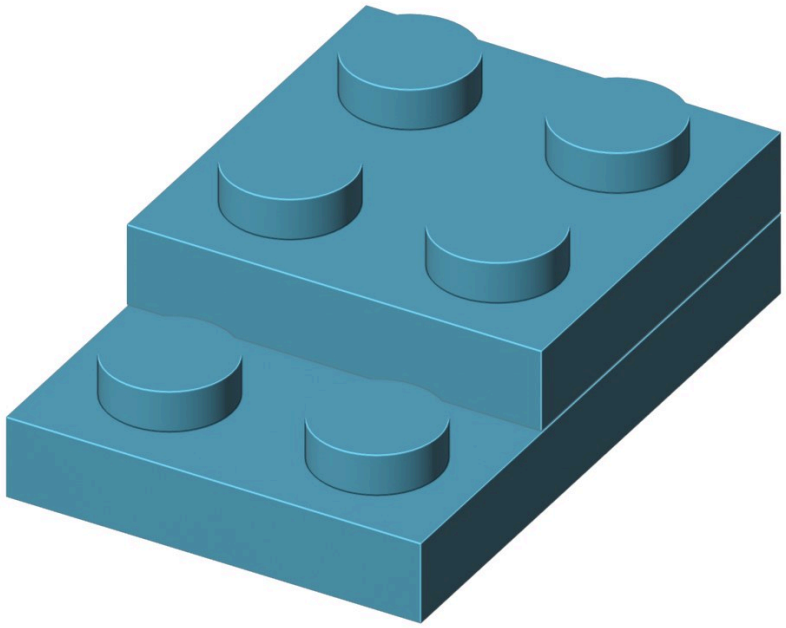

3. Squirtle
steps 5–20

RIGHT FOOT

1

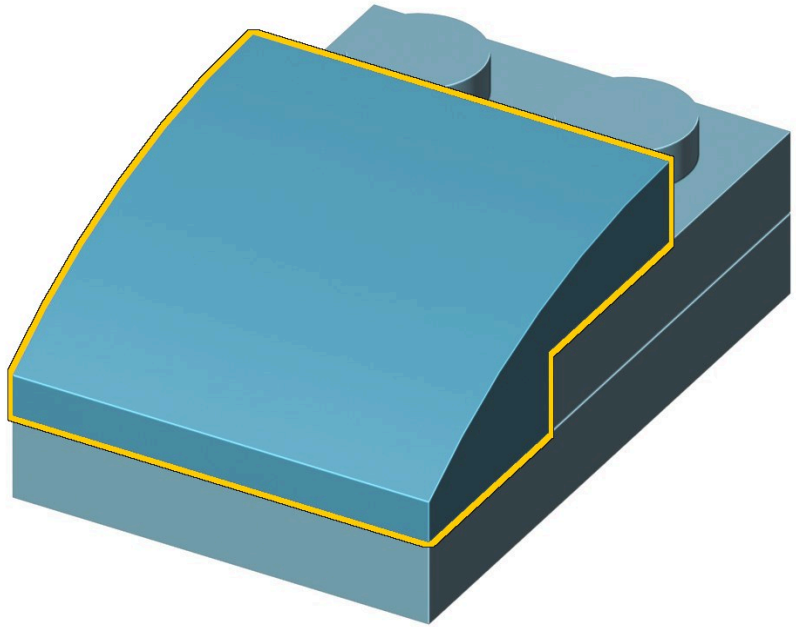

A broad blue sole with a raised heel

2

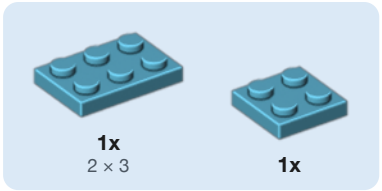

Round the front into a flipper toe

LEFT FOOT

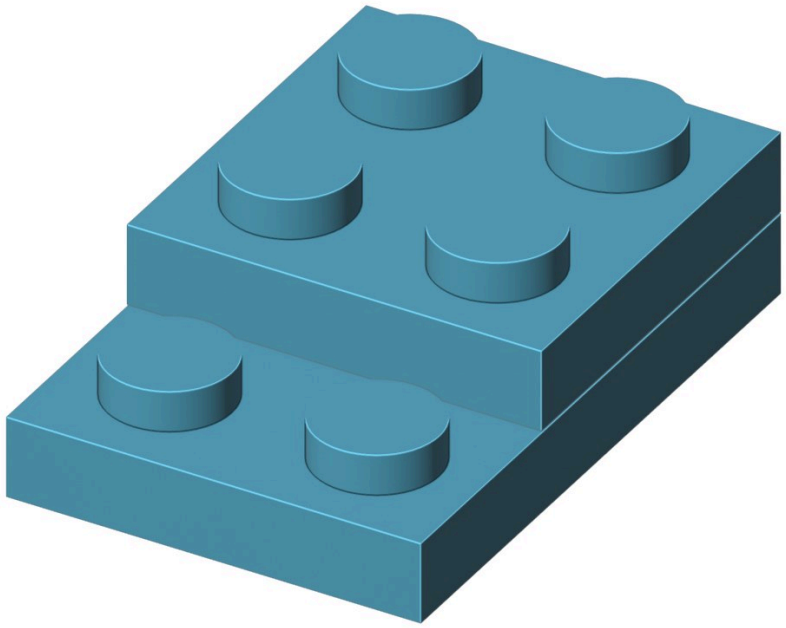

3

1x
2 × 3

1x

A broad blue sole with a raised heel

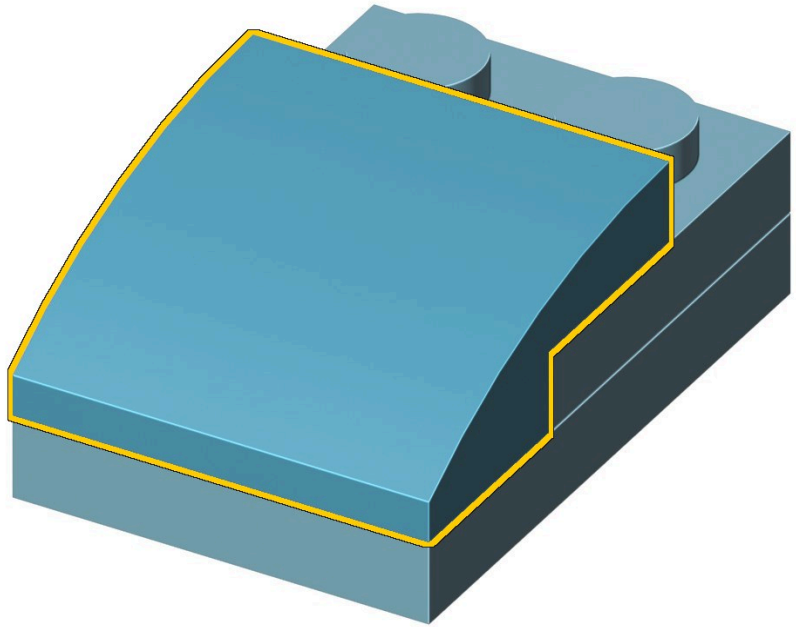

4

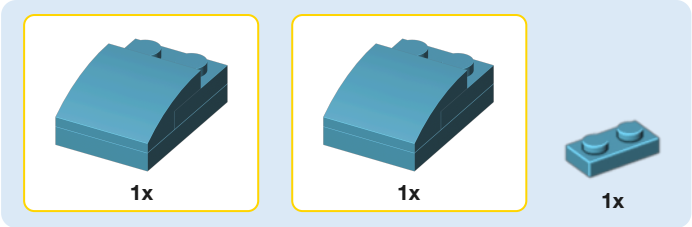

1x

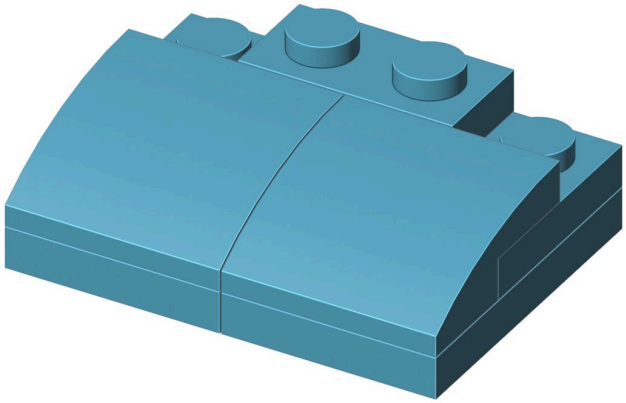

Round the front into a flipper toe

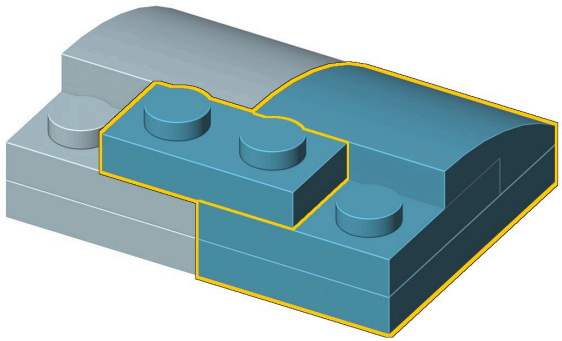

5

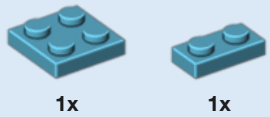

Stand the two flipper feet side by side, toes forward, and tie their heels together with a blue 1 x 2 plate

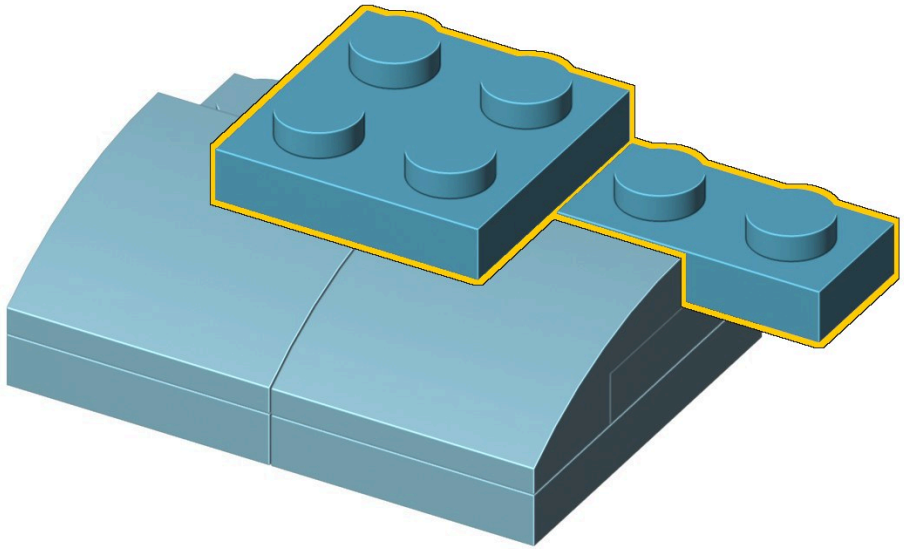

From behind: the outlined pieces.

6

A blue plate behind the right heel starts the outboard tail, and a second hip plate leaves clearance above the curved toes

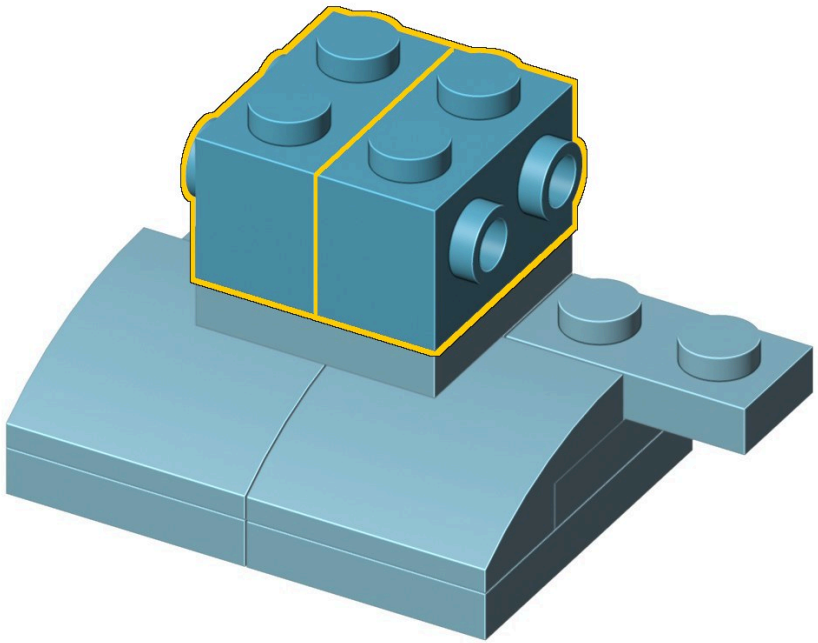

7

2x

Two bricks turn studs toward the sides for the little arms

8

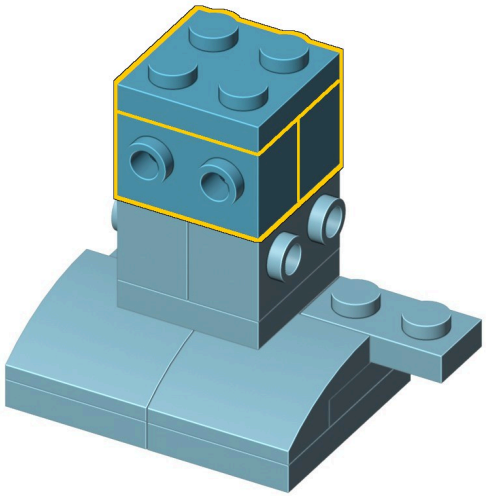

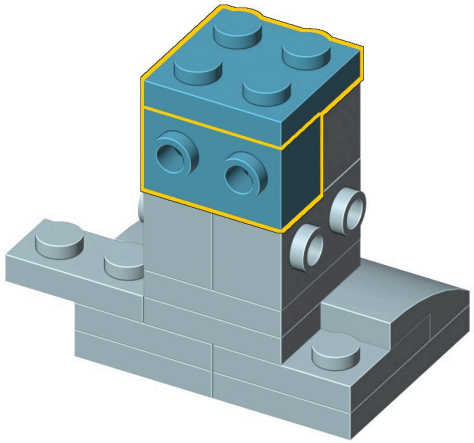

2x

1x

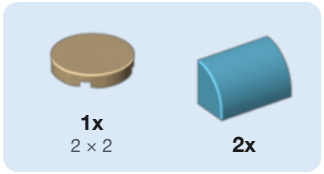

The chest and back each have two studs for the belly and shell

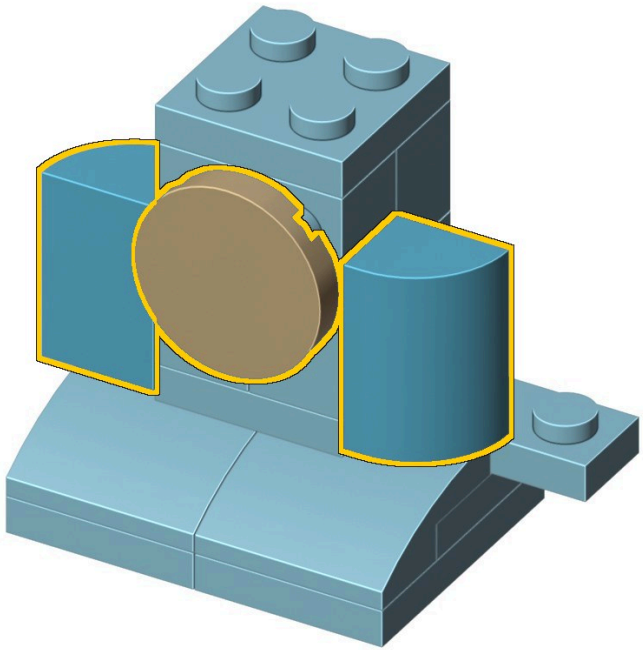

From behind: the outlined pieces.

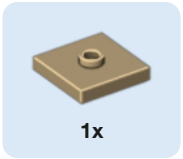

9

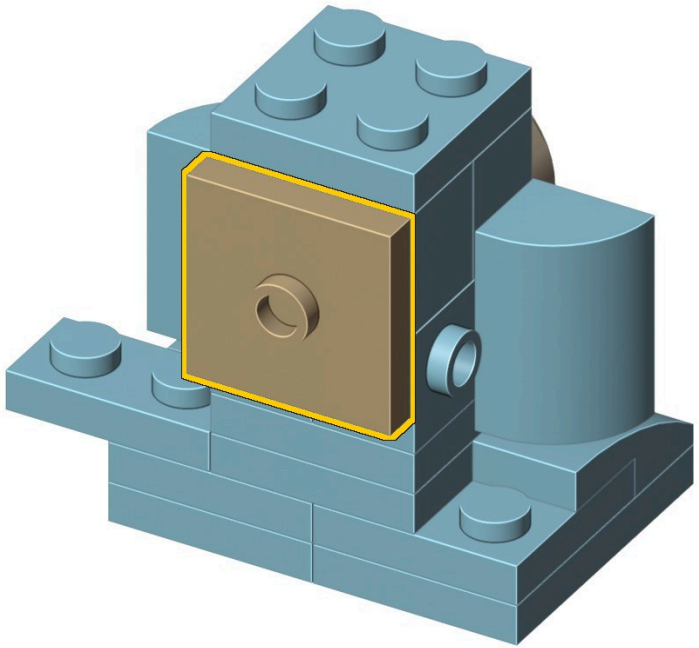

A round tan belly and two rounded blue flippers

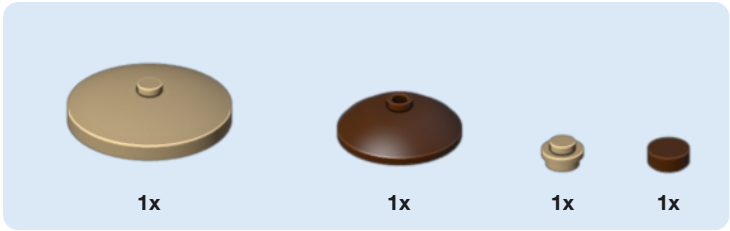

10

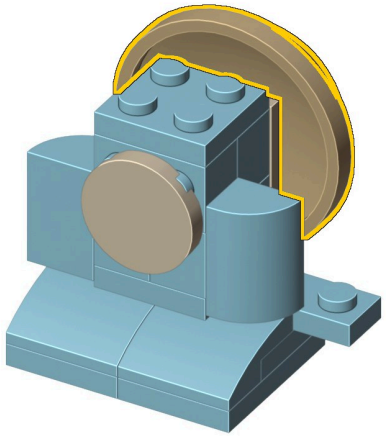

A jumper behind the body centres the shell

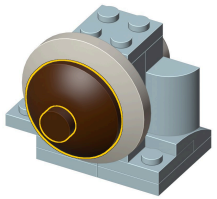

11

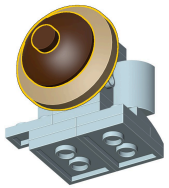

A tan rim around a brown domed shell, finished with a smooth centre

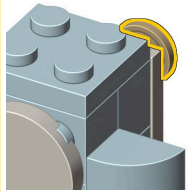

From behind: the outlined pieces.

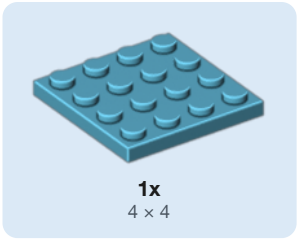

From behind and below: the outlined pieces.

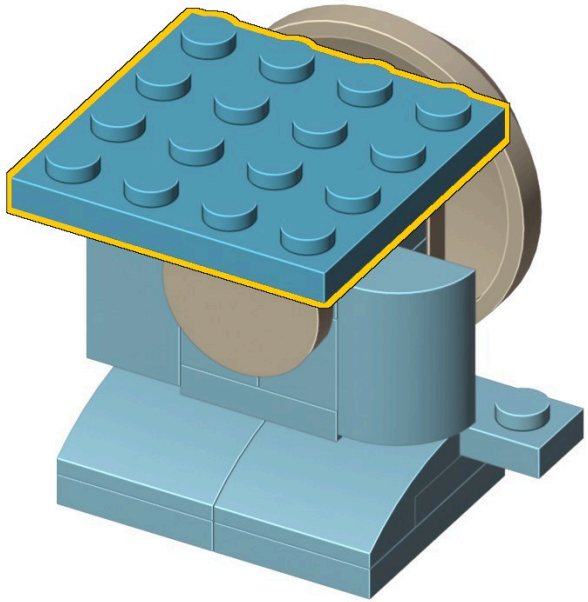

First the outlined piece: the others go on over it.

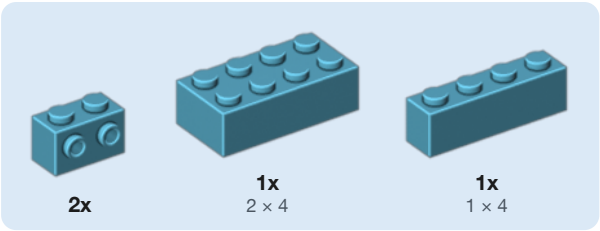

12

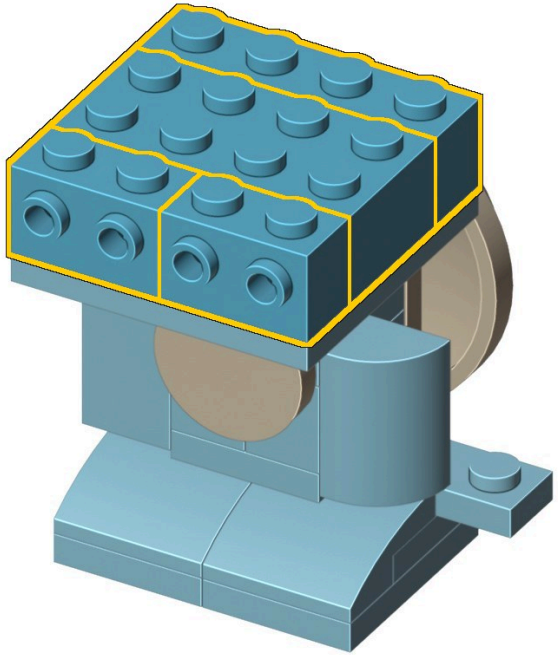

A wide plate supports the oversized head

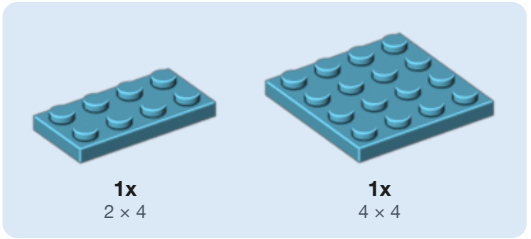

13

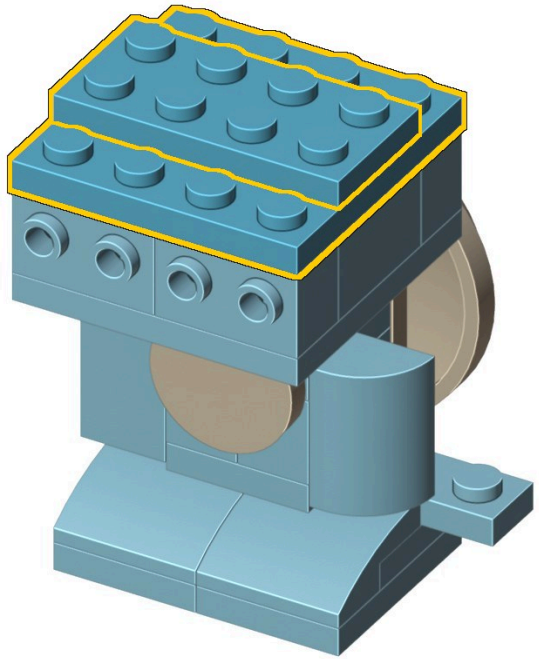

Two eye-support bricks in front and two bricks behind them

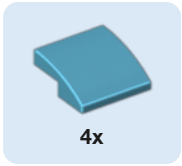

14

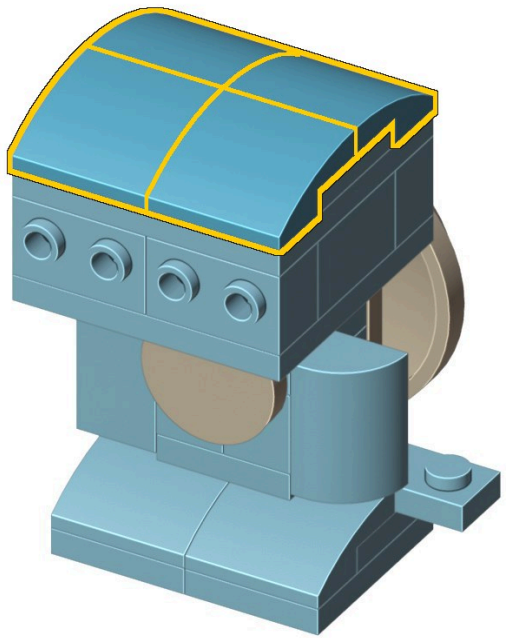

Tie the head together and raise the centre of the crown

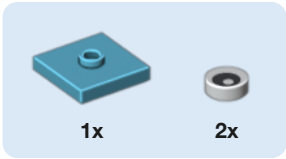

15

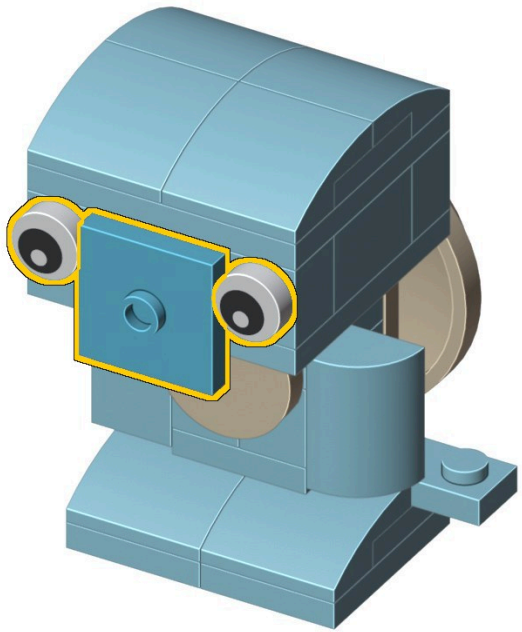

Four curved slopes make a rounded blue crown

16

Two printed eyes and a small blue pad for the smile

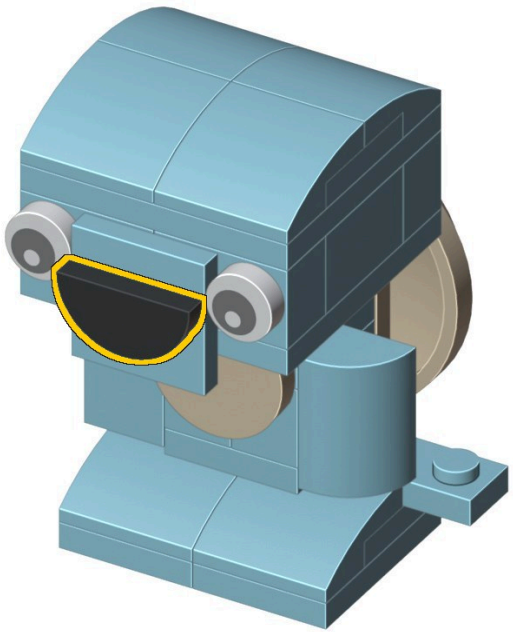

17

1x
1 × 2

A little black smile below the eyes

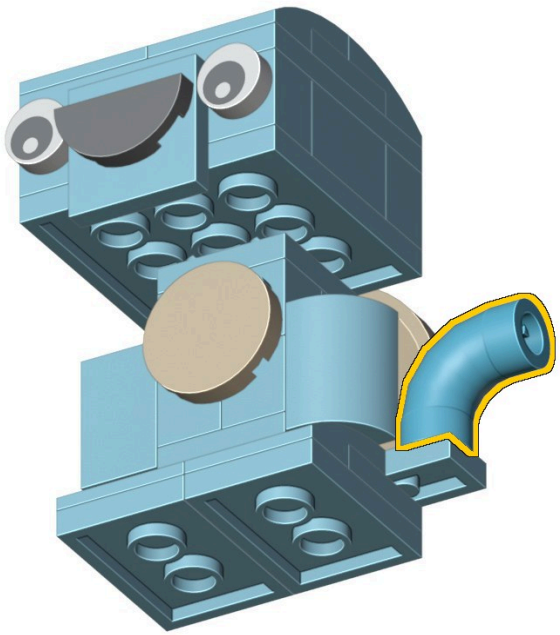

18

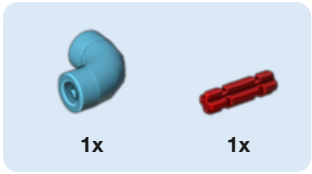

1x

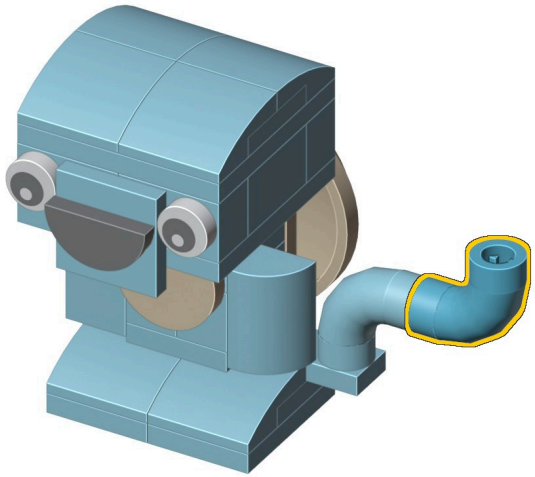

The first blue elbow curls up from the heel

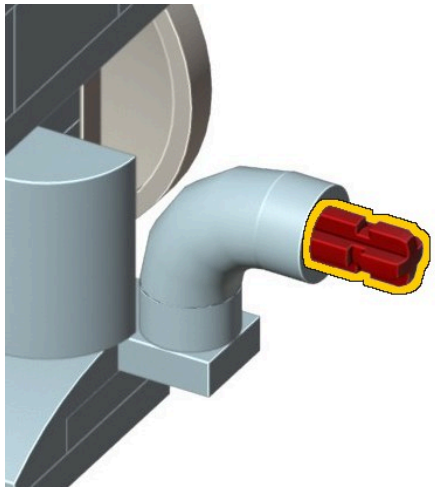

19

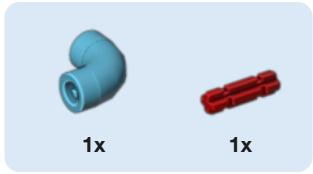

An axle joins the next blue bend, turning the tail upward

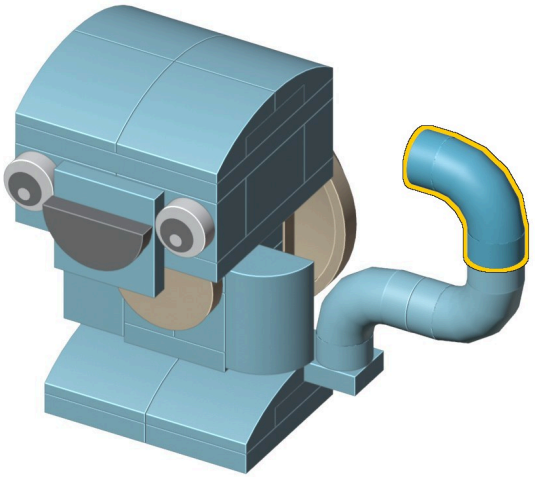

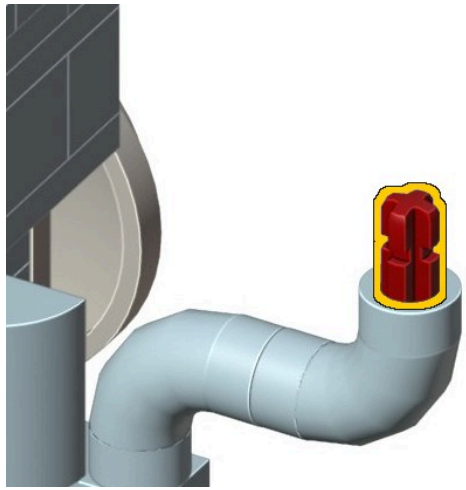

First the outlined piece: the others go on over it.

20

One more axle and elbow curl the tip back toward the head

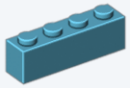

First the outlined piece: the others go on over it.

Parts inventory

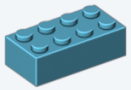

42 pieces in 21 part/colour lines. Bold: the LEGO element ID (what LEGO Pick a Brick sells); below: the colour and the BrickLink part number.

About this model

Build the flipper feet and small body, then add the rounded shell and head. Three blue elbow pieces curl into the tail.

Checked on a computer

PASS	**real elements**	21 part/colour combinations: 0 not real, 0 rare
PASS	**connections**	115 connections (108 stud, 6 axle, 1 pin); 1 separate piece(s)
PASS	**collisions**	0 overlapping pair(s) among 42 parts
PASS	**buildability**	40 insertions tried across 3 submodel(s); 0 problem(s)
PASS	**stability**	about 36 g; centre of mass inside the base (93% margin); tips at 19.5 deg
PASS	**mechanism**	no moving parts defined
PASS	**electrics**	no electrics in this model
PASS	**technique**	0 note(s)

Not yet built with real bricks

These checks catch most mistakes a designer can make, but not all: clutch power, part tolerances, how stiff a long axle is and how the model survives handling can only be judged with real bricks. If you build it, we would love to hear how it went.

Files

3D model (LDraw, opens in BrickLink Studio, LeoCAD and LDCad), parts lists for BrickLink and LEGO Pick a Brick, and an interactive 3D viewer: **bricks.vhsgarage.com/m/squirtle**
